

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

DIAL 3 and other screening data gleaned from annual Spring Kindergarten enrollment screenings were used to identify the youngest learners most in need of remediation of core skills in order to ensure a more successful transition to their start of Kindergarten. Summer

Learning Academy was held in the beginning of August in preparation for the beginning of the school year.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

- Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children with Disabilities	Academic Growth	38	Summer Learning Academy via invitation based on Kindergarten screening assessments. Impacts will be measured by K benchmarks at least 3x throughout the 21-22 school year

- Describe the evidence-based resources that will be used to support student growth during the summer school program.

Compared to screening data during Kindergarten entry screenings, 3 separate benchmark assessments throughout the 21-22 school year to support the effectiveness of the Summer Learning Camp to help narrow the skills gap. Core skill development in reading and math is the focus in the Summer, which will be assessed via observation from the beginning to the end of the camp.

- Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
6	Internal Provider	served as teacher during the Summer Learning Academy

Number of Staff Members	Internal/Outside Provider	Role

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Readiness Checklists	throughout learning camp	incoming Kindergarteners with deficits identified during Spring screenings remediated enough to experience success starting Kindergarten

6. How will the LEA engage families in the summer school program?

Each qualifying family/child received its own unique invitation which encouraged them to sign up their child via an easy to use and register Google Form. A commitment for attendance at all scheduled days of the camp was requested as well. A report on the child's success and progress, as well as readiness for Kindergarten was also issued.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget
 \$14,794.00
Allocation
 \$14,794.00

Budget Over(Under) Allocation
 \$0.00

Budget Summary

Function	Object	Amount	Description
1000 - Instruction	100 - Salaries	\$9,656.50	compensation for 6 teachers to run the Summer Learning Academy
1000 - Instruction	200 - Benefits	\$1,825.04	benefits for 6 teachers to run the Summer Learning Academy
1000 - Instruction	300 - Purchased Professional and Technical Services	\$3,312.46	costs for 10 days of two building level subs to assist with Summer Learning Academy (via ESS)
		\$14,794.00	

Section: Budget - Support and Non-Instructional Expenditures

Support and Non-Instructional Expenditures

Budget
\$14,794.00
Allocation
\$14,794.00

Budget Over(Under) Allocation
\$0.00
