All Board policies and administrative regulations shall be interpreted and administered in a lawful manner. The Board shall make the final interpretation of its policies, and the administration shall make the final interpretation of its regulations.

Board policies and procedures and administrative regulations are limited by legal constraints, as are the rights of those to whom Board policies and administrative regulations apply, and are not intended to give an individual a cause of action not independently established in law.

Board policies and procedures and administrative regulations shall not preempt, create, supplant, expand or restrict the rights or liabilities of students, employees, residents or others within the school community beyond those established in law.

Section 4. Rules Of Construction

In ascertaining the intent of the Board in adopting a policy or procedure, or of the administration in establishing a regulation, the following presumptions, among other legally applicable presumptions, may be used:

a. That neither the Board nor the administration intends a result that is absurd, impossible of execution, or unreasonable.

b. That neither the Board nor the administration intends to violate federal or state Constitutions or any other applicable law.

If any policy or procedure or administrative regulation can be given multiple interpretations, the Board and the administration intend that only constitutional and lawful interpretations shall be valid, and that neither an unconstitutional nor an unlawful interpretation was intended.

ADOPTED: November 8, 2017

REVISED:

FREEPORT AREA SCHOOL DISTRICT

006.1. ATTENDANCE AT MEETINGS VIA ELECTRONIC COMMUNICATIONS

Section 1. Authority

The Board recognizes that factors such as illness, travel, schedule conflicts and weather conditions can make impossible the physical presence of a Board member at a Board meeting, and that electronic communications can enable a Board member to participate in a meeting from a remote location.

A Board member shall be able to attend a Board meeting, and participate in Board deliberations and voting, through electronic communications, but only under extraordinary circumstances.

The Board authorizes the administration to provide the equipment and facilities required to implement this Board procedure.

Section 2. Guidelines

A Board member who attends a meeting through electronic communications shall be considered present only if the member can hear everything said at the meeting and all those attending the meeting can hear everything said by that member. If the Board President determines either condition is not occurring, s/he shall terminate the Board member’s attendance through electronic communications.

A majority of Board members shall be physically present at a Board meeting when a Board member attends through electronic communications.

To attend a Board meeting through electronic communications, a Board member shall comply with the following:

a. Submit such request to the Board President sufficiently in advance of the meeting to allow the setup of appropriate audio/telephonic equipment.
b. Ensure that the remote location is quiet and free from background noise and interruptions.

c. Participate in the entire Board meeting.

1. Authority

The Board declares it to be the policy of this district to provide an equal opportunity for all students to achieve their maximum potential through the programs offered in the schools without discrimination on the basis of race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, pregnancy or handicap/disability.

The district strives to maintain a safe, positive learning environment for all students that is free from discrimination. Discrimination is inconsistent with the educational and programmatic goals of the district and is prohibited on school grounds, at school-sponsored activities and on any conveyance providing transportation to or from a school entity or school-sponsored activity.

The district shall provide to all students, without discrimination, course offerings, counseling, assistance, services, employment, athletics and extracurricular activities. The district shall make reasonable accommodations for identified physical and mental impairments that constitute handicaps and disabilities, consistent with the requirements of federal and state laws and regulations.

The Board encourages students and third parties who believe they or others have been subject to discrimination to promptly report such incidents to designated employees, even if some elements of the related incident took place or originated away from school grounds, school activities or school conveyances.
The Board directs that verbal and written complaints of discrimination shall be investigated promptly, and appropriate corrective or preventative action be taken when allegations are substantiated. The Board directs that any complaint of discrimination brought pursuant to this policy shall also be reviewed for conduct which may not be proven discriminatory under this policy but merits review and possible action under other Board policies.

Confidentiality

Confidentiality of all parties, witnesses, the allegations, the filing of a complaint and the investigation shall be handled in accordance with this policy and the district’s legal and investigative obligations.

Retaliation

The Board prohibits retaliation against any person for making a report of discrimination or participating in a related investigation or hearing, or for opposing practices the person reasonably believes to be discriminatory. A complaint of retaliation shall be handled in the same manner as a complaint of discrimination.

2. Definitions

**Discriminatory Harassment**

Harassment by students, employees or third parties on the basis of race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, pregnancy, handicap/disability or for participation in reports or investigations of alleged discrimination is a form of discrimination and is subject to this policy. A person who is not necessarily an intended victim or target of such harassment but is adversely affected by the offensive conduct may file a report of discrimination on his/her own behalf.

For purposes of this policy, harassment shall consist of unwelcome conduct such as graphic, written, electronic, verbal or nonverbal acts including offensive jokes, slurs, epithets and name-calling, ridicule or mockery, insults or put-downs, offensive objects or pictures, physical assaults or threats, intimidation, or other conduct that may be harmful or humiliating or interfere with a person’s school or school-related performance and which relates to an individual’s or group’s race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, pregnancy or handicap/disability when such conduct is:

1. Sufficiently severe, persistent or pervasive; and
2. A reasonable person in the complainant’s position would find that it creates an intimidating, threatening or abusive educational environment such that it deprives or adversely interferes with or limits an individual or group of the ability to participate in or benefit from the services, activities or opportunities offered by a school.

### Sexual Harassment

Sexual harassment is a form of discrimination on the basis of sex and is subject to this policy. For purposes of this policy, sexual harassment shall consist of unwelcome sexual advances; requests for sexual favors; and other inappropriate verbal, nonverbal, written, graphic or physical conduct of a sexual nature when:

1. Submission to such conduct is made explicitly or implicitly a term or condition of a student’s status in any educational or other programs offered by a school; or

2. Submission to or rejection of such conduct is used as the basis for educational or other program decisions affecting a student; or

3. Such conduct deprives a student or group of individuals of educational aid, benefits, services or treatment; or

4. Such conduct is sufficiently severe, persistent or pervasive that a reasonable person in the complainant’s position would find that it unreasonably interferes with the complainant’s performance in school or school-related programs, or otherwise creates an intimidating, hostile, or offensive school or school-related environment such that it unreasonably interferes with the complainant’s access to or participation in school or school-related programs.

Federal law declares sexual violence a form of sexual harassment. Sexual violence means physical or sexual acts perpetrated against a person’s will or where a person is incapable of giving consent due to the victim’s use of drugs or alcohol. An individual may also be unable to give consent due to an intellectual or other disability. Sexual violence includes but is not limited to rape, sexual assault, sexual battery and sexual coercion.

### Delegation of Responsibility

In order to maintain a program of nondiscrimination practices that is in compliance with applicable laws and regulations, the Board designates the Program Director/Title IX Coordinator as the district’s Compliance Officer. All nondiscrimination notices or information shall include the position, office address, telephone number and email address of the Compliance Officer.
The Compliance Officer shall publish and disseminate this policy and complaint procedure at least annually to students, parents/guardians, employees and the public to notify them of where and how to initiate complaints under this policy.

The Compliance Officer is responsible to ensure adequate nondiscrimination procedures are in place, to recommend new procedures or modifications to procedures and to monitor the implementation of the district’s nondiscrimination procedures in the following areas:

1. **Curriculum and Materials** - Review of curriculum guides, textbooks and supplemental materials for discriminatory bias.
2. **Training** - Provision of training for students and staff to prevent, identify and alleviate problems of discrimination.
3. **Resources** - Maintain and provide information to staff on resources available to alleged victims in addition to the school complaint procedure, such as making reports to the police, available assistance from domestic violence or rape crisis programs and community health resources including counseling resources.
4. **Student Access** - Review of programs, activities and practices to ensure that all students have equal access and are not segregated except when permissible by law or regulation.
5. **District Support** - Assurance that like aspects of the school program receive like support as to staffing and compensation, facilities, equipment, and related areas.
6. **Student Evaluation** - Review of tests, procedures, and guidance and counseling materials for stereotyping and discrimination.
7. **Complaints** - Monitor and provide technical assistance to building principals or designee in processing complaints.

The building principal or designee shall be responsible to promptly complete the following duties upon receipt of a report of discrimination or retaliation from a student, employee or third party:

1. If the building principal is the subject of the complaint, refer the complainant to the Compliance Officer to carry out these responsibilities.
2. Inform the complainant about this policy including the right to an investigation of both oral and written complaints of discrimination.

3. Seek to obtain consent from parents/guardians to initiate an investigation where the complainant or alleged victim is under age eighteen (18). Inform parents/guardians of the complainant that the complainant may be accompanied by a parent/guardian during all steps of the complaint procedure. When a parent/guardian requests confidentiality and will not consent to the alleged victim’s participation in an investigation, explain that the school shall take all reasonable steps to investigate and respond to the complaint consistent with that request for confidentiality as long as doing so does not preclude the school from responding effectively to the discrimination and preventing discrimination of other students.

4. Provide relevant information on resources available in addition to the school complaint procedure, such as making reports to the police, available assistance from domestic violence or rape crisis programs and community health resources including counseling resources.

5. Immediately notify the Compliance Officer of the complaint. The Compliance Officer shall assess whether the investigation should be conducted by the building principal, another district employee, the Compliance Officer or an attorney and shall promptly assign the investigation to that individual. When a parent/guardian has requested confidentiality and will not consent to the alleged victim’s participation in an investigation, the Compliance Officer shall provide the parent/guardian with a letter containing information related to the district’s legal obligations to conduct an investigation and address violations of this policy, and any other information appropriate to the specific complaint.

6. After consideration of the allegations and in consultation with the Compliance Officer and other appropriate individuals, promptly implement interim measures as appropriate to protect the complainant and others as necessary from violation of this policy during the course of the investigation.
4. **Guidelines**

**Complaint Procedure – Student/Third Party**

**Step 1 – Reporting**

A student or third party who believes s/he has been subject to conduct by any student, employee or third party that constitutes a violation of this policy is encouraged to immediately report the incident to the building principal. Any person with knowledge of conduct that may violate this policy is encouraged to immediately report the matter to the building principal.

A school employee who suspects or is notified that a student has been subject to conduct that constitutes a violation of this policy shall immediately report the incident to the building principal, as well as properly making any mandatory police or child protective services reports required by law.\[27\]

If the building principal is the subject of a complaint, the student, third party or employee shall report the incident directly to the Compliance Officer.

The complainant or reporting employee may be encouraged to use the district’s report form, available from the building principal or Compliance Officer, or to put the complaint in writing; however, oral complaints shall be accepted, documented and the procedures of this policy implemented. The person accepting the verbal or written complaint may provide factual information on the complaint and the investigative process, the impact of choosing to seek confidentiality and the right to file criminal charges. In all other respects, the person accepting the complaint shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor the complainant or those accused of a violation of this policy.

**Step 2 – Investigation**

The Compliance Officer shall ensure that the individual assigned to investigate the complaint has an appropriate understanding of the relevant laws pertaining to discrimination issues and this policy and how to conduct investigations.

The investigator shall work with the Compliance Officer to assess the anticipated scope of the investigation, who needs to be interviewed and what records may be relevant to the investigation.
The investigator shall conduct an adequate, reliable and impartial investigation. The complainant and the accused may suggest additional witnesses and provide other evidence during the course of the investigation. When the initial complaint involves allegations relating to conduct which took place away from school property, school-sponsored activities or school conveyances, the investigation may include inquiries related to these allegations to determine whether they resulted in continuing effects such as harassment in school settings.

The investigation may consist of individual interviews with the complainant, the accused, and others with knowledge relative to the allegations. The investigator may also evaluate any other information and materials relevant to the investigation. The person making the report, parties, parents/guardians and witnesses shall be informed of the prohibition against retaliation for anyone’s participation in the process and that conduct believed to be retaliatory should be reported. All individuals providing statements or other information or participating in the investigation shall be instructed to keep the matter confidential and to report any concerns about confidentiality to the investigator.

If the investigation reveals that the conduct being investigated may involve a violation of criminal law, the investigator shall promptly notify the Compliance Officer, who shall promptly inform law enforcement authorities about the allegations.[27][28][29]

The obligation to conduct this investigation shall not be negated by the fact that a criminal or child protective services investigation of the allegations is pending or has been concluded. The investigator should coordinate with any other ongoing investigations of the allegations, including agreeing to requests for a short delay in fulfilling the district’s investigative responsibilities during the fact-finding portion of a criminal or child protective services investigation. Such delays shall not extend beyond the time necessary to prevent interference with or disruption of the criminal or child protective services investigation.

Step 3 – Investigative Report

The investigator shall prepare and submit a written report to the Compliance Officer within twenty (20) days of the initial report of alleged discrimination, unless the nature of the allegations, anticipated extent of the investigation or the availability of witnesses requires the investigator and the Compliance Officer to establish a different due date. The parties shall be notified of the anticipated date the investigative report will be completed and of any changes to the anticipated due date during the course of the investigation.
The report shall include a summary of the investigation, a determination of whether the complaint has been substantiated as factual, the information and evaluation that formed the basis for this determination, whether the conduct violated this policy and of any other violations of law or Board policy which may warrant further district action, and a recommended disposition of the complaint. An investigation into discriminatory harassment or sexual harassment shall consider the record as a whole and the totality of circumstances in determining whether a violation of this policy has occurred, recognizing that persistent and pervasive conduct, when taken together, may be a violation even when the separate incidents are not severe.

The complainant and the accused shall be informed of the outcome of the investigation, for example, whether the investigator believes the allegations to be founded or unfounded, within a reasonable time of the submission of the written report to the extent authorized by the Family Educational Rights and Privacy Act (FERPA) and other applicable laws. The accused shall not be notified of the individual remedies offered or provided to the complainant.

Step 4 – District Action

If the investigation results in a finding that some or all of the allegations of the complaint are established and constitute a violation of this policy, the district shall take prompt, corrective action designed to ensure that such conduct ceases and that no retaliation occurs. The district shall promptly take appropriate steps to prevent the recurrence of the prohibited conduct and to address the discriminatory effect the prohibited conduct had on the complainant and the school or school program environment. District staff shall document the corrective action taken and, where not prohibited by law, inform the complainant. The Compliance Officer shall follow up by assessing the effectiveness of the corrective action at reasonable intervals.

If an investigation results in a finding that a different policy was violated separately from or in addition to violations of this policy, or that there are circumstances warranting further action, such matters shall be addressed at the conclusion of this investigation or through disciplinary or other appropriate referrals where further evaluation or investigation is necessary.

Disciplinary actions shall be consistent with the Code of Student Conduct, Board policies and administrative regulations, district procedures, applicable collective bargaining agreements, and state and federal laws.
Appeal Procedure

1. If the complainant or the accused is not satisfied with a finding made pursuant to the policy or with recommended corrective action, s/he may submit a written appeal to the Compliance Officer within fifteen (15) days. If the Compliance Officer investigated the complaint, such appeal shall be made to the Superintendent.

2. The individual receiving the appeal shall review the investigation and the investigative report and may also conduct or designate another person to conduct a reasonable supplemental investigation to assess the sufficiency and propriety of the prior investigation.

3. The person handling the appeal shall prepare a written response to the appeal within twenty (20) days. Copies of the response shall be provided to the complainant, the accused and the investigator who conducted the initial investigation.

# 103.1. NONDISCRIMINATION – QUALIFIED STUDENTS WITH DISABILITIES

## Authority

The Board declares it to be the policy of this district to ensure that all district programs and practices are free from discrimination against all qualified students with disabilities. The Board recognizes its responsibility to provide academic and nonacademic services and programs equally to students with and without disabilities.[1][2][3][4][5][6][7][8][9][10]

The district shall provide to each qualified student with a disability enrolled in the district, without cost to the student or parent/guardian, a free and appropriate public education (FAPE). This includes provision of education and related aids, services, or accommodations which are needed to afford each qualified student with a disability equal opportunity to participate in and obtain the benefits from educational programs and extracurricular activities without discrimination, to the same extent as each student without a disability, consistent with federal and state laws and regulations.

The Board encourages students and parents/guardians who believe they have been subjected to discrimination or harassment to promptly report such incidents to designated employees.

The Board directs that complaints of discrimination or harassment shall be investigated promptly, and corrective or preventative action be taken for substantiated allegations.

## Confidentiality

Confidentiality of all parties, witnesses, the allegations, the filing of a complaint and the investigation shall be maintained, consistent with the district’s legal and investigative obligations.

| Qualified student with a disability | a student who has a physical or mental disability which substantially limits or prohibits participation in or access to an aspect of the district’s educational programs, nonacademic services or extracurricular activities.[11][12] |

| Section 504 Team | a group of individuals who are knowledgeable about the student, the meaning of the evaluation data and the placement options for the student. This could include, as appropriate, documentation or input from classroom teachers, counselors, psychologists, school nurses, outside care providers and the student’s parents/guardians.[3][8] |

| Section 504 Service Agreement (Service Agreement) | an individualized plan for a qualified student with a disability which sets forth the specific related aids, services, or accommodations needed by the student, which shall be implemented in school, in transit to and from school, and in all programs and procedures, so that the student has equal access to the benefits of the school’s educational programs, nonacademic services, and extracurricular activities.[13] |

| Disability harassment | intimidation or abusive behavior toward a student based on disability that creates a hostile environment by interfering with or denying a student’s participation in or receipt of benefits, services, or opportunities in the school’s educational programs, nonacademic services, or extracurricular activities.[10] |

| Delegation of Responsibility | In order to maintain a program of nondiscrimination practices that is in compliance with applicable law and regulations, the Board designates the Special Services Coordinator as the district’s Section 504 Coordinator.[14] |

|             | In addition, each school within the district shall have a Section 504 building administrator. |

|             | The district shall publish and disseminate this policy and complaint procedure on or before the first day of each school year by posting it on the district’s website, if available, and in the student handbook. The district shall notify parents/guardians of students residing in the district of the district’s responsibilities under applicable law and regulations, and that the district does not discriminate against qualified individuals with disabilities.[15][16] |
### Guidelines

**Identification and Evaluation**

The district shall conduct an annual child find campaign to locate and identify every district student with a disability thought to be eligible for Section 504 services and protections. The district may combine this search with the district’s IDEA child find efforts, in order to not duplicate efforts.\(^{16}\)\(^{17}\)

If a parent/guardian or the district has reason to believe that a student should be identified as a qualified student with a disability, should no longer be identified as a qualified student with a disability, or requires a change in or modification of the student’s current Service Agreement, the parent/guardian or the district shall provide the other party with written notice.\(^{18}\)\(^{19}\)\(^{20}\)

The district shall establish standards and procedures for initial evaluations and periodic re-evaluations of students who need or are believed to need related services because of a disability.\(^{20}\)

The district shall specifically identify the procedures and types of tests used to evaluate a student, and provide the parent/guardian the opportunity to give or withhold consent to the proposed evaluation(s) in writing.\(^{20}\)

The district shall establish procedures for evaluation and placement that assure tests and other evaluation materials:

1. Have been validated and are administered by trained personnel.

2. Are tailored to assess educational need and are not based solely on IQ scores.

3. Reflect aptitude or achievement or anything else the tests purport to measure and do not reflect the student’s impaired sensory, manual or speaking skills (except where those skills are what is being measured).

