April 11, 2018

Dear Parents and Guardians:

The education, health, safety, and well-being of our students, families, and community is a top priority of the Freeport Area School District, and it is our duty to provide as many educational opportunities for our families as possible. A health related issue that has impacted families nation-wide and communities close to home is that of the growing opioid epidemic. The School District has worked with local law enforcement, health care providers, and other experts in the field such as the Department of Health, UMPC, the FBI, and the DEA to educate our high school and middle school students on the epidemic and how we can support efforts to combat the dangers of opioid abuse.

To expand upon the initiatives of the high school and middle school in this important area, South Buffalo Elementary and Buffalo Elementary, along with the leadership of both building's PTOs are joining together to present a similar program to our parents. This informative presentation will take place on **Wednesday, April 25th at 6:30 at the Middle School Auditorium**. FASD administration and representatives from the FBI and DEA will be sharing information and providing guidance to parents of both elementary schools. Please accept this letter as an open invitation requesting your presence at the event. The sensitive content of the program necessitates an adult only audience. Finding childcare in order to attend an evening program is understandably difficult. To help facilitate and encourage your attendance, members of the high school Key Club will be in attendance to provide a child care option at the Middle School during the event.

In order to properly plan for the program, we ask that you RSVP the number of adults attending, and children (for child care purposes) to Jeffrey S. Lesko at 724-295-9510 or lesko@freeport.k12.pa.us by **Monday, April 23rd**. You may also return the bottom portion of this letter to the South Buffalo or Buffalo Elementary Offices. If you have any questions, please do not hesitate to contact Mr. Lesko at the above number or email address. We look forward to your attendance and participation!

Sincerely,

Jeffrey S. Lesko