**Service Agreement**

If a student is determined to be a qualified student with a disability, the district shall develop a written Service Agreement for the delivery of all appropriate aids, services, or accommodations necessary to provide the student with FAPE.\(^{13}\)

The district shall not implement a Service Agreement until the written agreement is executed by a representative of the district and a parent/guardian.\(^{13}\)

The district shall not modify or terminate a student’s current Service Agreement without the parent’s/guardian’s written consent.\(^{18}\)
### Educational Programs/Nonacademic Services/Extracurricular Activities

The district shall educate a qualified student with a disability with students who are not disabled to the maximum extent appropriate to the needs of the student with a disability. A qualified student with a disability shall be removed from the regular educational environment only when the district determines that educating the student in the regular educational environment with the use of related aids, services, or accommodations cannot be achieved satisfactorily. Placement in a setting other than the regular educational environment shall take into account the proximity of the alternative setting to the student’s home.\(^{[21]}\)\(^{[22]}\)

The district shall not discriminate against any qualified student with a disability in its provision of nonacademic services and extracurricular activities, including but not limited to, counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs, and referrals to agencies which provide assistance to individuals with disabilities.\(^{[21]}\)\(^{[22]}\)\(^{[23]}\)\(^{[24]}\)\(^{[25]}\)\(^{[26]}\)\(^{[27]}\)

### Parental Involvement

Parents/Guardians have the right to inspect and review all relevant school records of the student, meet with the appropriate school officials to discuss any and all issues relevant to the evaluation and accommodations of their child, and give or withhold their written consent to the evaluation and/or the provision of services.\(^{[13]}\)\(^{[19]}\)\(^{[20]}\)\(^{[28]}\)

### Confidentiality of Student Records

All personally identifiable information regarding a qualified student with a disability shall be treated as confidential and disclosed only as permitted by the Family Educational Rights and Privacy Act (FERPA) and its implementing regulations, state regulations, and Board policy.\(^{[29]}\)\(^{[30]}\)\(^{[31]}\)\(^{[32]}\)

### Discipline

When necessary, the district shall discipline qualified students with disabilities in accordance with state and federal laws and regulations and Board policies.\(^{[33]}\)\(^{[34]}\)
Referral to Law Enforcement and Reporting Requirements

For reporting purposes, the term incident shall mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco; or conduct that constitutes an offense listed under the Safe Schools Act.\[35\][36][37]

The Superintendent or designee shall immediately report required incidents and may report discretionary incidents committed on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity by a qualified student with a disability, including a student for whom an evaluation is pending, to the local police department that has jurisdiction over the school’s property, in accordance with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement, and Board policies. The Superintendent or designee shall respond in a manner that is consistent with the student’s Service Agreement and Behavior Support Plan, if applicable.\[11\][13][21][29][33][38][39][40][41][42][43][44][45][46][47][48]

In making a determination of whether to notify the local police department of a discretionary incident committed by a qualified student with a disability, including a student for whom an evaluation is pending, the Superintendent or designee shall use the same criteria used for students who do not have a disability.\[10\][39][48][49]

For a qualified student with a disability who does not have a Behavior Support Plan as part of the student’s Service Agreement, subsequent to notification to law enforcement, the district, in consultation with the student’s parent/guardian, shall consider whether a Behavior Support Plan should be developed as part of the Service Agreement to address the student’s behavior.\[13\][40]

In accordance with state law, the Superintendent shall annually, by July 31, report to the Office for Safe Schools on the required form all new incidents committed by qualified students with disabilities, including students for whom an evaluation is pending, which occurred on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity.\[36\][48]
## PROCEDURAL SAFEGUARDS

The district shall establish and implement a system of procedural safeguards that includes notice of rights to the parent/guardian of a student suspected of being a qualified student with a disability, an opportunity for the parent/guardian to review relevant records, an impartial hearing with an opportunity for participation by the student’s parent/guardian, and a review procedure.\(^{[28][50]}\)

A student or parent/guardian filing a claim of discrimination need not exhaust these procedures prior to initiating court action under Section 504.\(^{[19]}\)

### Parental Request for Assistance

Parents/Guardians may file a written request for assistance with the Pennsylvania Department of Education (PDE) if one (1) or both of the following apply:\(^{[28]}\)

1. The district is not providing the related aids, services and accommodations specified in the student’s Service Agreement.

2. The district has failed to comply with the procedures and state regulations.

PDE shall investigate and respond to requests for assistance and, unless exceptional circumstances exist, shall, within sixty (60) calendar days of receipt of the request, send to the parents/guardians and district a written response to the request. The response to the parents'/guardians’ request shall be in the parents'/guardians’ native language or mode of communication.\(^{[28]}\)

### Informal Conference

At any time, parents/guardians may file a written request with the district for an informal conference with respect to the identification or evaluation of a student, or the student’s need for related aids, services or accommodations. Within ten (10) school days of receipt of the request, the district shall convene an informal conference. At the conference, every effort shall be made to reach an amicable agreement.\(^{[28]}\)

### Formal Due Process Hearing

If the matters raised by the district or parents/guardians are not resolved at the informal conference, the district or parents/guardians may submit a written request for an impartial due process hearing. The hearing shall be held before an impartial hearing officer and shall be conducted in accordance with state regulations.\(^{[28][51]}\)
Judicial Appeals

The decision of the impartial hearing officer may be appealed to a court of competent jurisdiction.\textsuperscript{28}

COMPLAINT PROCEDURE

This complaint procedure is in addition to and does not prevent parents/guardians from using any option in the procedural safeguards system.\textsuperscript{10}

Step 1 – Reporting

A student or parent/guardian who believes s/he has been subject to conduct by any student, employee or third party that constitutes a violation of this policy is encouraged to immediately report the incident to the Section 504 building administrator. Any person with knowledge of conduct that may violate this policy, is encouraged to immediately report the matter to the Section 504 building administrator.

A school employee who suspects or is notified that a student has been subject to conduct that constitutes a violation of this policy shall immediately report the incident to the Section 504 building administrator, as well as properly making any mandatory police or child protective services reports required by law.\textsuperscript{52}

If the Section 504 building administrator is the subject of a complaint, the student, parent/guardian or employee shall report the incident directly to the district’s Section 504 Coordinator.

The complainant or reporting employee may be encouraged to use the district’s report form, available from the Section 504 building administrator or Section 504 Coordinator, or to put the complaint in writing; however, oral complaints shall be accepted, documented and the procedures of this policy implemented. The person accepting the verbal or written complaint may provide factual information on the complaint and the investigative process, the impact of choosing to seek confidentiality and the right to file criminal charges. In all other respects, the person accepting the complaint shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor the complainant or those accused of a violation of this policy.
**Step 2 – Investigation**

The Section 504 Coordinator shall ensure that the individual assigned to investigate the complaint has an appropriate understanding of the relevant laws pertaining to discrimination issues and this policy and how to conduct investigations.

The investigator shall work with the Section 504 Coordinator to assess the anticipated scope of the investigation, who needs to be interviewed and what records may be relevant to the investigation.

The investigator shall conduct an adequate, reliable and impartial investigation. The complainant and the accused may suggest additional witnesses and provide other evidence during the course of the investigation. When the initial complaint involves allegations relating to conduct which took place away from school property, school-sponsored activities or school conveyances, the investigation may include inquiries related to these allegations to determine whether they resulted in continuing effects such as harassment in school settings.

The investigation may consist of individual interviews with the complainant, the accused, and others with knowledge relative to the allegations. The investigator may also evaluate any other information and materials relevant to the investigation. The person making the report, parties, parents/guardians and witnesses shall be informed of the prohibition against retaliation for anyone’s participation in the process and that conduct believed to be retaliatory should be reported. All individuals providing statements or other information or participating in the investigation shall be instructed to keep the matter confidential and to report any concerns about confidentiality to the investigator.

If the investigation reveals that the conduct being investigated may involve a violation of criminal law, the investigator shall promptly notify the Section 504 Coordinator, who shall promptly inform law enforcement authorities about the allegations.\[10]\[52]\[53]\[54]

The obligation to conduct this investigation shall not be negated by the fact that a criminal or child protective services investigation of the allegations is pending or has been concluded. The investigator should coordinate with any other ongoing investigations of the allegations, including agreeing to requests for a short delay in fulfilling the district’s investigative responsibilities during the fact-finding portion of a criminal or child protective services investigation. Such delays shall not extend beyond the time necessary to prevent interference with or disruption of the criminal or child protective services investigation.
Step 3 – Investigative Report

The investigator shall prepare and submit a written report to the Section 504 Coordinator within twenty (20) days of the initial report of alleged discrimination, unless the nature of the allegations, anticipated extent of the investigation or the availability of witnesses requires the investigator and the Section 504 Coordinator to establish a different due date. The parties shall be notified of the anticipated date the investigative report will be completed and of any changes to the anticipated due date during the course of the investigation.

The report shall include a summary of the investigation, a determination of whether the complaint has been substantiated as factual, the information and evaluation that formed the basis for this determination, whether the conduct violated this policy and of any other violations of law or Board policy which may warrant further district action, and a recommended disposition of the complaint. An investigation into disability harassment shall consider the record as a whole and the totality of circumstances in determining whether a violation of this policy has occurred, recognizing that persistent and pervasive conduct, when taken together, may be a violation even when the separate incidents are not severe.

The complainant and the accused shall be informed of the outcome of the investigation, for example, whether the investigator believes the allegations to be founded or unfounded, within a reasonable time of the submission of the written report to the extent authorized by the Family Educational Rights and Privacy Act (FERPA) and other applicable laws. The accused shall not be notified of the individual remedies offered or provided to the complainant.\[29\][30][31][32]

Step 4 – District Action

If the investigation results in a finding that some or all of the allegations of the complaint are established and constitute a violation of this policy, the district shall take prompt, corrective action designed to ensure that such conduct ceases and that no retaliation occurs. The district shall promptly take appropriate steps to prevent the recurrence of the prohibited conduct and to address the discriminatory effect the prohibited conduct had on the complainant and the school or school program environment. District staff shall document the corrective action taken and, where not prohibited by law, inform the complainant. The Section 504 Coordinator shall follow up by assessing the effectiveness of the corrective action at reasonable intervals.
If the investigation results in a finding that a different policy was violated separately from or in addition to violations of this policy, or that there are circumstances warranting further action, such matters shall be addressed at the conclusion of this investigation or through disciplinary or other appropriate referrals where further evaluation or investigation is necessary.

Disciplinary actions shall be consistent with the Code of Student Conduct, Board policies and administrative regulations, district procedures, applicable collective bargaining agreements, and state and federal laws.

**Appeal Procedure**

1. If the complainant or the accused is not satisfied with a finding made pursuant to the policy or with recommended corrective action, s/he may submit a written appeal to the district’s Section 504 Coordinator within fifteen (15) days.

2. The Section 504 Coordinator shall review the investigation and the investigative report and may also conduct a reasonable supplemental investigation to assess the sufficiency and propriety of the prior investigation.

3. The Section 504 Coordinator shall prepare a written response to the appeal within twenty (20) days. Copies of the response shall be provided to the complainant, the accused and the investigator who conducted the initial investigation.

PROCEDURAL SAFEGUARDS NOTIFICATION

Dear Parent/Guardian:

As part of the protections available to you if we cannot agree as to what related aids, services, or accommodations should or should no longer be provided to your child, one or more options available through the procedural safeguard system may be used to resolve the dispute.

Parental Request For Assistance –

Parents/Guardians may file a written request for assistance with the Department of Education if you believe the school district is not providing the related aids, services, and accommodations specified in the Service Agreement and/or the school district has failed to comply with Chapter 15 of the State Board of Education Regulations.

The Department of Education will investigate and respond to requests for assistance and, unless exceptional circumstances exist, will, within sixty (60) calendar days of receipt of the request, send to the parents/guardians and school district a written response to the request.

Written requests should be addressed to:

Pennsylvania Department of Education
Bureau of Special Education
333 Market Street
Harrisburg, PA 17126
717-783-6913

Informal Conference –

Parents/Guardians may file a written request with the school district for an informal conference with respect to the identification or evaluation of a student, or the student's need for related aids, services, or accommodations. Within ten (10) school days of receipt of the request, the school district shall convene an informal conference. At the conference, every effort shall be made to reach an amicable agreement.

Formal Due Process Hearing –

Parents/Guardians may file a written request with the school district for an impartial due process hearing.

1. The hearing shall be held before an impartial hearing officer.

2. The hearing shall be held in the local school district at a place reasonably convenient to the parents/guardians. At the request of the parents/guardians, the hearing may be held in the evening.

3. The hearing shall be an oral, personal hearing and shall be open to the public unless the parents/guardians request a closed hearing.
4. If the hearing is open, the decision issued in the case, and only the decision, shall be available to the public.

5. If the hearing is closed, the decision shall be treated as an educational record of the student and may not be available to the public.

6. The decision of the hearing officer shall include findings of fact, discussion and conclusions of law. The decision shall be based solely upon the substantial evidence presented at the hearing. The hearing officer shall have the authority to order that additional evidence be presented.

7. A written transcript of the hearing shall, upon request, be made and provided to parents/guardians at no cost.

8. Parents/Guardians may be represented by legal counsel.

9. A parent/guardian or a parent’s/guardian’s representative shall be given reasonable access to all educational records, including any tests or reports upon which the proposed action is based.

10. Any party may prohibit the introduction of any evidence at the hearing that has not been disclosed to that party at least five (5) days before the hearing.

11. A parent/guardian or a parent’s/guardian’s representative has the right to compel the attendance of and question witnesses of the school entity or agency who may have evidence upon which the proposed action might be based.

12. Any party has the right to present evidence and testimony, including expert medical, psychological or educational testimony.

The following timeline applies to due process hearings:

1. A hearing shall be held within thirty (30) calendar days after a parent’s/guardian’s initial request for a hearing.

2. The hearing officer’s decision shall be issued within forty-five (45) calendar days after the parent’s/guardian’s request for a hearing.

**Judicial Appeals**

The decision of the impartial hearing officer may be appealed to a court of competent jurisdiction. Under some circumstances, you may raise these claims directly under Section 504 without going through the due process hearing.

If, within sixty (60) calendar days of the completion of the administrative due process proceedings under this chapter, an appeal or original jurisdiction action is filed in state or federal court, the administrative order shall be stayed pending the completion of the judicial proceedings, unless the parents/guardians and school district agree otherwise.

104. NONDISCRIMINATION/DISCRIMINATORY HARASSMENT - EMPLOYMENT PRACTICES

The Board declares it to be the policy of this district to provide to all persons equal access to all categories of employment in this district, regardless of race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, genetic information, pregnancy or handicap/disability. The district shall make reasonable accommodations for identified physical and mental impairments that constitute disabilities, consistent with the requirements of federal and state laws and regulations. [1][2][3][4][5][6][7][8][9][10][11]

The Board encourages employees and third parties who believe they or others have been subject to discrimination to promptly report such incidents to designated employees.

The Board directs that verbal and written complaints of discrimination shall be investigated promptly, and appropriate corrective action be taken when allegations are substantiated. The Board directs that any complaint of discrimination brought pursuant to this policy shall also be reviewed for conduct which may not be proven discriminatory under this policy but merits review and possible action under other Board policies. [12][13][14]

Confidentiality

Confidentiality of all parties, witnesses, the allegations, the filing of a complaint, and the investigation shall be handled in accordance with this policy and the district’s legal and investigative obligations.
### Retaliation

The Board prohibits retaliation against any person for making a report of discrimination or participating in a related investigation or hearing, or opposing practices the person reasonably believes to be discriminatory. A complaint of retaliation shall be handled in the same manner as a complaint of discrimination.

### Discriminatory Harassment

Harassment by students, employees or third parties on the basis of race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, genetic information, pregnancy or handicap/disability is a form of discrimination and is subject to this policy. A person who is not necessarily an intended victim or target of such harassment but is adversely affected by the offensive conduct may file a report of discrimination on his/her own behalf.

For purposes of this policy, harassment shall consist of unwelcome conduct such as graphic, written, electronic, verbal or nonverbal acts including offensive jokes, slurs, epithets and name-calling, ridicule or mockery, insults or put-downs, offensive objects or pictures, physical assaults or threats, intimidation, or other conduct that may be harmful or humiliating or interfere with a person’s work performance and which relates to an individual’s or group’s race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, genetic information, pregnancy or handicap/disability when such conduct is:

1. Sufficiently severe, persistent or pervasive; and

2. A reasonable person in the complainant’s position would find that it creates an intimidating, threatening or abusive work environment such that it deprives or adversely interferes with or limits an individual or group of the ability to participate in or benefit from the services, activities or opportunities offered by a school.

For purposes of this policy, sexual harassment shall consist of unwelcome sexual advances; requests for sexual favors; and other inappropriate verbal, nonverbal, written, electronic, graphic or physical conduct of a sexual nature when:

1. Submission to such conduct is made explicitly or implicitly a term or condition of an employee’s status; or

2. Submission to or rejection of such conduct is used as the basis for employment-related decisions affecting an employee; or
3. Such conduct is sufficiently severe, persistent or pervasive that a reasonable person in the complainant’s position would find that it unreasonably interferes with the complainant’s performance at work or otherwise creates an intimidating, hostile, or offensive working environment such that it alters the complainant’s working conditions.

In order to maintain a program of nondiscrimination practices that is in compliance with applicable laws and regulations, the Board designates the Program Director/Title IX Coordinator as the district’s Compliance Officer. All nondiscrimination notices or information shall include the position, office address, telephone number and email address of the Compliance Officer.

The Compliance Officer shall publish and disseminate this policy and complaint procedure at least annually to students, parents/guardians, employees and the public to notify them of where and how to initiate complaints under this policy.

The Compliance Officer shall be responsible to ensure adequate nondiscrimination procedures are in place, to recommend new procedures or modifications to procedures and to monitor the implementation of nondiscrimination procedures in the following areas:

1. **Review** - Review of personnel practices and actions for discriminatory bias and compliance with laws against discrimination to include monitoring and recommending corrective measures when appropriate to written position qualifications, job descriptions and essential job functions; recruitment materials and practices; procedures for screening applicants; application and interviewing practices for hiring and promotions; district designed performance evaluations; review of planned employee demotions, non-renewal of contracts, and proposed employee disciplinary actions up to and including termination.

2. **Training** - Provision of training for supervisors and staff to prevent, identify and alleviate problems of employment discrimination.

3. **Resources** - Maintain and provide information to staff on resources available to alleged victims in addition to the school complaint procedure such as making reports to the police, available assistance from domestic violence or rape crisis programs, and community health resources including counseling resources.

4. **Complaints** - Monitor and provide technical assistance to building principals or designees in processing complaints.
The building principal or supervisor shall be responsible to promptly complete the following duties upon receipt of a report of discrimination or retaliation from employees or third parties:

1. If the building principal or supervisor is the subject of the complaint, refer the complainant to the Compliance Officer to carry out these responsibilities.

2. Inform the employee or third party about this policy including the right to an investigation of both verbal and written complaints of discrimination.

3. Provide relevant information on resources available in addition to the school complaint procedure such as making reports to the police, available assistance from domestic violence and rape crisis programs, and community health resources including counseling resources.

4. Immediately notify the Compliance Officer of the complaint. The Compliance Officer shall assess whether the investigation should be conducted by the building principal, another employee, the Compliance Officer or an attorney and shall promptly assign the investigation to that individual.

5. After consideration of the allegations and in consultation with the Compliance Officer and other appropriate individuals, promptly implement interim measures as appropriate to protect the complainant and others as necessary from violation of this policy during the course of the investigation.

### Guidelines

**Complaint Procedure – Employee/Third Party**

**Step 1 – Reporting**

An employee or third party who believes s/he has been subject to conduct by any student, employee or third party that constitutes a violation of this policy is encouraged to immediately report the matter to the building principal or supervisor. Any person with knowledge of conduct which may violate this policy is encouraged to immediately report the matter to the building principal or supervisor.
If the building principal or supervisor is the subject of a complaint, the employee or third party shall report the incident directly to the Compliance Officer. The complainant or reporting employee may be encouraged to use the district’s report form, available from the building principal, supervisor or Compliance Officer, or to put the complaint in writing; however, oral complaints shall be accepted, documented and the procedures of this policy implemented. The person accepting the verbal or written complaint may provide factual information on the complaint and the investigative process, the impact of choosing to seek confidentiality and the right to file criminal charges. In all other respects, the person accepting the complaint shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor the complainant or those accused of a violation of this policy.

**Step 2 – Investigation**

The Compliance Officer shall ensure that the individual assigned to investigate the complaint has an appropriate understanding of the relevant laws pertaining to discrimination issues and this policy and how to conduct investigations.

The investigator shall work with the Compliance Officer to assess the anticipated scope of the investigation, who needs to be interviewed and what records may be relevant to the investigation.

The investigator shall conduct an adequate, reliable and impartial investigation. The complainant and the accused may suggest additional witnesses and provide other evidence during the course of the investigation. When the initial complaint involves allegations relating to conduct which took place outside of school or school-sponsored activities, the investigation may include inquiries related to these allegations to determine whether they resulted in continuing effects such as harassment in school settings.

The investigation may consist of individual interviews with the complainant, the accused, and others with knowledge relative to the allegations. The investigator may also evaluate any other information and materials relevant to the investigation. The person reporting the alleged discrimination, parties, parents/guardians and witnesses shall be informed of the prohibition against retaliation for anyone’s participation in the process and that conduct believed to be retaliatory should be reported. All individuals providing statements or other information or participating in the investigation shall be instructed to keep the matter confidential and to report any concerns about confidentiality to the investigator.
If the investigation reveals that the conduct being investigated may involve a violation of criminal law, the investigator shall promptly notify the Compliance Officer, who shall promptly inform law enforcement authorities about the allegations.\[13]\[20]\[21]

The obligation to conduct this investigation shall not be negated by the fact that a criminal or child protective services investigation of the allegations is pending or has been concluded. The investigator should coordinate with any other ongoing investigations of the allegations, including agreeing to requests for a short delay in fulfilling the district’s investigative responsibilities during the fact-finding portion of a criminal or child protective services investigation. Such delays shall not extend beyond the time necessary to prevent interference with or disruption of the criminal or child protective services investigation.

**Step 3 – Investigative Report**

The investigator shall prepare and submit a written report to the Compliance Officer within twenty (20) days of the initial report of alleged discrimination, unless the nature of the allegations, anticipated extent of the investigation or the availability of witnesses requires the investigator and the Compliance Officer to establish a different due date. The parties shall be notified of the anticipated date the investigative report will be completed and of any changes to the anticipated due date during the course of the investigation.

The report shall include a summary of the investigation, a determination of whether the complaint has been substantiated as factual, the information and evaluation that formed the basis for this determination, whether the conduct violated this policy and any other violation of law or Board policy which may warrant further district action, and a recommended disposition of the complaint. An investigation into discriminatory harassment or sexual harassment shall consider the record as a whole and the totality of circumstances in determining whether a violation of this policy has occurred, recognizing that persistent and pervasive conduct, when taken together, may be a violation even when the separate incidents are not severe.

The complainant and the accused shall be informed of the outcome of the investigation, for example, whether the investigator believes the allegations to be founded or unfounded, within a reasonable time of the submission of the written report. The accused shall not be notified of the individual remedies offered or provided to the complainant.
Step 4 – District Action

If the investigation results in a finding that some or all of the allegations of the complaint are established and constitute a violation of this policy, the district shall take prompt, corrective action designed to ensure that such conduct ceases and that no retaliation occurs. The district shall promptly take appropriate steps to prevent the recurrence of the prohibited conduct and to address the discriminatory effect the prohibited conduct had on the complainant and the school or school program environment. District staff shall document the corrective action taken and, where not prohibited by law, inform the complainant. The Compliance Officer shall follow up by assessing the effectiveness of the corrective action at reasonable intervals.

If an investigation results in a finding that a different law or Board policy was violated separately from or in addition to violations of this policy, or that there are circumstances warranting further action, such matters shall be addressed at the conclusion of this investigation or through disciplinary or other appropriate referrals where further evaluation or investigation is necessary.

Disciplinary actions shall be consistent with Board policies and administrative regulations, district procedures, applicable collective bargaining agreements, and state and federal laws.

Appeal Procedure

1. If the complainant or the accused is not satisfied with a finding made pursuant to the policy or with recommended corrective action, s/he may submit a written appeal to the Compliance Officer within fifteen (15) days. If the Compliance Officer investigated the complaint, such appeal shall be made to the Superintendent.

2. The individual receiving the appeal shall review the investigation and the investigative report and may also conduct or designate another person to conduct a reasonable supplemental investigation to assess the sufficiency and propriety of the prior investigation.

3. The person handling the appeal shall prepare a written response to the appeal within twenty (20) days. Copies of the response shall be provided to the complainant, the accused and the investigator who conducted the initial investigation.

**Fiscal And Program Compliance**

The Superintendent or designee shall establish procedures to ensure that the district complies with all federal and state law and regulations and program requirements for special education-related funding and reimbursement.

The district may coordinate with ARIN Intermediate Unit No. 28 to establish procedures, fulfill reporting requirements and participate in applicable programs.

**Child Find/Outreach**

The Superintendent or designee shall ensure that the district annually conducts awareness and outreach programs and activities designed to reach district residents including parents/guardians of students with disabilities who are enrolled in the district, preschool-aged children, students who attend private schools, homeless children and children who are wards of the state.
The district’s public awareness activities shall include annual publication of a written notice in newspapers and other media notifying residents about child identification activities; available special education services and programs and how to request them; and procedures used to ensure confidentiality of student information. Written information shall be published in district handbooks and on the district website. Public awareness activities must include information regarding potential signs of developmental delays and other risk factors that could indicate disabilities.

The Intermediate Unit shall be responsible for conducting child find activities necessary to provide equitable participation services to students with disabilities who are enrolled by their parents/guardians in private schools.

**Screening**

The district shall establish a system of screening, including hearing and vision screenings. Screenings shall be conducted at reasonable intervals to determine whether all students are performing based on grade-appropriate standards in core academic subjects.

**Confidentiality**

The district shall maintain a system of safeguards to protect the confidentiality of students’ educational records and personally identifiable information when collecting, storing, disclosing and destroying student records.

District staff shall maintain the confidentiality of student records and personally identifiable information, as required by law, regulations and Board policy.

**Recording Of Meetings**

Except as specifically provided for within this policy, the district prohibits audio, video and electronic recording of meetings between parents/guardians and district teachers, paraprofessionals, program specialists, consultants or administrators.

An attempt to record a meeting by a parent/guardian after a verbal prohibition by district staff shall result in immediate termination of the meeting and may result in ejection from district property and possible prosecution.

The district shall permit audio recording of a meeting when a participant submits, at least five (5) days prior to the meeting, documentation that substantiates:
1. Participant has a disability or limited English proficiency that significantly limits his/her ability to meaningfully understand or participate in the meeting’s intended decision-making and recording is the only feasible means of accommodating the limitation.

2. Individual has a legitimate interest in attending the meeting but for good cause is unable to do so, and recording is the only feasible means by which s/he can meaningfully understand and participate in the decision-making.

When permission to record a meeting is granted, the district employee responsible for the meeting shall arrange to record the meeting by similar means. Such recording shall be considered part of the student’s educational record and be subject to relevant law and regulations.

The district may permit videotaping of a meeting when written consent is given by all participants at the meeting.

113.1. DISCIPLINE OF STUDENTS WITH DISABILITIES

1. Purpose
The district shall develop and implement positive Behavior Support Plans and programs for students with disabilities who require specific interventions to address behaviors that interfere with learning.

Students with disabilities who violate the Code of Student Conduct, or engage in inappropriate behavior, disruptive or prohibited activities and/or actions injurious to themselves or others, which would typically result in corrective action or discipline of students without disabilities, shall be disciplined in accordance with state and federal laws and regulations and Board policy and, if applicable, their Individualized Education Program (IEP) and Behavior Support Plan.

2. Definitions
Students with disabilities - school-aged children within the jurisdiction of the district who have been evaluated and found to have one or more disabilities as defined by law, and who require, because of such disabilities, special education and related services.

Suspensions from school - disciplinary exclusions from school for a period of one (1) to ten (10) consecutive school days.

Expulsions from school - disciplinary exclusions from school by the Board for a period exceeding ten (10) consecutive school days and may include permanent exclusion from school.

Interim alternative educational settings - removal of a student with a disability from his/her current placement. Interim alternative educational settings may be used by school personnel for up to forty-five (45) school days for certain infractions committed by students with disabilities. The IEP team shall determine the interim alternative educational setting; however, this does not constitute a change in placement for a student with a disability.

   Sec. 14.143
   20 U.S.C.

No student with a disability shall be subjected to a disciplinary change in placement if the student’s particular misconduct is a manifestation of his/her disability. However, under certain circumstances a student with a disability may be placed in an interim alternative educational setting by school personnel or the IEP team could, if appropriate, change the student’s educational placement to one which is more restrictive than the placement where the misconduct occurred.

   A student with a disability may be suspended for ten (10) consecutive and fifteen (15) cumulative days of school per school year, for the same reasons and duration as a student without a disability. Such suspension shall not constitute a change in the student’s educational placement.

   Changes In Educational Placement/Manifestation Determinations
   Title 22
   Sec. 14.143
   34 CFR
   Sec. 300.530
   For disciplinary exclusions which constitute a change in educational placement, the district shall first determine whether the student’s behavior is a manifestation of his/her disability. Expulsion, or exclusion from school for more than fifteen (15) cumulative days in a year, or patterns of suspensions for substantially identical behaviors constitute changes in educational placements requiring a manifestation determination. For students with intellectual disability, any disciplinary suspension or expulsion is a change in educational placement.

   A student with a disability whose behavior is not a manifestation of his/her disability may be disciplined in accordance with Board policy, district rules and regulations in the same manner and to the same extent as students without disabilities.

**Referral To Law Enforcement And Reporting Requirements**

For reporting purposes, the term **incident** shall mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco; or conduct that constitutes an offense listed under the Safe Schools Act.

The Superintendent or designee shall immediately report required incidents and may report discretionary incidents committed on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity by a student with a disability, including a student for whom an evaluation is pending, to the local police department that has jurisdiction over the school’s property, in accordance with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies. The Superintendent or designee shall respond to such incidents in accordance with the district’s Special Education Plan and, if applicable, the procedures, methods and techniques defined in the student’s Behavior Support Plan.
For a student with a disability who does not have a Behavior Support Plan, subsequent to notification to law enforcement, the district shall convene the student’s IEP team to consider whether a Behavior Support Plan should be developed to address the student’s behavior, in accordance with law, regulations and Board policies.

When reporting an incident committed by a student with a disability to the appropriate authorities, the district shall provide the information required by state and federal laws and regulations and shall ensure that copies of the special education and disciplinary records of the student are transmitted for consideration by these authorities. The district shall transmit copies of the student’s special education and disciplinary records only to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act.

In accordance with state law, the Superintendent shall annually, by July 31, report to the Office for Safe Schools on the required form all new incidents committed by students with disabilities, including students for whom an evaluation is pending, which occurred on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity.

| The Board directs that the district’s behavior support programs shall be based on positive rather than negative behavior techniques to ensure that students shall be free from demeaning treatment and unreasonable use of restraints or other aversive techniques. The use of restraints shall be considered a measure of last resort and shall only be used after other less restrictive measures, including de-escalation techniques, are, or have proven to be, less effective. Behavior support programs and plans shall be based on a functional assessment of behavior and shall include a variety of research-based techniques to develop and maintain skills that will enhance students’ opportunity for learning and self-fulfillment. |

| **3. Definitions** |
| Title 22 |
| Sec. 14.133 |
| The following terms shall have these meanings, unless the context clearly indicates otherwise. |

- **Aversive techniques** - deliberate activities designed to establish a negative association with a specific behavior.

- **Behavior support** - development, change and maintenance of selected behaviors through the systematic application of behavior change techniques.
### Behavior Support Plan or Behavior Intervention Plan

- plan for students with disabilities who require specific intervention to address behavior that interferes with learning. A positive Behavior Support Plan shall be developed by the IEP team, be based on a functional behavioral assessment, and become part of the individual student’s IEP. These plans must include methods that use positive reinforcements, other positive techniques and related services required to assist a student with a disability to benefit from special education.

#### Positive techniques - methods that utilize positive reinforcement to shape a student's behavior, ranging from the use of positive verbal statements as a reward for good behaviors to specific tangible rewards.

#### Restraints - application of physical force, with or without the use of any device, designed to restrain free movement of a student’s body, excluding the following:

1. Briefly holding a student, without force, to calm or comfort him/her.

2. Guiding a student to an appropriate activity.

3. Holding a student’s hand to escort him/her safely from one area to another.

4. Hand-over-hand assistance with feeding or task completion.

5. Techniques prescribed by a qualified medical professional for reasons of safety or for therapeutic or medical treatment, as agreed to by the student’s parents/guardians and specified in the IEP.

6. Mechanical restraints governed by this policy, such as devices used for physical or occupational therapy, seatbelts in wheelchairs or on toilets used for balance and safety, safety harnesses in buses, and functional positioning devices.

#### Seclusion - confinement of a student in a room, with or without staff supervision, in order to provide a safe environment to allow the student to regain self-control.

#### Students with disabilities - school-aged children within the jurisdiction of the district who have been evaluated and found to have one or more disabilities as defined by law, and who require, because of such disabilities, special education and related services.

---

**4. Delegation of Responsibility**

**The Superintendent or designee shall** ensure that this Board policy is implemented in accordance with federal and state laws and regulations.

The Superintendent or designee shall develop administrative regulations to implement this policy.
| Title 22 | Sec. 14.133 | The Superintendent or designee shall provide regular training, and retraining as needed, of staff in the use of specific procedures, methods and techniques, including restraints and seclusions, that will be used to implement positive behavior supports or interventions in accordance with students’ IEPs and Board policy. |
| Title 22 | Sec. 14.133 | The Superintendent or designee shall maintain and report data on the use of restraints, as required. Such report shall be readily available for review during the state’s cyclical compliance monitoring. Procedures shall be established requiring reports be made to the district by entities educating students with disabilities who attend programs or classes outside the district, including private schools, agencies, intermediate units and vocational schools. |
| 5. Guidelines | Title 22 | Development of a separate Behavior Support Plan is not required when appropriate positive behavioral interventions, strategies and supports can be incorporated into a student’s IEP. |
| Title 22 | Sec. 14.133 | When an intervention is necessary to address problem behavior, the types of intervention chosen for a student shall be the least intrusive necessary. |
| Title 22 | Sec. 14.133 | Physical Restraints |
| Title 22 | Sec. 14.133 | Restraints to control acute or episodic aggressive behavior may be used only when the student is acting in a manner that presents a clear and present danger to the student, other students or employees, and only when less restrictive measures and techniques have proven to be or are less effective. |
| Title 22 | Sec. 14.133 | The Special Services Coordinator or designee shall notify the parent/guardian as soon as practicable of the use of restraints to control the aggressive behavior of the student and shall convene a meeting of the IEP team within ten (10) school days of the use of restraints, unless the parent/guardian, after written notice, agrees in writing to waive the meeting. At this meeting, the IEP team shall consider whether the student needs a functional behavioral assessment, re-evaluation, a new or revised positive Behavior Support Plan, or a change of placement to address the inappropriate behavior. |
| Title 22 | Sec. 14.133 | The use of restraints shall not be included in the IEP for the convenience of staff, as a substitute for an educational program, or employed as punishment. Restraints may be included in an IEP only if: |
| | | 1. The restraint is used with specific component elements of positive Behavior Support. |
### Mechanical Restraints

Mechanical restraints, which are used to control involuntary movement or lack of muscular control of students when due to organic causes or conditions, may be employed only when specified by an IEP and as determined by a medical professional qualified to make the determination, and as agreed to by the student’s parents/guardians.

*Mechanical restraints shall prevent a student from injuring him/herself or others or promote normative body positioning and physical functioning.*

### Seclusion

The district permits involuntary seclusion of a student in accordance with the student’s IEP or in an emergency to prevent immediate or imminent injury to the student or others, but the seclusion must be the least restrictive alternative.

The district prohibits the seclusion of students in locked rooms, locked boxes and other structures or spaces from which the student cannot readily exit.

### Aversive Techniques

The following aversive techniques of handling behavior are considered inappropriate and shall not be used in educational programs:

1. Corporal punishment.
2. Punishment for a manifestation of a student's disability.
3. Locked rooms, locked boxes, other locked structures or spaces from which the student cannot readily exit.
5. Deprivation of basic human rights, such as withholding meals, water or fresh air.

| **2. Authority** | The Board shall adopt a system of screening that may include early intervening services and must be designed to accomplish identification and initial screening for students prior to district referral for a special education evaluation. The system shall provide support to staff to improve working effectively with students in the general education curriculum, identify students who may require special education services and programs, and must include hearing and vision screening and screening at reasonable intervals to determine whether students are performing at grade appropriate levels in core academic subjects. |

Sec. 300.226 | |
The Board authorizes the use of functional behavioral assessments (FBAs) as an evaluation to gather information to understand the purpose of the student’s behaviors and to assist with developing a positive Behavior Support Plan. FBAs must be conducted when:

1. A student’s behavior interferes with his/her learning or the learning of others and information is necessary to provide appropriate educational programming.

2. A student’s behavior violates the Code of Student Conduct and is determined to be a manifestation of a student’s disability.

3. A student is placed in an interim alternative educational placement for a qualifying reason permitting such placement for up to forty-five (45) school days for certain offenses.

4. The school contacts law enforcement regarding a student who already has a positive Behavior Support Plan.

FBAs may also constitute part of the initial evaluation to determine eligibility for special education.

The district shall comply with requirements of state and federal laws and regulations when conducting evaluations.

An appropriate evaluation of a student, whether conducted by district staff or individuals not employed by the district, shall consist of the administration of all testing and the use of all assessment procedures required to determine the existence of all legally defined disabilities reasonably suspected by district staff, parents/guardians, or the evaluator. An appropriate evaluation shall assist in determining the content of the IEP to enable a student with a disability to be involved in and progress in the general curriculum.

A student shall be assessed in all areas related to the suspected disability including, as appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status and motor abilities.

A re-evaluation of a student who currently has an IEP shall be conducted as required by state and federal law and regulations.

Testing and assessment procedures shall be selected and administered to yield valid measurement or assessment of the construct or quality they purport to measure or assess. The evaluator shall administer any testing or assessment procedures in a manner consistent with the requirements and recommendations of the publisher of the test or procedure and in compliance with applicable and authoritatively recognized professional principles and ethical tenets. S/He shall report any factor that might affect the validity of any results obtained.

All assessments and evaluation materials shall be selected and administered so as not to be discriminatory on a racial or cultural basis. Where feasible, assessments and evaluations shall be administered in a language and form most likely to provide accurate information about the student.

The evaluation shall include an observation of the student in an educational setting, unless the student is not currently in such a setting. The evaluator shall obtain information concerning the performance of the student directly from at least one (1) current teacher of the student, unless s/he does not have a current teacher.

The evaluator shall hold an active certification that qualifies the evaluator to conduct that type of evaluation. If certification is not issued for the particular area of professional practice in which the evaluator is lawfully engaged, the evaluator shall hold such license or other credentials as required for the area of professional practice under state law.

The evaluator shall prepare and sign a full report of the evaluation containing:

1. Clear explanation of the testing and assessment results.
2. Complete summary of all test scores, including, for all standardized testing administered, all applicable full scale or battery scores; domain or composite scores; and subtest scores reported in standard, scaled, or T-score format.
3. Complete summary of all information obtained or reviewed from sources other than testing conducted by the evaluator.
4. Identification of all special education and related services needs and relevant information that directly assists persons in determining the educational needs of the student.
5. Specific, individualized recommendations for consideration by the IEP team for educational programming and placement to enable the student to participate as appropriate in the general education curriculum in the least restrictive environment, as defined by federal and state law and regulations.
### Re-Evaluations

Re-evaluations shall be conducted within the timeframes required by state and federal laws and regulations unless the parent/guardian and the district agree in writing that a re-evaluation is unnecessary. For students with mental retardation, the re-evaluation cannot be waived. The group of qualified professionals that reviews the evaluation materials to determine whether the child is a student with a disability shall include a certified school psychologist when evaluating a student for autism, emotional disturbance, mental retardation, multiple disabilities, other health impairment, specific learning disability and traumatic brain injury.

Copies of the re-evaluation report shall be disseminated to parents/guardians at least ten (10) days prior to the meeting of the IEP team unless this requirement is waived in writing.

### Independent Educational Evaluations

A parent/guardian who disagrees with the results or content of an evaluation performed or obtained by the district may request an independent educational evaluation at district expense. A parent/guardian is entitled to only one (1) independent educational evaluation at public expense each time the district conducts an evaluation with which the parent/guardian disagrees. The independent educational evaluation must arise from parents'/guardians’ disagreement with the district’s most recent evaluations or re-evaluations of the student. The district shall be entitled to a copy of all results of independent educational evaluations conducted at public expense. If an oral request for an independent educational evaluation is made to a professional employee or administrator, that person shall inform the parent/guardian that the request must be in writing. If the native language of the parent/guardian is other than English, the requirement that the parent/guardian make his/her request in writing shall be conveyed by whatever means practicable and, where feasible, in the native language of the parent/guardian.

A written request for an independent educational evaluation at district expense shall be immediately forwarded to the Special Services Coordinator, who may, upon receipt of the written parent/guardian request, ask that the parent/guardian state his/her reasons for disagreement with the evaluation conducted or proposed by the district. The district cannot require the parent/guardian to do so, and the refusal of the parent/guardian shall not delay the process required by this policy.

The Special Services Coordinator shall send the correspondence to the parent/guardian by certified mail or by other independently verifiable means of conveyance and enclose a copy of this policy.

121. FIELD TRIPS

1. Purpose
The Board recognizes that field trips, when used for teaching and learning integral to the curriculum, are an educationally sound and important component of the instructional program of the schools. Properly planned and executed field trips can:

1. Supplement and enrich classroom learning by providing educational experiences in an environment outside the schools.
2. Arouse new interests among students.
3. Help students relate academic learning to the reality of the world outside of school.
4. Introduce community resources, such as natural, cultural, industrial, commercial, governmental, and educational.
5. Afford students the opportunity to study real things and real processes in their actual environment.

2. Definition
For purposes of this policy, a field trip shall be defined as any planned travel activity that supplements or enriches the classroom curriculum.

3. Authority
The Board shall approve only those field trips that are planned to keep students out of the district overnight or longer. This would apply to all planned trips by any student group whose activities are covered completely or in part by Board policy, School Code, Curriculum Regulations, or past practice.

Approval by the Superintendent shall be required for all other field trips of shorter duration that qualify under the above authority.

Students on field trips remain under the supervision and responsibility of this Board and are subject to its rules and regulations.
### 121. FIELD TRIPS

The students will be responsible for any work missed due to field trips. Costs due to participation in field trips may be at the expense of parents/guardians or the students. (Any trip requiring extensive fundraising activities will require prior approval of the Board before fundraising is begun.) Extended band or chorus trips, which require elaborate fundraising activities to support them financially, will be restricted to every other year. Requests from other student groups will be reviewed individually by the Board for approval.

The Board does not endorse, support nor assume responsibility in any way for any district staff member who takes students on trips not approved by the Board or Superintendent. No staff member may solicit district students for such trips within district facilities or on district grounds without Board permission.

| 4. Delegation of Responsibility | The Superintendent or designee shall develop administrative regulations for the operation of field trips. |
| 5. Guidelines | Field trips shall be governed by guidelines which ensure that: |
| 1. The safety and well-being of students will be protected at all times. |
| 2. Permission of the parent/guardian is sought and obtained before any student may participate. |
| 3. The principal approves the purpose, itinerary and duration of each proposed trip. |
| **Title 22 Sec. 4.4** | 4. Each field trip is properly planned, integrated with the curriculum, and followed up by appropriate activities that enhance its value. |
| | 5. The effectiveness of field trip activities is monitored and evaluated continuously. |
| | 6. Teachers are allowed flexibility and innovation in planning field trips. |
| | 7. No field trip will be approved unless it contributes to the achievement of specified instructional objectives. |

122. EXTRACURRICULAR ACTIVITIES

1. Purpose

The Board recognizes the educational values inherent in student participation in extracurricular activities and supports the concept of student organizations for such purposes as building social relationships, developing interests in a specific area, and gaining an understanding of the elements and responsibilities of good citizenship.

2. Definitions

For purposes of this policy, extracurricular activities shall be those programs that are sponsored or approved by the Board and are conducted wholly or partly outside the regular school day; are marked by student participation in the processes of initiation, planning, organizing, and execution; and are equally available to all students who voluntarily elect to participate.

For purposes of this policy, an athletic activity shall mean all of the following:

1. An athletic contest or competition, other than interscholastic athletics, that is sponsored by or associated with the school, including cheerleading, club-sponsored sports activities and sports activities sponsored by school-affiliated organizations.

2. Noncompetitive cheerleading that is sponsored by or associated with the school.

3. Practices, interschool practices and scrimmages for all athletic activities.

3. Authority

The Board shall make school facilities, supplies and equipment available and shall assign staff members for the support of extracurricular activities for students. Such availability and assignment shall be in accordance with the Equal Access Act.

The Board encourages secondary level students to pursue clubs and interests that may not be related directly to any of the curriculum programs offered in the district. In pursuit of such goal and in compliance with law, the Board maintains a limited open forum in which secondary students may meet for voluntary student-initiated activities unrelated directly to the curriculum, regardless of the religious, political, philosophical or other content of the speech related to such activities.
Any extracurricular activity shall be considered under the sponsorship of this Board when it has been approved by the Superintendent and reported to the Board for its information and review.

The Board shall maintain the program of extracurricular activities at no cost to participating students, except that:

1. The Board's responsibility for provision of supplies shall carry the same exemptions as listed in the Board's policy on regular school supplies.

2. Students may assume all or part of the costs for travel and attendance at extracurricular events and trips.

3. The Board recognizes the interest of groups in the educational community to establish clubs. Clubs will be self-sufficient in terms of generating funds to cover all costs.

4. Uniforms and musical instruments may be purchased as the Board may feel necessary in support of a program.

5. The Board reserves the right to initiate or discontinue any extracurricular offering subject to the law and Regulations.

Where eligibility requirements are necessary or desirable, the Board shall be informed and must approve the establishment of eligibility standards before they are operable.

Any student may be excluded from participation because of misconduct, lack of regular school attendance, or recurring failure to abide by school rules. In these cases, the student will be advised as to the reason and action to be taken in advance. The building principal will also notify the proper advisor or sponsor of such exclusion as part of the enforcement measures.

Off-Campus Activities

This policy shall also apply to student conduct that occurs off school property and would otherwise violate the Code of Student Conduct if any of the following circumstances exist:

1. The conduct occurs during the time the student is traveling to and from school or traveling to and from school-sponsored activities, whether or not via school district furnished transportation.
2. The student is a member of an extracurricular activity and has been notified that particular off-campus conduct could result in exclusion from such activities.

3. Student expression or conduct materially and substantially disrupts the operations of the school, or the administration reasonably anticipates that the expression or conduct is likely to materially and substantially disrupt the operations of the school.

4. The conduct has a direct nexus to attendance at school or a school-sponsored activity, for example, a transaction conducted outside of school pursuant to an agreement made in school, that would violate the Code of Student Conduct if conducted in school.

5. The conduct involves the theft or vandalism of school property.

6. There is otherwise a nexus between the proximity or timing of the conduct in relation to the student's attendance at school or school-sponsored activities.

4. Delegation of Responsibility

Each school year, prior to participation in an athletic activity, every student athlete and his/her parent/guardian shall sign and return the acknowledgement of receipt and review of the following:

2. Sudden Cardiac Arrest Symptoms and Warning Signs Information Sheet.

The Superintendent or designee shall develop administrative regulations to implement the extracurricular activities program. All student groups shall adhere to Board policy and administrative regulations.

5. Guidelines

Guidelines shall ensure that the program of **extracurricular** activities:

1. Assesses the **needs and interests of** district students.

2. Invites the participation of parents/guardians and community in developing extracurricular activities. Such participation shall be in accordance with the Equal Access Act.

3. Involves students in developing and planning extracurricular activities.

4. Ensures provision of **competent guidance and supervision** by staff.

5. Guards against exploitation of students.

The certified letter shall include the basis for the superintendent's reasonable belief. If the tests, as required to be part of the student’s portfolio under the section entitled “Requirements of Supervisor” above, have not been administered at the time of the receipt of the certified letter by the supervisor, the supervisor shall submit the other required documentation to the evaluator and shall submit the test results to the evaluator with the completed documentation at the conclusion of the school year. Staff Qualifications and Professional Development

Certified employees and appropriate support staff, when necessary, shall provide the LIEP. The district shall ensure that all teachers providing ELD instruction hold the appropriate certification and can demonstrate academic language proficiency both in English and in the language used for instruction in their classroom.[8][25]

Non-ESL staff shall incorporate ELD into all classes for EL students, as well as provide supports, modifications and accommodations for curricular content to enable EL students to achieve academic standards.

The district shall provide appropriate training in ELD for all professional staff as part of the Professional Development Plan.[7][26]

Parental Right to Opt Out of ELD Programs and Services -

Parents/Guardians of EL students have the right to refuse specialized programs and services that may be part of the LIEP for their child. A parent's/guardian's decision to refuse programs or services must be informed and voluntary; the district shall not influence a parent's/guardian's decision in any way, or make any program or placement determinations without parental notification and an opportunity to opt the student out of programs and services.
The district shall make a parental waiver form available for parents/guardians to opt their EL child out of ELD programs and services.

The district shall document all notifications made to parents/guardians regarding assessment and recommended placements and programs for EL students, and whether or not a parental waiver form is received. When a waiver form is not received from the parent/guardian, the district shall proceed with the recommended placement.

EL students who have a parental waiver for ELD programs and services shall be assessed on English language proficiency annually, and shall be provided with supports and accommodations to participate in general curricular and extracurricular programs, in order to meet academic standards and graduation requirements.[2][3][23]

Parents/Guardians of EL students who have been opted out of ELD programs and services shall be notified of their child's progress, including achievement of academic standards and assessment results, and shall be provided with opportunity and a form to opt their child back into ELD programs and services.[24][32]

Written notice of the Board's decision shall be sent to the applicant, Department of Education and the Appeal Board, including reasons for denial and a clear description of application deficiencies if the application is denied. The Board shall evaluate denied applications that are revised and resubmitted.

Upon approval of a charter application, the Board and the charter school's Board of Trustees shall sign the written charter, which shall be binding on both. The charter shall be for a period of three (3) to five (5) years and may be renewed for five-year periods by the Board.

The Board shall not cap nor limit the number of district students enrolling in a charter school, unless agreed to by the charter school as part of the written charter.

The Board may approve a leave of absence for up to five (5) years for a district employee to work in a charter school located in the district of employment or in a regional charter school in which the employing district is a participant, and the employee shall have the right to return to a comparable position in the district. The Board at its discretion may grant tenure to a temporary professional employee on leave from this district to teach in a charter school located in the district, upon completion of the appropriate probation period.

The Board affirms that the Board of Trustees and the charter school shall be solely liable for any and all damages and costs of any kind resulting from any legal challenges involving the operation of a charter school. The local Board shall not be held liable for any activity or operation related to the program of a charter school.
A charter school shall execute a "hold harmless" agreement indemnifying and insuring/agreeing to defend the school district in any and all kinds of liability areas so that the school district and Board are protected in any litigation related to the operation of a charter school.

1. For a school whose enrollment is 250 or less - at least five (5) dangerous incidents.

2. For a school whose enrollment is between 251 to 1,000 - a number of dangerous incidents that represents at least two percent (2%) of the school's enrollment.

3. For a school whose enrollment is over 1,000 - twenty (20) or more dangerous incidents.
**3. Guidelines**

| **Safe public school** - shall mean a public school that has not been designated as a persistently dangerous school under these standards or that has had such designation removed by the Department. |

**4. Delegation of Responsibility**

<p>| <strong>Department Of Education's Responsibilities</strong> |
| 1. The Department shall identify those schools that meet or exceed the criteria for a persistently dangerous school by analyzing the Annual Report on School Violence and Weapons Possession (PDE-360). In identifying persistently dangerous schools, the Department will use the most recent data available to it from the reporting LEA, and will take all reasonable steps to verify that the data is valid and reliable. |
| 2. After review and verification of PDE-360 data, the Department shall promptly inform an LEA when any of its schools meets the definition of persistently dangerous school. |
| 3. The Department shall provide technical assistance to the LEA in developing a corrective action plan. The Department shall review proposed corrective action plans submitted by LEAs and shall approve suitable corrective action plans. |
| 4. After approval of the corrective action plan, the Department shall conduct a site visit to each persistently dangerous school to assess the school’s progress in implementing the plan. If no significant improvement is observed, the Department may require the LEA to submit a revised corrective action plan for that school. |
| 5. The Department shall reassess a school’s designation as persistently dangerous at the end of the school year during which its corrective action plan is completed. |
| 6. During the reassessment described above, the Department shall remove the designation if the school no longer meets the definition of persistently dangerous school. |</p>

### Purpose
The equivalent distribution of district resources is one means the district shall use to ensure all students receive a quality education. This policy demonstrates the district’s commitment to ensure that no discrimination occurs in the distribution of resources funded by state and local sources, regardless of the receipt of federal funds.

### Authority
The Board directs that each district school receiving Title I funds must use state and local funds to provide services that, taken as a whole, are at least comparable to services in those schools in the district that do not receive Title I funds.[1]

If all schools in the district receive Title I funds, the Board directs that state and local funds shall be used to provide services that, taken as a whole, are substantially comparable in each school.[1]

The Board acknowledges that comparability may be measured on a grade-span by grade-span basis or a school-by-school basis.

### Definition
For purposes of this policy, **grade span** is defined as a similar two-grade span difference or less. For example, a grade span of K-2 to K-4, not a grade span of K-2 to K-5.

### Delegation of Responsibility
If the district has more than one (1) building per grade span, the Federal Programs Coordinator shall complete a Detailed School Data Sheet.

Regardless of buildings per grade span, the Federal Programs Coordinator shall annually complete a Comparability Assurance Form to provide written assurance of equivalence among schools, including the provision of curriculum materials; instructional supplies; and teachers, administrators and other staff.
Guidelines

Method of Determination

For purposes of determining Title I comparability, the district shall use a current year student to staff ratio calculation or a previous year per-pupil expenditure determination, whichever is more favorable to the district.

Allowable Exclusions

For the purposes of determining comparability, the district may exclude:

1. State and local funds expended for language instruction education programs.
2. Excess costs associated with providing services to students with disabilities.
3. Unpredictable changes in enrollment or personnel assignments occurring after the beginning of the school year.
4. Other expenditures from supplemental state or local funds consistent with the intent of Title I.

Complaints

Complaints by individuals and organizations regarding implementation of equivalence between schools shall be processed in accordance with Board policy.

**Classroom Placement Of Twins/Higher Order Multiples**

**SC 1310.1**

A parent/guardian of twins or higher order multiples who are in the same grade level at the same school may request that their children be placed in the same classroom or in separate classrooms. 208. WITHDRAWAL FROM SCHOOL

Purpose
The Board affirms that even though law requires attendance of only students of compulsory school age, it is in the best interests of both students and the community that students complete the educational program that will equip them with required skills and increase their chances for a successful life beyond school.[1][2][3][4][5]

# 209. HEALTH EXAMINATIONS/SCREENINGS

## Authority

In compliance with the School Code, the Board shall require that district students submit to health and dental examinations in order to protect the school community from the spread of communicable disease and to ensure that the student's participation in health, safety and physical education courses meets his/her individual needs and that the learning potential of each student is not lessened by a remediable physical disability.\(^1\)[2][3][4]

## Guidelines

Each student shall receive a comprehensive health examination conducted by the school physician upon original entry, in sixth grade, and in eleventh grade.\(^1\)[3][5]

Each student shall receive a comprehensive dental examination conducted by the school dentist upon original entry, in third grade, and in seventh grade.\(^1\)[4][5]

A private health and/or dental examination conducted at the parents'/guardians’ request and expense shall be accepted in lieu of the school examination. The district shall accept reports of privately conducted physical and dental examinations completed within one (1) year prior to a student’s entry into the grade where an exam is required.\(^5\)

The school nurse or medical technician shall administer to each student vision tests, hearing tests, tuberculosis tests, other tests deemed advisable, and height and weight measurements, at intervals established by the district. Height and weight measurements shall be used to calculate the student’s weight-for-height ratio.\(^1\)[3][6]

Parents/Guardians of students who are to receive physical and dental examinations or screenings shall be notified. The notice shall include the date and location of the examination or screening and notice that the parents/guardians may attend. The notice shall encourage the parent/guardian to have the examination or screening conducted by the student’s private physician or dentist at the parent’s/guardian’s expense to promote continuity of care. Such statement may also include notification that the student may be exempted from such examination or screening if it is contrary to the parent’s/guardian’s religious beliefs.\(^7\)[8][9]
A student who presents a statement signed by the parent/guardian that a medical examination is contrary to his/her religious beliefs shall be examined only when the Secretary of Health determines that facts exist indicating that the student would present a substantial menace to the health of others in contact with the student if the student is not examined.[10][11]

Where it appears to school health officials or teachers that a student deviates from normal growth and development, or where school examinations reveal conditions requiring health or dental care, the parent/guardian shall be notified of the apparent need for a special examination by the student’s private physician or dentist. The parent/guardian shall report to the school whether a special examination occurred. If the parent/guardian fails to report whether the examination occurred within a reasonable time after being notified of the apparent need and the abnormal condition persists, appropriate school health personnel shall arrange a special medical examination for the student.[1][3][12]

In the event that the parent/guardian objects to or refuses to obtain a regular or special medical or dental examination or refuses to permit the child to be examined as arranged by the school nurse or school physician, the school nurse, in consultation with the school physician, shall determine whether the student appears to have unaddressed health conditions such that under the circumstances the refusal should be reported to the Pennsylvania Department of Health or other appropriate authorities.

Where school health officials or staff have reasonable cause to suspect that a student may be the victim of child abuse, the school employee shall make a report of suspected child abuse in accordance with law and Board policy.[13][14]

Health Records

The district shall maintain for each student a comprehensive health record which includes a record of immunizations and the results of tests, measurements, regularly scheduled examinations and special examinations.[3]

All health records shall be confidential and shall be disclosed only when necessary for the health of the student or when requested by the parent/guardian, in accordance with law and Board policy.[15][16][17]

The district may disclose information from health records to appropriate parties in connection with an emergency when necessary to protect the health or safety of the student or other individuals, in accordance with applicable law and Board policy.[15][16][17][18][19][20]
### Delegation of Responsibility

Designated district staff shall request from the transferring school the health records of students transferring into district schools. Staff shall respond to such requests for the health records of students transferring from district schools to other schools.[15]

The district shall destroy student health records only after the student has not been enrolled in district schools for at least two (2) years.[15][21]

The Superintendent or designee shall instruct all staff members to continually observe students for conditions that indicate health problems or disability and to promptly report such conditions to the school nurse.[3]

The Superintendent or designee shall ensure that notice is provided to all parents/guardians regarding the existence of and eligibility for the Children's Health Insurance Program (CHIP).[12]

209.1. FOOD ALLERGY MANAGEMENT

1. Purpose

The Board is committed to providing a safe and healthy environment for students with severe or life-threatening food allergies and shall establish policy to address food allergy management in district schools in order to:

1. Reduce and/or eliminate the likelihood of severe or potentially life-threatening allergic reactions.

2. Ensure a rapid and effective response in the case of a severe or potentially life-threatening allergic reaction.

3. Protect the rights of students by providing them, through necessary accommodations when required, the opportunity to participate fully in all school programs and activities, including classroom parties and field trips.

The focus of food allergy management shall be on prevention, education, awareness, communication and emergency response.

2. Authority

SC 1422.3

The Board adopts this policy in accordance with applicable state and federal laws and regulations, and the guidelines established jointly by the PA Department of Education and PA Department of Health on managing severe or life-threatening food allergies in the schools.

3. Definitions

Food allergy - an abnormal, adverse reaction to a food that is triggered by the body’s immune system.

Medical Plans of Care - written documents individualized for a particular student with a severe or life-threatening food allergy to address the student’s needs throughout the school day, including:
1. **Emergency Care Plan (ECP)** - a medical plan of care based on the information provided in the student’s Individualized Healthcare Plan (IHP) and distributed to all school personnel who have responsibilities for the student which specifically describes how to recognize a food allergy emergency and what to do when signs or symptoms of these conditions are observed.

2. **Individualized Healthcare Plan (IHP)** - a medical plan of care that provides written directions for school health personnel to follow in meeting the individual student’s healthcare needs. The plan describes functional problem areas, sets goals for overcoming problems, and lists tasks/interventions to meet the goals. The IHP shall include a Food Allergy Medical Management Plan developed by a student’s personal healthcare team and family, which shall outline the student’s prescribed healthcare regimen and be signed by the student’s board-certified allergist, family physician, physician assistant or certified registered nurse practitioner.

3. **Related Services Component in Individualized Education Program (IEP)** - that part of an IEP for a student receiving special education and related services which includes reference to development and implementation of an IHP and ECP for students with a documented severe or life-threatening food allergy as well as identifying the medical accommodations, educational aids and services to address the student’s needs.

4. **Section 504 Service Agreement** - a medical plan of care which references development and implementation of an IHP and ECP as well as other accommodations, educational aids and services a student with a documented severe or life-threatening food allergy requires in order to have equal access to educational programs, nonacademic services and extracurricular activities as students without food allergies.

4. **Guidelines**

   Prior to enrollment in the district or immediately after diagnosis of a food allergy, appropriate medical plans of care such as an ECP, IHP, Section 504 Service Agreement and/or IEP shall be developed for each student identified with a food allergy. Plans shall be developed by the school nurse, in collaboration with the student’s healthcare provider, the student’s parents/guardians, district or school nutrition staff, the student, if appropriate, and any other appropriate persons.

   Where a medical plan of care is developed, it should carefully describe the plan for coverage and care of a student during the school day as well as during school-sponsored activities which take place while the student is under school jurisdiction during or outside of school hours. Medical plans of care shall include a component which provides information to the school nutrition service regarding each student with documented severe or life-threatening food allergies.
### Pol. 210, 210.1

Medical plans of care should include both preventative measures to help avoid accidental exposure to allergens and emergency measures in case of exposure, including administration of emergency medication.

A complete set of a student’s current medical plans of care related to food allergies shall be maintained by the school nurse. Information or copies of the different components of a student’s medical plans of care shall be provided to appropriate personnel who may be involved in implementation of the medical plans of care.

209.2. DIABETES MANAGEMENT

1. Purpose

The Board recognizes that an effective program of diabetes management in school is crucial to:

1. The immediate safety of students with diabetes.
2. The long-term health of students with diabetes.
3. Ensure that students with diabetes are ready to learn and participate fully in school activities.
4. Minimize the possibility that diabetes-related emergencies will disrupt classroom activities.

2. Authority

The Board adopts this policy in accordance with applicable state and federal laws and regulations, and Board policies and administrative regulations, regarding the provision of student health services.[1][2][3][4][5][6][7][8][9]

3. Definitions

Diabetes Medical Management Plan (DMMP) means a document describing the medical orders or diabetes regimen developed and signed by the student’s health care practitioner and parent/guardian.[2]

Individualized Education Program (IEP) means the written educational statement for each student with a disability that is developed, reviewed and revised in accordance with federal and state laws and regulations. A student with a disability is a school-aged child within the jurisdiction of the district who has been evaluated and found to have one or more disabilities as defined by law, and who requires, because of such disabilities, special education and related services.[7]
Section 504 Service Agreement (Service Agreement) means an individualized plan for a qualified student with a disability which sets forth the specific related aids, services, or accommodations needed by the student, which shall be implemented in school, in transit to and from school, and in all programs and procedures, so that the student has equal access to the benefits of the school’s educational programs, nonacademic services, and extracurricular activities. A qualified student with a disability means a student who has a physical or mental disability which substantially limits or prohibits participation in or access to an aspect of the district’s educational programs, nonacademic services or extracurricular activities.\[^1\]

Trained Diabetes Personnel means nonlicensed school employees who have successfully completed the required training.

Before a student can receive diabetes-related care and treatment in a school setting, the student’s parent/guardian shall provide written authorization for such care and instructions from the student’s health care practitioner. The written authorization may be submitted as part of a student’s DMMP.\[^5\]

Diabetes-related care shall be provided in a manner consistent with Board policy, district procedures and individualized student plans such as an IEP, Service Agreement or DMMP.\[^1\][^3][^4][^5][^7][^9\]

In order to maintain a student’s health and safety, each student’s individualized plan shall address what information will be provided to school staff and other adults who have responsibility for the student in the school setting.\[^1\][^5][^7][^10][^11\]

Student health records shall be confidential and maintained in accordance with state and federal laws and regulations.\[^12\][^13][^14\]

Trained Diabetes Personnel

The school nurse, in consultation with the Superintendent or designee, may identify at least one (1) school employee, who is not the school nurse and who does not need to be a licensed health care practitioner, in each school building attended by a student with diabetes to perform diabetes care and treatment for students. The identified school employee has the right to decline this role.\[^4\]

An identified school employee who has accepted this role shall complete the training developed by the state or training offered by a licensed health care practitioner with expertise in the care and treatment of diabetes, that includes at a minimum:\[^4\]

1. An overview of all types of diabetes.

The identified school employee shall complete such training on an annual basis.\(^4\)

Upon successful completion of the required training, individual trained diabetes personnel may be designated in a student’s Service Agreement or IEP to administer diabetes medications, use monitoring equipment and provide other diabetes care.\(^4\)

If the diabetes-related care provided to a particular student by trained diabetes personnel will include administration of diabetes medication via injection or infusion, the Board shall require the following:\(^4\)

1. The parent/guardian and the student’s health care practitioner must provide written authorization for such administration; and
2. The trained diabetes personnel must receive annual training for such administration from a licensed health care practitioner with expertise in the care and treatment of diabetes.

### Training of Other School Personnel

The written request for student possession and use of diabetes medication and monitoring equipment shall be reviewed annually, along with the required written statements from the parent/guardian and the student’s health care practitioner. If there is a change in the student’s prescribed care plan, level of self-management or school circumstances during the school year, the parent/guardian and the student’s health care practitioner shall update the written statements.

Students shall be prohibited from sharing, giving, selling and using diabetes medication and monitoring equipment in any manner other than which it is prescribed during school hours, at any time while on school property, at any school-sponsored activity and during the time spent traveling to and from school and school-sponsored activities. Violations of this policy, provisions of a Service Agreement or IEP, or demonstration of unwillingness or inability to safeguard the medication and monitoring equipment may result in loss of privilege to self-carry the diabetes medication and monitoring equipment, and may result in disciplinary action in accordance with Board policy and applicable procedural safeguards.[1][3][10][16][17]

If the district prohibits a student from possessing and self-administering diabetes medication and operating monitoring equipment, or if a student is not capable of self-administering diabetes medication or operating monitoring equipment, the district shall ensure that the diabetes medication and monitoring equipment is appropriately stored in a readily accessible location in the student’s building. The school nurse and other designated school employees shall be informed where the medication and monitoring equipment is stored and the means to access them.[3]

If necessary, the Superintendent or designee, in conjunction with the school nurse(s), shall develop additional administrative regulations for care and treatment of students with diabetes in the school setting.

The Superintendent or designee shall coordinate training for school employees. Such training may be included in the district’s Professional Education Plan.[4][18][19]

All properly trained employees shall be informed of the exact location where stock epinephrine auto-injectors are being stored within the school nurse’s office or other location.

The school nurse shall obtain sufficient supplies of stock epinephrine auto-injectors pursuant to the standing order in the same manner as other medical supplies acquired for the school health program. The school nurse or designee shall regularly inventory and refresh epinephrine auto-injector stocks, and maintain records thereof, in accordance with the established internal procedures, manufacturer recommendations and Pennsylvania Department of Health guidelines.
### Administration of Stock Epinephrine Auto-Injectors

When responding to a student believed to be experiencing an anaphylactic reaction, a trained school employee shall: \(^3\)

1. Administer an epinephrine auto-injector that meets the prescription on file for either the student or the district. 2. Call for medical help immediately (dial 9-1-1).

3. Take additional precautions or steps outlined in emergency response procedures and training, including the administration of a second dose of epinephrine, if necessary.

4. Stay with the student until emergency medical help arrives.

5. Cooperate with Emergency Medical Services (EMS) personnel responding to the incident.

6. Notify the school nurse or designee of the incident.

### Training

Before any school district employee may be responsible for the storage or administration of epinephrine auto-injectors under this policy, the employee must successfully complete a training course approved by the Pennsylvania Department of Health. \(^3\)

Refresher training shall be completed every two (2) years, and a hands-on demonstration and review of this policy and any accompanying procedures shall be completed annually.

Evidence that such training has been completed shall be placed in the employee’s personnel file.

A list of school district employees who successfully complete such training shall be maintained, updated and kept in the school nurse’s office and the school district administration office.
Indemnification

The school district shall indemnify and hold harmless any employee who administers an epinephrine auto-injector in good faith to a student experiencing anaphylaxis, if all of these conditions apply: \[3][22][23][24]

1. The employee did not act with the intent to harm or with reckless indifference to a substantial risk or harm in administering the epinephrine auto-injector to the student.

2. The employee successfully completed the training required by this policy.

Dear Parents/Guardians:

Pennsylvania Law now allows schools to obtain and store epinephrine auto-injectors to administer epinephrine in the event a student goes into anaphylaxis (life-threatening allergic reaction).

[NAME OF SCHOOL] has obtained epinephrine auto-injectors pursuant to this law, to be administered in the event a person experiences anaphylaxis in the school setting. The intent of this program is not to replace epinephrine auto-injectors brought to school by students who have been prescribed the devices to control a known/diagnosed allergy.

Pennsylvania law requires the school to offer an opt-out for parents who do not wish for their child to be included in this program. If, for some reason, you do not want your child to be treated with an epinephrine auto-injector in the event your child has a life-threatening allergic reaction (anaphylaxis), please complete and sign the bottom portion of this letter and return it to your child’s school.

Sincerely,

Opt-out Form

I do not want my child, listed below, to be treated with an epinephrine auto-injector in the event he or she has a life-threatening allergic reaction (anaphylaxis) during school hours or during a school event. My child is exempt from being treated with an epinephrine auto-injector and he or she opts out of the administration of epinephrine pursuant to the Pennsylvania School Code, 24 P.S. § 1414.2(g). I release, indemnify and hold harmless Freeport Area School District, its Board, employees, agents and representatives, from any and all liability related to or arising from my decision to exempt my child from the administration of an epinephrine auto-injector.

1. Purpose
The Board recognizes the need for insurance coverage for unforeseen accidents that may occur to students in the course of attendance at school or participation in the athletic and extracurricular programs of the schools.

2. Authority
The Board shall require parents/guardians of students who participate in an interscholastic sport, cheerleader program, band program and designated extracurricular programs to purchase the student accident insurance available through the school district or provide proof of comparable insurance, prior to the student’s participation.

The Board shall provide, at no cost to the Board, parents/guardians the opportunity to purchase insurance coverage for students while participating in any activity during school hours, or any activity round-the-clock.

3. Delegation of Responsibility
The Superintendent or designee shall be responsible to:

1. Prepare specifications and secure suitable coverage from qualified insurance carriers for recommendation and Board approval.

2. Notify all students and parents/guardians of students who may be eligible for insurance purchase.

3. Ensure that where the Board assumes the full cost of insurance, each eligible student is properly insured.

### 212. REPORTING STUDENT PROGRESS

#### 1. Purpose

**Pol. 216**

The Board believes that cooperation between school and home is a vital ingredient in the growth and education of each student. The Board acknowledges the school's responsibility to keep parents/guardians informed of student welfare and academic progress and also recognizes the effects of federal and state laws and regulations governing student records.

#### 2. Authority

The Board directs establishment of a system of reporting student progress that requires all appropriate staff members, as part of their professional responsibility, to comply with a reporting system that includes academic progress reports, report cards, and parent/guardian conferences with teachers.

#### 3. Delegation of Responsibility

The Superintendent or designee shall develop administrative regulations for reporting student progress to parents/guardians.

#### 4. Guidelines

Various methods of reporting, appropriate to grade level and curriculum content, shall be utilized.

Both student and parent/guardian shall receive ample warning of a pending grade of failure, or one that would adversely affect the student's academic status.

Scheduling of parent-teacher conferences shall occur at times that ensure the greatest degree of participation by parents/guardians.

Report cards shall be issued at intervals of not less than nine (9) weeks.

Review and evaluation of methods of reporting student progress to parents/guardians shall be conducted on a periodic basis.

213. ASSESSMENT OF STUDENT PROGRESS

1. Purpose
The Board recognizes that a system of assessing student achievement can help students, teachers, and parents/guardians to understand and evaluate a student's progress toward educational goals and academic standards.

2. Definition
Assessment shall be the system of measuring and recording student progress and achievement that enables the student, parents/guardians and teachers to determine a student's attainment of established local and state academic standards; learn the student’s strengths and weaknesses; determine where remedial work is required; and plan an educational or vocational future for the student in areas of the greatest potential for success.

3. Authority
The Board directs that the district's instructional program shall include a system of assessing all students' academic progress. The system shall include descriptions of how achievement of academic standards will be measured and how this information will be used to assist students having difficulty meeting required standards.

4. Delegation of Responsibility
The Superintendent or designee shall develop and implement an assessment system to measure student progress, in accordance with district goals and state regulations.

5. Guidelines
Each student should be kept informed of his/her personal progress during the course of a unit of study.

### 214. CLASS RANK

#### 1. Purpose
The Board acknowledges the necessity for a system of computing grade point averages and class rank for secondary school students to inform students, parents/guardians and others of their relative academic placement among their peers.

#### 2. Authority
The Board authorizes a system of class rank, by grade point average, for students in grades 9-12. All students shall be ranked together by class.

Class rank shall be computed by using each nine-week grade in all subjects for which credit is awarded by letter grades other than pass or fail. Final grades will be used to determine earned credit value only, not the GPA. GPA will be based upon the prorated nine-week grade during the school year.

Any two (2) or more students whose computed grade point averages are identical shall be given the same rank. The rank of the student who immediately follows a tied position will be determined by the number of students preceding and not by the rank of the proceeding person.

In recognition of the heavier burden of certain work, grade point averages shall be weighted by awarding an add-on value for each honors course and advanced placement course as specified in the course of study. Add-on values will be calculated as follows:

1. Level 3 courses .120 (Advanced Placement Course).
2. Level 2 courses .060 (Honors Courses).

#### Pol. 216
A student's grade point average and rank in class shall be entered on the student's record and transcripts and shall be subject to Board policy on release of student records.

#### 3. Delegation of Responsibility
The Superintendent or designee shall develop administrative regulations for computing grade point averages and assigning class rank to implement this policy which shall include a statement of the methods for such computation.

220. STUDENT EXPRESSION/ DISTRIBUTION AND POSTING OF MATERIALS

Purpose

The right of public school students to freedom of speech is guaranteed by the Constitution of the United States and the constitution of the Commonwealth. The Board respects the right of students to express themselves in word or symbol and to distribute and post materials in areas designated for posting as a part of that expression. The Board also recognizes that exercise of that right must be limited by the district’s responsibility to maintain an orderly school environment and to protect the rights of all members of the school community.

This policy addresses student expression in general and distribution and posting of materials that are not part of district-sponsored activities. Materials sought to be distributed or posted as part of the curricular or extracurricular programs of the district shall be regulated as part of the school district’s educational program.

Definitions

**Distribution** means students issuing nonschool materials to others on school property or during school-sponsored events; placing upon desks, tables, on or in lockers; or engaging in any other manner of delivery of nonschool materials to others while on school property or during school functions. When email, text messaging or other technological delivery is used as a means of distributing or accessing nonschool materials via use of school equipment or while on school property or at school functions, it shall be governed by this policy. Off-campus or after hours distribution, including technological distribution, that does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another’s rights is also covered by this policy.

**Expression** means verbal, written, technological or symbolic representation or communication.
<table>
<thead>
<tr>
<th>Authority</th>
</tr>
</thead>
</table>

**Nonschool materials** means any printed, technological or written materials meant for posting or general distribution that are not prepared as part of the curricular or approved extracurricular programs of the district. This includes, but is not limited to, fliers, invitations, announcements, pamphlets, posters, Internet bulletin boards, personal websites and the like.

**Posting** means publicly displaying nonschool materials on school property or at school-sponsored events, including but not limited to affixing such materials to walls, doors, bulletin boards, easels, the outside of lockers; on district-sponsored or student websites; through other district-owned technology and the like. When email, text messaging or other technological delivery is used as a means of posting nonschool materials via use of school equipment or while on school property or at school functions, it shall be governed by this policy. Off-campus or after hours posting, including technological posting, that does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another’s rights is also covered by this policy.

Students have the right to express themselves unless such expression is likely to or does materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another’s rights[1]

Student expression that occurs on school property or at school-sponsored events is fully governed by this policy. In addition, off-campus or after hours expression is governed by this policy if the student expression involved constitutes unprotected expression as stated in this policy and provided the off-campus or after hours expression does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another’s rights.[1][2][3]

The Board shall require that distribution and posting of nonschool materials shall occur only at the places and during the times set forth in written procedures. Such procedures shall be written to permit the safe and orderly operation of schools, while recognizing the rights of students to engage in protected expression.[1][4]
Unprotected Student Expression

The Board reserves the right to designate and prohibit manifestations of student expression that are not protected by the right of free expression because they violate the rights of others or where such expression is likely to or does materially or substantially interfere with school activities, school work, discipline, safety and order on school property or at school functions. While the following list is not intended to be exhaustive, such expression shall not be protected if it:

1. Violates federal, state or local laws, Board policy or district rules or procedures.
2. Is libelous, defamatory, obscene, lewd, vulgar, or profane.[3]
3. Advocates the use or advertises the availability of any substance or material that may reasonably be believed to constitute a direct and serious danger to the health or welfare of students, such as tobacco/nicotine, alcohol or illegal drugs.
4. Incites violence, advocates use of force or threatens serious harm to the school or community.
5. Is likely to or does materially or substantially interfere with the educational process, such as school activities, school work, discipline, safety and order on school property or at school functions.
6. Interferes with, or advocates interference with, the rights of any individual or the safe and orderly operation of the schools and their programs.
7. Violates written school procedures on time, place and manner for posting and distribution of otherwise protected expression.

Spontaneous student expression which is otherwise protected speech is not prohibited by this section.

If notice is not given during the period between submission and the time for the planned distribution or posting, students may proceed with the planned distribution or posting, provided they comply with written procedures on time, place and manner of posting or distribution of nonschool materials. Students who post or distribute nonschool materials in compliance with this provision may still be ordered to desist such distribution if the materials are later found to be unprotected expression under this policy. **Review Of Student Expression**

School officials shall not censor or restrict nonschool materials or other student expression for the sole reason that it is critical of the school or its administration, or because the views espoused are unpopular or may make people uncomfortable.

Student-initiated religious expression is permissible and shall not be prohibited except as to time, place and manner of distribution, or if the expression involved violates some other part of this policy, e.g., because it is independently determined to be unprotected expression under the standards and definitions of this policy.

The review for unprotected expression shall be reasonable and not calculated to delay distribution.

Appeal of the reviewer’s decision may be made to the Superintendent and then to the Board, in accordance with Board policy and district procedures.\[5\]

The Superintendent shall assist the building principal and/or the District school and student events coordinator in determining the designation of the places and times nonschool materials may be distributed in each school building. Such designations may take into account maintenance of the flow of student traffic throughout the school and shall limit distribution of nonschool materials to noninstructional times.

The building principal may determine disciplinary action for students who distribute or post nonschool materials in violation of this policy and district procedures, or who continue the manifestation of unprotected expression after a person in authority orders that they desist. Disciplinary actions shall be included in the disciplinary Code of Student Conduct.\[6\]

This Board policy and any procedures written to implement this policy shall be referenced in student handbooks so that students can access them for further information.

Off-campus or after hours posting, including technological posting, that does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school
functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another’s rights is also covered by Policy 220 and these procedures.

**Unprotected Student Expression** means expressions that are not protected by the right of free expression because such expressions violate the rights of others or where such expression is likely to or does materially or substantially interfere with school activities, school work, discipline, safety and order on school property or at school functions. While the following list is not intended to be exhaustive, such expression shall not be protected if it:

1. Violates federal, state or local laws, Board policy or district rules or procedures.
2. Is libelous, defamatory, obscene, lewd, vulgar or profane.
3. Advocates the use or advertises the availability of any substance or material that may reasonably be believed to constitute a direct and serious danger to the health or welfare of students, such as tobacco/nicotine, alcohol or illegal drugs.

**Distribution of Nonschool Materials**

The distribution by students of all nonschool materials will be governed by the following procedures:

3. The Superintendent or designee will review the material, determine if it constitutes unprotected expression, and inform the building principal and District school and student events coordinator of his/her decision. The building principal or District school and student events coordinator will notify the student(s) planning to distribute nonschool material of the decision to grant or deny permission to distribute the material as planned. If the decision is to not permit the distribution, the building principal or designee will specify the reasons for the decision and will specify the changes in the
content of the material or in the plan of distribution which must be made, if any, in order to secure such permission. If the student(s) desiring to distribute such material make(s) such changes in a manner satisfactory to the Superintendent or designee prior to the planned distribution, the building principal or District school and student events coordinator may then grant permission to distribute.

The person wishing to post such material must provide in writing his/her name, address, telephone number and organization, if any. This information will be filed in the building principal’s office.

3. The Superintendent or designee will review the material, determine if it constitutes unprotected expression, and inform the building principal or designee of his/her decision. The building principal or designee will notify the student(s) planning to post nonschool material of the decision to grant or
deny permission to post the material as planned. If the decision is to not permit the posting, the building principal or designee will specify the reasons for the decision and will specify the changes in the content of the material, if any, in order to secure such permission. If the student(s) desiring to post such material make(s) such changes in a manner satisfactory to the Superintendent or designee prior to the planned posting, the building principal or District school and student events coordinator may then grant permission to post.

# FREEPORT AREA SCHOOL DISTRICT

## SECTION: PUPILS

## TITLE: SEARCHES

ADOPTED: August 12, 2015

REVISED: March 22, 2018

---

### 226. SEARCHES

1. **Purpose**
   
   The Board acknowledges the need to respect the rights of students to be free from unreasonable searches and seizures while fulfilling the district’s interest in protecting and preserving the health, safety and welfare of the school population, enforcing rules of conduct, and maintaining an appropriate atmosphere conducive to learning.

2. **Authority**
   
   School officials have the authority to lawfully search students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, without a warrant, when in school, on school grounds or when otherwise under school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, Board policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.

3. **Delegation of Responsibility**
   
   The district has a compelling interest in protecting and preserving the health, safety and welfare of the school population, which under certain circumstances may warrant general or random searches of students and their lockers, vehicles or other belongings without individualized suspicion, for the purpose of finding or preventing entry onto school property of controlled substances, weapons or other dangerous materials.

   The Board authorizes the administration to conduct searches of students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions in accordance with the standards set forth in this policy.
| Title 22  
| Sec. 12.14 |
| The Superintendent or designee, in consultation with the district solicitor, shall develop guidelines and procedures to implement this policy, and shall ensure that school staff who are involved in carrying out searches or determining when searches will be conducted receive appropriate periodic training about such procedures and currently applicable legal standards.

Students, parents/guardians and staff shall be notified at least annually, or more often if deemed appropriate by administration, about the standards and procedures in effect pursuant to this policy.

| 4. Guidelines |
| Individualized Suspicion Searches |

| Title 22  
| Sec. 12.14 |
| Students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, may be searched without a warrant when in school, on school grounds or when otherwise under school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, Board policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.

In determining whether reasonable suspicion exists, the principal or designee always should be able to articulate what is being looked for, and why it is thought to be located in the particular place to be searched. The scope of a search should be limited to the place or places the item sought is believed to be.

Examination by school staff of text messages, call logs, files, images or other data contained in a student’s mobile telephone or other electronic device, without the student’s consent, normally constitutes a search that must be justified by reasonable suspicion that material in violation of law, district policy or school rules, or evidence of such a violation, is contained in the particular files, directories or other data locations being examined in the device.
Random Or General Searches Without Individualized Suspicion

Under certain circumstances, random or general searches of students and their belongings, including student lockers or vehicles parked on school property, may be conducted during the school day or upon entry into school buildings or school activities, in the absence of suspicion focused on a particular student or students, for the purpose of finding or preventing entry onto school property or activities of controlled substances, weapons or other dangerous materials. Such searches normally will be conducted in a minimally intrusive manner using screening methods such as dogs or other animals trained to detect controlled substances, explosives or other harmful materials by smell, as well as metal detectors and other technology. When such screening methods provide a reasonable suspicion that particular students, items or places possess or contain controlled substances, weapons or other dangerous material, screening may be followed by physical searches of those particular students, items or places on an individualized basis.

Random or general searches for weapons may be conducted when there are circumstances, information or events tending to indicate increased likelihood that students may be armed or headed for physical confrontation because of community strife or tensions, or as a continuation or escalation of a prior incident, in or out of school, which threatens to spill over into school, into a school-sponsored activity, or into other times and places that students are under school supervision.

Random or general searches for controlled substances may be conducted when there are circumstances, events or information tending to indicate significant drug use, possession or trafficking among students in school.

Metal / Weapons Detection System and Devices

The Board of School Directors authorizes the use of metal/weapon detection scanning systems and devices, including walk-through units and handheld wands, for the regulation of entry of students, staff and/or the general public into school facilities and school-sponsored activities, whether on or off school grounds, under the direction of the Superintendent.
The Superintendent may authorize daily metal/weapon detector screenings, using school personnel, school police officers and/or security personnel to operate the metal/weapons detection systems and/or devices, when the Superintendent determines such daily screenings are necessary or warranted to promote school safety. Alternatively, the Superintendent may authorize metal detector screenings on selected days to address particular safety concerns, such as following articulated threats, or on days on which special events such as athletic competitions, social events or dignitary visits are held, using school personnel, school police officers and/or security personnel to operate the metal/weapons detection systems and/or devices.

School officials may conduct a search of the individual or person and may inspect the contents of any backpack, book bag, purse, parcel, jacket or other clothing or item that activates the metal detector for the limited purpose of determining whether a weapon is concealed. Staff will be instructed to insure that people with disabilities will be thoroughly screened while being sensitive to each person’s condition.

Students and staff who refuse to cooperate in or attempt to evade metal/weapon detector screenings may be subject to disciplinary action. Members of the public who refuse to submit to the screening process shall be denied access to the school building/facilities/event and any such person shall be required to leave school property immediately.

The Superintendent and/or his designee shall develop and distribute administrative procedures to utilize when conducting searches using metal/weapons detection systems and devices. When metal/weapon detection scanning systems and devices are in use, notices shall be posted at the building entrances notifying entrants that they are subject to metal/weapon detector screenings. Similar notice of such screenings will be annually provided to parents and students in the Parent-Student Handbook or similar publication.

Nothing in this policy requires the use of a metal/weapon detection system or security screening device.

Random or general searches not based on individualized suspicion must be approved in advance by the Superintendent or designee, in consultation with the district solicitor. Coordination with law enforcement officials will be accomplished as provided in the memorandum of understanding with the applicable law enforcement agency.

</thead>
<tbody>
<tr>
<td>Searches may be conducted at any time, with or without reasonable suspicion, if the student has given knowing and voluntary consent specific to the place to be searched.</td>
</tr>
</tbody>
</table>

**Pol. 223**

The administration may establish rules and procedures governing certain privileges enjoyed by students, such as the privilege of parking a vehicle on school grounds, that make the student’s consent to random searches or inspections a condition of access to the privilege.

<table>
<thead>
<tr>
<th>Searches By Or At The Request Of Law Enforcement Officials</th>
</tr>
</thead>
<tbody>
<tr>
<td>The legal standards governing searches initiated by school officials are less strict than the standards applicable to law enforcement authorities in many situations. When searches of students, student belongings, vehicles or lockers are conducted by or at the request of law enforcement officials, with or without the involvement of school staff, the law enforcement officials are solely responsible for ensuring that a warrant has been issued or that the circumstances otherwise permit the search to be lawfully conducted in accordance with the standards applicable to law enforcement actions. School staff will not interfere with or obstruct searches initiated by law enforcement, but may assist when law enforcement officials have requested such assistance and have represented that a warrant has been issued or that they otherwise have proper authority for a lawful search.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Locker Inspections And Searches</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lockers are assigned to or otherwise made available to students as a convenience for the safe storage of books, clothing, school materials and limited personal property, and to facilitate movement between classes and activities and to and from school. Such lockers are and shall remain the property of the school district, and to the extent students have any expectation of privacy of lockers at all, it is very limited.</td>
</tr>
</tbody>
</table>

No student may place or keep in a locker any substance or object that is prohibited by law, Board policy or school rules, or that constitutes a threat to the health, safety or welfare of the occupants of the school building or the building itself. Students are required to ensure that their lockers do not contain spoiled food items or beverages, or soiled clothing which may attract pests, create odors or cause unhealthy conditions. A student locker may be opened and inspected for cleanliness, with or without the consent of the student, whenever there are odors, pests or other indications that a locker contains spoiled food, soiled clothing in need of laundering or similarly unhealthy matter.
Students are exclusively responsible for locking their assigned lockers to ensure the security of their personal belongings and school property entrusted to them. Students are permitted to secure their assigned lockers only with locks provided by the district, or if the district does not provide locks, personal combination locks for which the combination has been provided to designated school staff.

Prior to an individual locker search or inspection, the student to whom the locker is assigned shall be notified and be given a reasonable opportunity to be present. However, when there is a reasonable suspicion that a locker contains materials which pose a threat to the health, welfare or safety of the school population, student lockers may be searched without prior notice to the student.

The principal or a designated staff person shall be present whenever a student locker is inspected for cleanliness or is searched. The principal or designee shall maintain written records of all occasions when a locker is searched or inspected. Such records shall include the reason(s) for the search, persons present, objects found and their disposition.

**Searches Involving Removal Of Clothing Or Examination Beneath Clothing**

Searches of students involving the removal of undergarments or examination beneath undergarments are subject to stricter standards than are required to justify other searches of a student’s person or belongings. Such searches are permitted only when the basis for suspicion establishes either:

1. That the reasons for believing that the items being searched for are concealed specifically inside undergarments are stronger reasons than grounds that would support only a more general reasonable suspicion that the student is in possession of the items or has them somewhere on the student’s person; or,

2. That the quantity or nature of the items being sought present a higher level of danger to the school population than other kinds of contraband.

Searches involving the removal of or examination beneath any clothing of a student, other than jackets, coats or other outerwear, shall be conducted only by a staff person of the same gender as the student, with at least one (1) other staff person of the same gender present as a witness, and in a location assuring privacy from observation by persons not involved in the search or of the opposite sex.

Searches involving the removal of undergarments or examination beneath undergarments will be conducted only after consultation with the district solicitor.
### Handling And Disposal Of Items Found In The Course Of Searches

Any items or material found during a search or inspection, the student’s possession of which is in violation of law, district policies or school rules, or otherwise is evidence of such a violation, may be confiscated, and may be used as evidence in student discipline proceedings or a criminal investigation, even if such items or material were not the original objective of the search or inspection.

The principal shall be responsible to ensure that confiscated items or material are properly inventoried and secured until the conclusion of disciplinary action, if any, and are then properly disposed of if not appropriate to be returned to the student. Items or materials that are evidence of a criminal offense, or that are not lawful for ordinary citizens to possess will be promptly turned over to proper law enforcement authorities for custody or disposal.

FREESTPORT AREA
SCHOOL DISTRICT

SECTION: PUPILS
TITLE: SUSPENSION AND EXPULSION
ADOPTED: August 12, 2015
REVISED:

233. SUSPENSION AND EXPULSION

1. Purpose
   The Board recognizes that exclusion from the educational program of the schools, whether by suspension or expulsion, is the most severe sanction that can be imposed on a student and one that cannot be imposed without due process. The Board shall define and publish the types of offenses that would lead to exclusion from school. Exclusions affecting students with disabilities shall be governed by applicable state and federal law and regulations.

2. Authority
   The Board may, after a proper hearing, suspend or expel a student for such time as it deems necessary, or may permanently expel a student.

3. Guidelines
   Exclusion From School - Suspension
   The principal or person in charge of the school may suspend any student for disobedience or misconduct for a period of one (1) to ten (10) consecutive school days and shall immediately notify the parent/guardian and the Superintendent in writing when the student is suspended.

   No student may be suspended without notice of the reasons for which s/he is suspended and an opportunity to be heard on his/her own behalf before the school official who holds the authority to reinstate the student. Prior notice is not required where it is clear that the health, safety or welfare of the school population is threatened. Suspensions may not be made to run consecutively beyond the ten-school day period.
### Title 22
**Sec. 12.6, 12.8**
When a suspension exceeds three (3) school days, the student and parent/guardian shall be given the opportunity for an informal hearing with the designated school official. Such hearing shall take place as soon as possible after the suspension, and the district shall offer to hold it within the first five (5) days of the suspension.

Informal hearings under this provision shall be conducted by the building principal.

#### Purpose Of Informal Hearing

The purpose of the informal hearing is to permit the student to explain the circumstances surrounding the event leading to the suspension, to show why the student should not be suspended, and to discuss ways to avoid future offenses.

#### Due Process Requirements For Informal Hearing

1. The student and parent/guardian shall be given written notice of the reasons for the suspension.
2. The student and parent/guardian shall receive sufficient notice of the time and place of the informal hearing.
3. The student may question any witnesses present at the informal hearing.
4. The student may speak and produce witnesses who may speak at the informal hearing.
5. The school district shall offer to hold the informal hearing within five (5) days of the suspension.

### Exclusion From Class - In-School Suspension

**Title 22**
**Sec. 12.7**
No student may receive an in-school suspension without notice of the reasons for which s/he is suspended and an opportunity to be heard prior to the time the suspension becomes effective. The parent/guardian shall be informed of the suspension action taken by the school.

**Title 22**
**Sec. 12.7, 12.8**
Should the in-school suspension exceed ten (10) consecutive school days, the student and parent/guardian shall be offered an informal hearing with the building principal. Such hearing shall take place prior to the eleventh day of the in-school suspension. The procedure shall be the same as the procedure for informal hearings held in connection with out-of-school suspensions.

**Title 22**
**Sec. 12.7**
The district shall provide for the student's education during the period of in-school suspension.
## Expulsion

Expulsion is exclusion from school by the Board for a period exceeding ten (10) consecutive school days. The Board may permanently expel from the district rolls any student whose misconduct or disobedience warrants this sanction. No student shall be expelled without an opportunity for a formal hearing before the Board, a duly authorized committee of the Board, or a qualified hearing examiner appointed by the Board and upon action taken by the Board after the hearing.

## Expulsion Hearings

A formal hearing shall be required in all expulsion actions.

The formal hearing shall observe the due process requirements of:

1. Notification of the charges in writing by certified mail to the student's parent/guardian.

2. At least three (3) days' notice of the time and place of the hearing, which shall include a copy of this policy, hearing procedures, and notice of the right to representation by legal counsel. A student may request the rescheduling of the hearing when s/he demonstrates good cause for an extension.

3. The hearing shall be private unless the student or parent/guardian requests a public hearing.

4. Representation by counsel at the parent's/guardian's expense and parent/guardian may attend the hearing.

5. Disclosure of the names of witnesses against the student and copies of their written statements or affidavits.

6. The right to request that witnesses against the student appear in person and answer questions or be cross-examined.

7. The right to testify and present witnesses on the student's behalf.

8. A written or audio record shall be kept of the hearing and a copy made available to the student at the student's expense, or at no charge if the student is indigent.
9. The hearing shall be held within fifteen (15) school days of the notice of charges, unless a delay is mutually agreed to by both parties or is delayed by:

   a. The need for laboratory reports from law enforcement agencies.

   b. Evaluations or other court or administrative proceedings are pending due to a student's invoking his/her rights under the Individuals with Disabilities Education Act (IDEA).

   c. Delay is necessary due to the condition or best interests of the victim in cases of juvenile or criminal court involving sexual assault or serious bodily injury.

10. Notice of a right to appeal the results of the hearing shall be provided to the student with the expulsion decision.

### Adjudication

A written adjudication shall be issued after the Board has acted to expel a student. The adjudication may include additional conditions or sanctions.

### Attendance/School Work During Suspension And Prior To Expulsion

Standards serving an out-of-school suspension must make up missed exams and work, and shall be permitted to complete assignments pursuant to established guidelines.

Students who are facing an expulsion hearing must be placed in their normal classes if the formal hearing is not held within the ten-school day suspension.

If it is not possible to hold the formal hearing within the first ten (10) school days, the school district may exclude such a student from class for up to five (5) additional – fifteen (15) total – school days if, after an informal hearing, it is determined that the student's presence in his/her normal class would constitute a threat to the health, safety or welfare of others.

Any further exclusion prior to a formal hearing may be only by mutual agreement. Such students shall be given alternative education, which may include home study.

## Purpose

The purpose of this policy is to maintain a safe, positive environment for students and staff that is free from hazing. Hazing activities of any type are inconsistent with the educational goals of the district and are prohibited at all times.

## Definitions

**Hazing** occurs when a person intentionally, knowingly or recklessly, for the purpose of initiating, admitting or affiliating a student with an organization, or for the purpose of continuing or enhancing membership or status in an organization, causes, coerces or forces a student to do any of the following:[1]

1. Violate federal or state criminal law.

2. Consume any food, liquid, alcoholic liquid, drug or other substance which subjects the student to a risk of emotional or physical harm.

3. Endure brutality of a physical nature, including whipping, beating, branding, calisthenics or exposure to the elements.

4. Endure brutality of a mental nature, including activity adversely affecting the mental health or dignity of the individual, sleep deprivation, exclusion from social contact or conduct that could result in extreme embarrassment.

5. Endure brutality of a sexual nature.

6. Endure any other activity that creates a reasonable likelihood of bodily injury to the student.

**Aggravated hazing** occurs when a person commits an act of hazing that results in serious bodily injury or death to the student and:[2]

1. The person acts with reckless indifference to the health and safety of the student; or
2. The person causes, coerces or forces the consumption of an alcoholic liquid or drug by the student. 

**Organizational hazing** occurs when an organization intentionally, knowingly or recklessly promotes or facilitates hazing.[3][4]

Any activity, as described above, shall be deemed a violation of this policy regardless of whether:[5]

1. The consent of the student was sought or obtained, or

2. The conduct was sanctioned or approved by the school or organization.

**Student activity or organization** means any activity, society, corps, team, club or service, social or similar group, operating under the sanction of or recognized as an organization by the district, whose members are primarily students or alumni of the organization.[6][7]

For purposes of this policy, **bodily injury** shall mean impairment of physical condition or substantial pain.[8]

For purposes of this policy, **serious bodily injury** shall mean bodily injury which creates a substantial risk of death or which causes serious, permanent disfigurement, or protracted loss or impairment of the function of any bodily member or organ.[8]

**Authority**

The Board prohibits hazing in connection with any student activity or organization regardless of whether the conduct occurs on or off school property or outside of school hours.[4][5][7][9][10]

No student, parent/guardian, coach, sponsor, volunteer or district employee shall engage in, condone or ignore any form of hazing.

The Board encourages students who believe they, or others, have been subjected to hazing to promptly report such incidents to the building principal or designee.

**Delegation of Responsibility**

Students, parents/guardians, coaches, sponsors, volunteers, and district employees shall be alert to incidents of hazing and shall report such conduct to the building principal or designee.
Discrimination/Discriminatory Harassment

Every report of alleged hazing that can be interpreted at the outset to fall within the provisions of policies addressing potential violations of laws against discrimination and discriminatory harassment shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer. If, in the course of a hazing investigation, potential issues of discrimination or discriminatory harassment are identified, the Compliance Officer shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged hazing.[11][12]

In addition to posting this policy on the district’s publicly accessible website, the district shall inform students, parents/guardians, sponsors, volunteers and district employees of the district’s policy prohibiting hazing, including district rules, penalties for violations of the policy, and the program established by the district for enforcement of the policy by means of distribution of written policy, publication in handbooks, presentation at an assembly, verbal instructions by the coach or sponsor at the start of the season or program, and posting of notice/signs. [4]

This policy, along with other applicable district policies, procedures and Codes of Conduct, shall be provided to all school athletic coaches and all sponsors and volunteers affiliated with a student activity or organization, prior to coaching an athletic activity or serving as a responsible adult supervising, advising, assisting or otherwise participating in a student activity or organization together with a notice that they are expected to read and abide by the policies, procedures and Codes of Conduct.[7]

Complaint Procedure

A student who believes that s/he has been subject to hazing is encouraged to promptly report the incident to the building principal or designee.

Students are encouraged to put the complaint in writing; however, oral complaints shall be accepted and documented. The person accepting the complaint shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor the student filing the complaint or those accused of a violation of this policy.
The Board directs that verbal and written complaints of hazing shall be provided to the building principal or designee, who shall promptly notify the Superintendent or designee of the allegations and determine who shall conduct the investigation. Allegations of hazing shall be investigated promptly, and appropriate corrective or preventative action be taken when allegations are substantiated. The Board directs that any complaint of hazing brought pursuant to this policy shall also be reviewed for conduct which may not be proven to be hazing under this policy but merits review and possible action under other Board policies.

**Interim Measures/Police**

Upon receipt of a complaint of hazing, the building principal or designee, in consultation with the Superintendent or designee, shall determine what, if any interim measures should be put in place to protect students from further hazing, bullying, discrimination or retaliatory conduct related to the alleged incident and report. Such interim measures may include, but not be limited to, the suspension of an adult who is involved, the separation of alleged victims and perpetrators, and the determination of what the complaining student needs or wants through questioning.

Those receiving the initial report and conducting or overseeing the investigation will assess whether the complaint, if proven, would constitute hazing, aggravated hazing or organizational hazing and shall report it to the police consistent with district practice and, as appropriate, consult with legal counsel about whether to report the matter to the police at every stage of the proceeding. The decision to report a matter to the police should not involve an analysis by district personnel of whether safe harbor provisions might apply to the person being reported, but information on the facts can be shared with the police in this regard.[13]

**Referral To Law Enforcement and Safe Schools Reporting Requirements** –

For purposes of reporting hazing incidents to law enforcement in accordance with Safe Schools Act reporting, the term incident shall mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco; or conduct that constitutes an offense listed under the Safe Schools Act.[14][15][16]

The Superintendent or designee shall immediately report required incidents and may report discretionary incidents, as defined in the Safe Schools Act, committed by students on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity to the local police department that has jurisdiction over the school’s property, in accordance with state law and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.[14][15][17][18][19][20]
The Superintendent or designee shall notify the parent/guardian of any student directly involved in a defined incident as a victim or suspect immediately, as soon as practicable. The Superintendent or designee shall inform the parent/guardian whether or not the local police department that has jurisdiction over the school property has been or may be notified of the incident. The Superintendent or designee shall document attempts made to reach the parent/guardian. [14][20][21]

In accordance with state law, the Superintendent shall annually, by July 31, report all new incidents to the Office for Safe Schools on the required form. [15][20]

Confidentiality

Confidentiality of all parties, witnesses, the allegations, the filing of a complaint and the investigation shall be handled in accordance with this policy and the district’s legal and investigative obligations.

Retaliation

Reprisal or retaliation relating to reports of hazing or participation in an investigation of allegations of hazing is prohibited and shall be subject to disciplinary action.

Consequences for Violations

Safe Harbor –

An individual needing medical attention or seeking medical attention for another shall not be subject to criminal prosecution if s/he complies with the requirements under law, subject to the limitations set forth in law. [13]

Students –

If the investigation results in a substantiated finding of hazing, the investigator shall recommend appropriate disciplinary action up to and including expulsion, as circumstances warrant, in accordance with the Code of Student Conduct. The student may also be subject to disciplinary action by the coach or sponsor, up to and including removal from the activity or organization. The fact of whether a student qualified for and received safe harbor under a criminal investigation shall be considered in assigning discipline. [4][7][13][22][23]
Nonstudent Violators/Organizational Hazing -

If the investigation results in a substantiated finding that a coach, sponsor, or volunteer affiliated with the student activity or organization engaged in, condoned or ignored any violation of this policy, s/he shall be disciplined in accordance with Board policy and applicable laws and regulations. Discipline could include, but is not limited to, dismissal from the position as coach, sponsor, or volunteer, and/or dismissal from district employment.\[24\]

If an organization is found to have engaged in organizational hazing, it shall be subject to the imposition of fines and other appropriate penalties. Penalties may include rescission of permission for that organization to operate on school property or to otherwise operate under the sanction or recognition of the district.

Criminal Prosecution –

Any person or organization that causes or participates in hazing may also be subject to criminal prosecution.[4]

# 249. BULLYING/CYBERBULLYING

## Purpose
The Board is committed to providing a safe, positive learning environment for district students. The Board recognizes that bullying creates an atmosphere of fear and intimidation, detracts from the safe environment necessary for student learning, and may lead to more serious violence. Therefore, the Board prohibits bullying by district students.

## Definitions

**Bullying** means an intentional electronic, written, verbal or physical act or series of acts directed at another student or students, which occurs in a school setting that is severe, persistent or pervasive and has the effect of doing any of the following:[1]

1. Substantially interfering with a student’s education.
2. Creating a threatening environment.
3. Substantially disrupting the orderly operation of the school.

*Bullying*, as defined in this policy, includes cyberbullying.

**School setting** means in the school, on school grounds, in school vehicles, at a designated bus stop or at any activity sponsored, supervised or sanctioned by the school.[1]

## Authority
The Board prohibits all forms of bullying by district students.[1]

The Board encourages students who believe they or others have been bullied to promptly report such incidents to the building principal or designee.
Students are encouraged to use the district’s report form, available from the building principal, or to put the complaint in writing; however, oral complaints shall be accepted and documented. The person accepting the complaint shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor the student filing the complaint or those accused of a violation of this policy.

The Board directs that verbal and written complaints of bullying shall be investigated promptly, and appropriate corrective or preventative action be taken when allegations are substantiated. The Board directs that any complaint of bullying brought pursuant to this policy shall also be reviewed for conduct which may not be proven to be bullying under this policy but merits review and possible action under other Board policies.

**Discrimination/Discriminatory Harassment**

Every report of alleged bullying that can be interpreted at the outset to fall within the provisions of policies addressing potential violations of laws against discrimination and discriminatory harassment shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer. If, in the course of a bullying investigation, potential issues of discrimination or discriminatory harassment are identified, the Compliance Officer shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged bullying.\(^2\)[3]

**Confidentiality**

Confidentiality of all parties, witnesses, the allegations, the filing of a complaint and the investigation shall be handled in accordance with this policy and the district’s legal and investigative obligations.

**Retaliation**

Reprisal or retaliation relating to reports of bullying or participation in an investigation of allegations of bullying is prohibited and shall be subject to disciplinary action.

Each student shall be responsible to respect the rights of others and to ensure an atmosphere free from bullying.

The Superintendent or designee shall develop administrative regulations to implement this policy.

255. EDUCATIONAL STABILITY FOR CHILDREN IN FOSTER CARE

1. Authority

To ensure the educational stability of children in foster care, the Board requires the district to collaborate with the local children and youth agency and other school districts.[1][2][3]

2. Definitions

Additional costs means the difference between what the District spends to transport a resident student to his/her assigned school and the cost to transport a child in foster care to his/her school of origin.

Foster care means twenty-four (24) hour substitute care for children placed away from their parents or guardians and for whom the child welfare agency has placement and care responsibility. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child care institutions, and pre-adoptive homes. A child is in foster care in accordance with this definition regardless of whether the foster care facility is licensed and payments are made by the state, tribal or local agency for the care of the child, whether adoption subsidy payments are being made prior to the finalization of an adoption, or whether there is federal matching of any payments that are made.[4]

School of origin is the school in which a child is enrolled at the time of placement in foster care. If a child’s foster care placement changes, the school of origin would then be considered the school in which the child is enrolled at the time of the placement change.
### 3. Delegation of Responsibility

The Board designates the School Counselor/Homeless Liaison to serve as the district’s point of contact for children in foster care.

The district’s point of contact shall coordinate with:

1. Local children and youth agency to:
   a. Establish formal mechanisms to ensure that the district is promptly notified when a child enters foster care or changes foster care placements.
   b. Develop a protocol on how to make best interest determinations; and
   c. Develop and coordinate transportation procedures.

2. Other school districts on issues of transfer of records, transportation and other inter-district activities.

### 4. Guidelines

#### Enrollment/Placement

A child in foster care shall continue to be enrolled in his/her school of origin unless there is a determination that it is not in his/her best interest to attend the school of origin.

**Best Interest Determination -**

The best interest determination shall be made in accordance with federal and state laws and regulations, court orders, and established local procedures.

In determining whether it is in a child’s best interest to remain in his/her school of origin, all factors relating to a child’s best interest shall be considered, including the appropriateness of the current educational setting and proximity of foster care placement.

Documentation related to the best interest determination shall be kept in the student’s education record.
Enrollment -

When a child in foster care is placed in the district and seeks enrollment in district schools, the district’s point of contact shall:[1][5]

1. Ensure the child is immediately enrolled and attending school, even if the records normally required for enrollment pursuant to district policies are not available.

2. Immediately contact the school last attended by the child to obtain relevant academic and other records.

Dispute Resolution -

If a dispute arises over the appropriate school placement for a child in foster care, to the extent feasible and appropriate, the child shall remain in his/her school of origin, pending resolution of the dispute.

Assignment -

If the district is unable to determine the student’s grade level due to missing or incomplete records, the district shall administer tests or utilize appropriate means to determine the student’s assignment within the school.[6]

Student Who Has Exited Foster Care -

A student who exits foster care may be permitted to maintain enrollment based on the best interest determination in accordance with District policy.[7]

Education Records

The district may disclose personally identifiable information from the education records of a student without written consent of the parent(s) or the eligible student if the disclosure is:[8][9][10]

1. To comply with a court order authorizing the disclosure of education records in a case where a parent is a party to a proceeding involving child abuse or neglect or a dependency matter.

2. **302. EMPLOYMENT OF SUPERINTENDENT/ASSISTANT SUPERINTENDENT**

#### 1. Purpose

The Board places the primary responsibility and authority for the administration of the district in the Superintendent and Assistant Superintendent. Therefore, selection of a Superintendent or Assistant Superintendent is critical to the effective leadership and management of the district.\[1\]

#### Authority

During the last year of the Superintendent’s term or any other time the position of Superintendent becomes vacant, the Board shall meet to appoint, by a majority vote of all members of the Board, a properly qualified district Superintendent. The appointed Superintendent shall enter into a written contract with the Board for a term of three (3) to five (5) years.\[2\][3][4]

An Assistant Superintendent shall be appointed by a majority vote of all members of the Board upon nomination of the Superintendent. An Assistant Superintendent may serve through the term of the Superintendent or enter into a contract for a term of three (3) to five (5) years.\[2\][3][5][6]

At a public Board meeting occurring at least ninety (90) days prior to the expiration date of the Superintendent’s or an Assistant Superintendent’s term of office, the Board meeting agenda shall include an item requiring affirmative action by five (5) or more Board members to notify the Superintendent or Assistant Superintendent that the Board intends to retain him/her or that other candidates will be considered for the office. If the Board fails to take such action, the term of office which the Superintendent or Assistant Superintendent is serving shall be extended one (1) time for a one-year period. Prior to the end of the one-year extension, the Board shall take action necessary to retain the Superintendent or Assistant Superintendent. If no action is taken prior to the conclusion of the one-year extension, the term of office for the current Superintendent or Assistant Superintendent shall terminate.\[4\][6]
Anytime the Board votes to retain a Superintendent or Assistant Superintendent, the Superintendent may be retained for a term of three (3) to five (5) years, and the Assistant Superintendent may be retained for a term of three (3) to five (5) years or for a term extending through the term of the Superintendent.[4][6]

Whenever the Board finds it impossible or impractical to immediately fill a vacancy in the office of Superintendent or Assistant Superintendent, the Board may appoint an acting Superintendent or Assistant Superintendent to serve not longer than one (1) year from the time of appointment.[7]

Guidelines

Recruitment and Assessment of Candidates

The Board shall actively seek candidates who meet the qualifications and requirements for the position of Superintendent and/or Assistant Superintendent.

When undertaking a search to fill the position of Superintendent or Assistant Superintendent, recruitment procedures shall be prepared and may include the following:

Preparation of a job description for the position, written in accordance with the requirements of federal and state laws and regulations.[8]

Preparation of written qualifications, in addition to applicable state requirements, for all applicants.[9][10][11][12][13]

Recruitment, screening and evaluation of candidates shall be conducted in accordance with Board policy, Board established leadership criteria and state and federal law.[8]

The Board shall determine prior to interviewing finalists which expenses associated with such interviews will be reimbursed by the school district.

A candidate’s misstatement of fact material to qualifications for employment or determination of salary shall constitute grounds for dismissal by the Board.

Pre-Employment Requirements

The district shall conduct an employment history review in compliance with state law prior to issuing an offer of employment to a candidate. Failure to accurately report required information shall subject the candidate to discipline up to, and including, denial of employment or termination if already hired, and may subject the candidate to civil and criminal penalties. The district may use the information for the purpose of evaluating an applicant’s fitness to be hired or for continued employment and may report the information as permitted by law.[14]
A candidate shall not be employed until the individual has complied with the mandatory background check requirements for criminal history and child abuse and the district has evaluated the results of that screening process.  

Each candidate shall report, on the designated form, all arrests and convictions as specified on the form. Candidates shall likewise report arrests and/or convictions that occur subsequent to initially submitting the form. Failure to accurately report such arrests and convictions may subject the individual to denial of employment, termination if already hired, and/or criminal prosecution.

Before entering the duties of the office, the Superintendent or Assistant Superintendent shall take and subscribe to the oath of office prescribed by law.

After receiving a conditional offer of employment but prior to beginning employment, the candidate shall undergo medical examinations, as required by law and as the Board may require at Board expense.

Employment Contracts

An individual shall not be employed as Superintendent or Assistant Superintendent unless s/he has signed an employment contract expressly stating the terms and conditions of employment. The written contract shall:

- Contain the mutual and complete agreement between the Superintendent or Assistant Superintendent and the Board with respect to the terms and conditions of employment.

- Consistent with state certification requirements, specify the duties, responsibilities, job description and performance expectations, including performance standards and assessments as required by law.

- Incorporate all provisions relating to compensation and benefits to be paid to or on behalf of the Superintendent or Assistant Superintendent.

- Specify the termination, buyout and severance provisions, including all postemployment compensation and the period of time in which the compensation shall be provided. Termination, buyout and severance provisions may not be modified during the course of the contract or in the event a contract is terminated prematurely.

The Superintendent or designee shall, in considering any assignment or transfer, base the decision on the following (as well as consideration of requests for voluntary transfers):

**20 U.S.C. Sec. 6312**

1. Assurance that low-income students and minority students are not taught at higher rates than other students by unqualified, out-of-field or inexperienced teachers.

2. Need to balance specific certifications and skills among the schools.
309. ASSIGNMENT AND TRANSFER

3. Student population and grade levels within the district schools.

4. Impact of proposed assignment on the educational program.

5. Employee's background, experience and preparation for the position.

6. Employee's success in former positions.

7. Employee's desire for professional growth.

8. Employee's length of service in the district and in the position presently held.

9. Recommendations of the employee's administrative supervisors.

10. Administrative and operational efficiency advanced by the proposed assignment.

Vacancies shall be publicized to all appropriate employees.

Before new employees are sought, requests for transfer to a vacant position will be considered.

The request of a professional or support employee who voluntarily requests reassignment or transfer shall be honored to the extent that the transfer does not conflict with the educational program and operation of the school district.

If a support employee who has successfully completed a probationary period applies for and receives reassignment to a different classification, s/he shall be considered probationary in the new classification. In the event said employee is unsuccessful during the probationary period in the new classification, s/he will be entitled to reinstatement to the original classification that is not filled by a permanent employee. If no position is available, the employee entitled to reinstatement shall be given the same re-employment preference which is applied to persons who have been laid off.

This policy shall not prevent reassignment of an employee during the school year for good cause, as determined by the Board.

310. ABOLISHING A POSITION

1. Authority

The Board is responsible for providing the administrative, professional and support staff necessary for implementation of the educational program and the effective operation of the schools, and to do so efficiently and economically.

The Board recognizes its responsibility to maintain positions consistent with the management, supervisory, instructional and operational needs of the schools and the school district.

In the exercise of its authority to reduce staff or abolish positions, the Board shall give primary consideration to the effect upon the educational program and shall ensure that elimination of a program is approved by the Department of Education.

Reduction in staff as a result of the abolishment of positions shall be in accordance with law and Board policy.

Abolishment of positions affecting certificated administrative and professional employees may occur due to such factors as:

1. Substantial decline in student enrollment.

2. Curtailment or alteration of a program due to a substantial decline in class or course enrollments or to conform to standards of organization or educational activities required by law or recommended by the Pennsylvania Department of Education.

3. Consolidation of schools that makes it unnecessary to retain the full staff.
| 2. **Delegation of Responsibility** | Abolishment of noncertificated administrative and support positions may occur due to such factors as:

1. Substantial decline in student enrollment.

2. Changes in the district's organizational structure.

3. Changes in the district's facilities or technology.

4. Changes in the district's economic resources and tax base.

The Superintendent shall recommend annually to the Board the abolishment of unnecessary positions.

**Temporary Professional Employees**

The employment status of a temporary professional employee may be nonrenewed when the employee’s position has been eliminated or when the conditions for which professional employees may be suspended otherwise exist, subject to limitations and procedures provided for in collective bargaining agreements, if any.

**Professional Employees**

The necessary number of professional employees may be suspended for the following reasons:[4]

1. Substantial decrease in student enrollment in the district.

2. Curtailment or alteration of the educational program as a result of substantial decline in class or course enrollments or to conform with standards of organization or educational activities required by law or recommended by the Pennsylvania Department of Education. Such curtailment or alteration must be recommended by the Superintendent, agreed to by the Board, and approved by the Pennsylvania Department of Education. If not prevented by an existing or future provision of a collective bargaining agreement or employment contract, such a suspension may be effectuated without approval of the Pennsylvania Department of Education provided that, where an educational program is altered or curtailed, the district shall notify the Pennsylvania Department of Education of such action.

3. Consolidation of schools, whether within the district, through a merger of districts, or as a result of Joint Board agreements, when such consolidation makes it unnecessary to retain the full staff of professional employees.
4. When new school districts are established as the result of reorganization of school districts and such reorganization makes it unnecessary to retain the full staff of professional employees.

5. Economic reasons that require a reduction in professional employees; however, the district is prohibited from using an employee’s compensation in the suspension determination. A Superintendent knowingly in violation of this prohibition shall have a letter from the Secretary of Education placed in his/her permanent employee record.

**Economic Suspension Requirements**

The Board may suspend professional employees for economic reasons if all of the following apply:

1. The Board approves the proposed suspensions by a majority vote of all school directors at a public meeting.

2. No later than sixty (60) days prior to the adoption of the final budget, the Board adopts a resolution of intent to suspend professional employees in the following fiscal year, setting forth:

   a. The economic conditions necessitating the proposed suspensions and how the economic conditions will be alleviated by the proposed suspensions, including:
      i. The total cost savings expected from the proposed suspensions.
      ii. A description of other cost-saving actions taken by the Board, if any.
      iii. The projected district expenditures for the following fiscal year with and without the proposed suspensions.
      iv. The projected total district revenues for the following fiscal year.

   b. The number and percentage of employees to be suspended who are:
      i. Professional employees assigned to provide instruction directly to students.
i. Administrative staff.

ii. Professional employees who are not assigned to provide instruction directly to students and who are not administrative staff.

c. The impact of the proposed suspensions on academic programs to be offered to students following the proposed suspensions, as well as the impact on academic programs to be offered to students if the proposed suspensions are not undertaken, compared to the current school year, and the actions if any, that will be taken to minimize the impact on student achievement.

Professional Employees Assigned to Provide Instruction Directly to Students -

Suspensions, due to economic reasons, of professional employees assigned to provide instruction directly to students may be approved by the Board only if the Board also suspends at least an equal percentage proportion of administrative staff, except when all of the following apply:[4]

1. The Secretary of Education determines that the district’s operations are already sufficiently streamlined or that the suspension of administrative staff would cause harm to the school stability and student programs.

2. The Secretary of Education submits the determination to the State Board of Education.

3. The State Board of Education approves the determination by a majority of its members.

The Board may choose to exempt from this requirement any five (5) administrative positions, one of which shall be the Business Manager or another staff member with the primary responsibility of managing the district's business operation.[4]

Order of Suspensions

Data necessary for computation of each professional employee’s performance rating and seniority status shall be recorded and maintained to ensure compliance with the required order for suspensions.[7][8]
### Performance Evaluation Rating -

Professional employees shall be suspended, within the area of certification required by law for the professional employee’s current position, in the following order based on the two (2) most recent annual performance evaluations:[5][7][8]

1. Consecutive unsatisfactory ratings.

2. One (1) unsatisfactory rating and one (1) satisfactory rating.

3. Consecutive satisfactory ratings which are either consecutive ratings of proficient, or a combination of one (1) proficient or distinguished rating and one (1) needs improvement rating.

4. Consecutive satisfactory ratings which are consecutive distinguished, or a combination of one (1) rating of proficient and one (1) rating of distinguished.

### Seniority -

When the number of professional employees within each certification area receiving the same performance rating is greater than the number of suspensions, professional employees with the least seniority within each certification area shall be suspended before employees with greater seniority having the same performance rating.[5]

In addition, professional employees shall be realigned to ensure that employees with more seniority have the opportunity to fill other positions within the district for which they are certificated and which are currently filled by less senior employees with the same or lower overall performance rating.

Seniority shall continue to accrue during a suspension and all approved leaves of absence.[5]

When there is or has been a consolidation of schools, departments or programs, all professional employees shall retain the seniority rights they had prior to the reorganization or consolidation.[5]

### Reinstatement

Suspended professional employees, or professional employees demoted for reasons of this policy, shall be reinstated within the area of certification required by law for the vacancy being filled in the district, in the inverse order by which they were suspended and on the basis of their seniority within the district.[5]

A decision to nonrenew the employment of a temporary professional employee whose position has been eliminated or who is being nonrenewed for reasons for which professional employees may be suspended, shall be considered an adjudication for purposes of the Local Agency Law, and the employee shall be entitled to a Local Agency Law hearing, if a hearing is requested within ten (10) days after being notified of the decision to nonrenew.\[9\]

1. Authority

The Board recognizes that in certain situations an administrative, professional or support employee may request extended leave for personal reasons, and the district could benefit from the return of the employee. This policy establishes parameters for granting uncompensated leaves of absence.

The Board reserves the right to specify the conditions under which uncompensated leave may be taken. All applications for uncompensated leave are subject to final approval as follows:

1. By the Superintendent or his/her designee for requests up to thirty (30) days.

2. By the Board for requests of more than thirty (30) days.

Uncompensated leave shall be granted in accordance with provisions of the administrative compensation plan, individual contract, collective bargaining agreement or Board resolution.

Any cost incurred for fringe benefits during an uncompensated leave shall be paid by the employee.

School Code – 24 P.S. Sec. 1154, 1182
| 1. Purpose | The purpose of this policy is to establish guidelines under which professional employees may be granted an uncompensated leave immediately following the birth or legal adoption of a child. For purposes of this policy, such uncompensated leave is referred to as child rearing leave. |
| 2. Guidelines | Child rearing leave is applicable in those instances where an employee desires an unpaid leave of absence for the purpose of rearing a child in that period immediately following the birth or legal adoption of a child. |
| Pol. 335 | To be eligible for child rearing leave, the employee must have been employed by the Freeport Area School District for at least twelve (12) months and in regular active service for at least one (1) semester during the twelve-month period immediately preceding the commencement of the leave. |
| Pol. 335 | Employees may be provided with a child rearing leave for a period not to exceed one (1) school year, inclusive of any leave provided under the Family and Medical Leave Act. Child rearing leave must commence not later than thirty (30) days following the birth or adoption of the child and, if possible, coincide with the end of a marking period, provided that the Board, at its exclusive discretion, may excuse this requirement under exigent circumstances. If possible, child rearing leave should terminate on the last instructional day of a school grading period or the last day of the Christmas/New Year break. Employees granted child rearing leave should make every attempt to schedule their return to their position on the first work day following the conclusion of a school grading period or the Christmas/New Year break. |
Requests for child rearing leave shall be made in writing to the Superintendent or designee at least thirty (30) days prior to the beginning date of the leave and are subject to approval or rejection at the discretion of the Board. Requests not made with sufficient advance notice will not be granted, although the notice requirement may be waived in the event of premature childbirth, the unanticipated placement of an adopted child, a serious health condition of a newborn or newly adopted child.

Except as otherwise required to be provided by federal or state law, including the Family and Medical Leave Act, child rearing leave shall be without compensation or fringe benefits. The employee shall be entitled to continue insurance benefits at his/her own expense by remitting in advance the necessary premiums to the district office by the specified dates.

Upon return from child rearing leave, the employee will be returned to an equivalent position as was held before the leave unless the position has been eliminated or the employee is subject to furlough or discharge. Failure to return to work at the scheduled conclusion of the child rearing leave will constitute a voluntary termination of employment.

A child rearing leave shall not constitute a break in seniority, but the period of the child rearing leave shall not be credited as active service for salary step advancement, eligibility for benefits or any other purpose. It is understood that, in order for salary step advancement to occur, the employee must have been in active service (not on unpaid leave) for a minimum of ninety-one (91) instructional days.

### 609. INVESTMENT OF DISTRICT FUNDS

**1. Purpose**

It shall be the policy of the Board to optimize its return on funds available for investment through investment of cash balances in such a way as to minimize non-invested balances and to maximize return on investments consistent with the following principles:

- **Legality** - All investments shall be made in accordance with applicable laws of Pennsylvania.

- **Safety** – Preservation of principal shall be of highest priority. Preservation of principal in the portfolio of investments shall be ensured by diversification and other means of minimizing credit risk, including avoidance of concentration of credit risk, market risk and interest rate risk, and by thoroughly investigating and reviewing the performance of all investment providers and professionals.

- **Liquidity** - Investments shall remain sufficiently liquid to meet all operating requirements that are reasonably anticipated. A fiscal year operations anticipated cash flow shall be developed so that investments can be made as early as possible, with maturities consistent with anticipated cash demands.

- **Yield** - Investments shall be made with the objective of attaining a market-average rate of return throughout the budgetary and economic cycles, taking into account investment risk constraints and liquidity needs.

**2. Authority**

- SC 440.1, 621, 622, 623
- 53 P.S.
- Sec. 5406, 5410.1

The Investment Officer designated by the Board shall implement the school district’s investment program in accordance with this policy, applicable laws and the annual investment plan approved by the Board.
3. Definitions

**Act 10 Permissible Investments** – Any type of investment permitted under Act 10 of March 25, 2016, (53 P.S. Sec. 5406, 5410.1) that is not among the types of investments permitted under Section 440.1 of the Public School Code of 1949, Act of March 10, 1949, (P.L. 30, No. 14) as last amended by the Act of June 30, 1995, (P.L. 220, No. 26).

**Short-term** - Any period thirteen (13) months or less.

**Long-term** - Any period exceeding forty-eight (48) months' duration.

**Mid-range** - Any period between short-term and long-term.

**Bankers’ acceptances** – Bankers’ acceptances generally are created based on a letter of credit issued in a foreign trade transaction. Bankers’ acceptances are short-term, non-interest-bearing notes sold at a discount and redeemed by the accepting banks at maturity for face value.

**Collateral** – Security pledged by a financial institution to a governmental entity for its deposit.

**Commercial paper** – An unsecured promissory note issued primarily by corporations for a specific amount and maturing on a specific day. The maximum maturity for commercial paper is 270 days, but most is sold with maturities of up to thirty (30) days. Almost all commercial paper is rated as to credit risk by rating services.

**Concentration of credit risk** – The risk of loss attributed to the magnitude of a government’s investment in a single issuer, pool, institution, or instrument.

**Counterparty** – Another party to a transaction. In the case of deposits and investments made by governmental entities, a counterparty could be the issuer of a security, a financial institution holding a deposit, a broker-dealer selling securities, or a third party holding securities or collateral.

**Credit risk** – The risk that a counterparty to an investment transaction will not fulfill its obligations. Overall credit risk can be associated with the issuer of a security, with a financial institution holding deposits, or with a party holding securities or collateral. Credit risk exposure can be affected by a concentration of deposits or investments in any one (1) investment type or with any one (1) counterparty.
| **Custodial credit risk** – The custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. |
| **Foreign currency risk** – The risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. Investments depending on substantial overseas activities or markets may present related foreign currency risk. |
| **Interest rate risk** – The risk that changes in interest rates will adversely affect the fair value of an investment. |
| **Issuer** – The entity that has the authority to distribute a security or other investment. A bond issuer is the entity that is legally obligated to make principal and interest payments to bond holders. In the case of mutual funds, external investment pools, and other pooled investments, issuer refers to the entity invested in, not the investment company-manager or pool sponsor. |
| **Investment plan** – The school district’s specifically enumerated investment strategy approved annually by the Board. |
| **Local Government Investment Pool (LGIP)** – An investment trust or pool organized by groups of political subdivisions or municipal authorities pursuant to Section 521 of the Public School Code of 1949, or pursuant to the Intergovernmental Cooperation Law, 53 Pa. C.S.A. Sec. 2301 et seq., for the purpose of investing funds of such political subdivisions or municipal authorities for their exclusive benefit and in accordance with the laws governing their permissible investments. LGIPs include, but are not limited to, the Pennsylvania School District Liquid Asset Fund (PSDLAF), the Pennsylvania Local Government Investment Trust (PLGIT), and for purposes of this policy, the PA INVEST program operated by the Pennsylvania Treasury Department. |
| **Market risk** – The risk that the market value of an investment, collateral protecting a deposit, or securities underlying a repurchase agreement will decline. Market risk is affected by the length to maturity of a security, the need to liquidate a security before maturity, the extent that collateral exceeds the amount invested, and the frequency at which the amount of collateral is adjusted for changing market values. |

2. Investigating, selecting and evaluating the performance of investment advisors and investment professionals;

3. Specifying standards for audits of investment transactions; and

**SC 440.1**

The plan shall require that securities purchased as investments be purchased in the name of the school district and held in custody for the benefit of the school district as provided in the investment plan and authorized custodian agreements. The plan may make exceptions to such requirements for investments in LGIPs as defined in this policy, or for the purchase of shares of an investment company.

If, after purchase, the rating of any instrument is reduced and no longer in compliance with Board policy, the individual responsible for district investments shall advise the Board at the earliest opportunity of such action and make recommendations for altering the investments.

The foregoing rating change related requirement does not apply to investments in LGIPs as defined in this policy.

For purposes of interest rate disclosure in the annual financial report, the method of determining interest rate risk shall be based on weighted average maturity.
### Foreign Currency and Related Risk

District funds shall not be invested in foreign currency. To the extent other permissible investments are exposed to related foreign currency risk, they shall be disclosed as required by GASB Statement 40.

### Bond Proceeds

Investment of bond proceeds shall be managed and reported to the Board in accordance with the Local Government Unit Debt Act, this policy, and applicable federal and state laws.

### Protection of Savings Accounts, Time Deposits, Share Accounts or Other Depository Balances in Excess of FDIC Insurance Limits

When district cash is deposited in any savings account, time deposit, share account or other authorized depository account other than a Local Government Investment Pool (LGIP), if the cash balance exceeds FDIC insurance limits, district funds shall be collateralized in one or more of the following ways:

1. An Irrevocable Letter of Credit (LOC) issued by a Federal Home Loan Bank (FHLB).

2. Tri-Party Collateral in the name of the school district consisting of the following underlying securities only:

   b. Obligations, participations or other instruments of any federal agency, instrumentality or U.S. government-sponsored enterprise if the debt obligations are rated at least “A” or its equivalent by at least two (2) nationally recognized statistical ratings organizations.

It shall be the responsibility of the Investment Officer to verify with the depository the value of the collateral instrument(s) based on the instrument being “marked to market.” This valuation shall occur at least monthly.
Following a review of valuation, the Investment Officer may request an additional review by the district’s investment advisors or financial consultant, and shall require additional collateral if the existing collateral has declined in value and exposes the district to potential loss of principal. The status of the valuation review and any additional collateral shall be included in an annual report to the Board regarding the investment program.

**Reporting Requirement for Local Government Investment Pools (LGIPs)**

Local Government Investment Pools (LGIPs) pool the resources of participating government entities and invest in various securities as permitted under state law, so that participating governments can benefit from economies of scale, professional fund management and other advantages.

Recognizing that LGIPs invest directly in permissible securities on behalf of the participating government entities, which in turn have proportional ownership rights in those securities, district investments in a LGIP shall not be subject to the collateral requirements of this policy, provided that the LGIP:

1. Makes available to participants daily and monthly statements, and other information from which the status of the investments can be verified; and

2. Provides an audited annual financial report to each participating government entity.

**Further Risk Mitigation for Act 10 Permissible Investments**

Recognizing that Act 10 of 2016 expanded the range of permissible investments to include investments with the potential to expose the school district to elevated levels of credit risk and other investment risks, the Board directs that any investment plan or investment recommendations proposed by the Investment Officer take into account, implement and highlight the following factors and precautions with respect to Act 10 Permissible Investments:

1. A significantly more thorough level of due diligence is required.

2. In addition to verification of rating by a nationally recognized statistical rating organization and other due diligence requirements, the investigation of Act 10 Permissible Investments shall include ensuring that there is an independent credit review (a qualified financial services organization with an active and recognized credit analysis team is also monitoring the issuer, in addition to the nationally recognized statistical rating organization(s)).
3. Act 10 Permissible Investments shall be limited to no more than ten percent (10%) of district funds for investment, excluding bond proceeds and refunding escrow balances.

**Audit**

The Board directs that all investment records be subject to annual audit by the district's independent auditors.

The audit shall include but not be limited to independent verification of amounts and records of all transactions, as deemed necessary by the independent auditors.

**Conflict of Interest Avoidance and Disclosure**

The Investment Officer and any other district employee performing functions related to the investment program shall disclose in writing to the Board any material conflict of interest or material potential conflict of interest which exists because of personal relationships or personal business activity between the Investment Officer or other employees and any depository institution, broker, dealer, investment advisor, or other investment provider or professional serving the district. The Investment Officer or other employees shall refrain from any personal business activity that could impair ability to make impartial decisions in managing the annual investment plan.

All depository institutions, repurchase agreement providers, brokers, and investment advisors and managers shall disclose in writing to the district: (1) any fees or other compensation paid to or received from a third party with respect to any district investment; and (2) any ownership of or by a parent corporation which owns any other depository institution, broker, dealer, investment advisor, or other investment provider or professional which does business with the district.

All investment advisors shall verify in writing that they have received and reviewed a copy of this Board policy and agree to comply with this policy and all applicable laws related to school district investments.

TITLE: PURCHASES BUDGETED
ADOPTED: August 9, 2017
REVISED:

1. Authority
SC 751, 807.1

It is the policy of the Board that when funds are available all purchases contemplated within the current budget and not subject to bid shall be made in a manner that ensures the best interests of the district.

2. Delegation of Responsibility
SC 609, 751, 807.1

All purchases that are within budgetary limits may be made upon authorization of the Superintendent or designee unless the contemplated purchase is for more than $19,400 (subject to adjustment based on the Consumer Price Index) in which case prior approval by the Board is required.

SC 609, 751, 807.1

All purchase order requests must be referred to the building principal or immediate supervisor, who shall check whether the proposed purchase is subject to bid; whether sufficient funds exist in the budget; and whether the material might be available elsewhere in the district.

3. Guidelines

In the interests of economy, fairness and efficiency in its business dealings, the Board requires that:

1. Items commonly used in the various schools or units thereof be standardized whenever possible.

2. Opportunity be provided to as many responsible suppliers as possible to do business with the school district. Lists of potential suppliers for various types of supplies, equipment and services will be developed and maintained.

3. No purchase request will be honored unless made on a district-approved requisition form that has the necessary approval.

4. Upon the placement of a purchase order, the Business Manager shall encumber the expenditure against a specific budget line item to guard against the creation of liabilities in excess of appropriations.

# PURCHASES NOT BUDGETED

1. **Purpose**

   The laws of the state and the interests of the community require fiscal responsibility by the Board in the operation of the school district. Appropriate fiscal controls shall be adopted to ensure that public funds are not disbursed in amounts in excess of the appropriations provided to the district.

2. **Authority**

   SC 607, 609, 631, 687

   When funds are not available for a proposed appropriation, a legal transfer from one class of expenditure to another may be made by the Board in the last nine (9) months of the fiscal year if it is apparent that the necessary surplus funds do exist in another appropriation, the procedures specified in the School Code are followed, and it can be demonstrated that the proposed expenditure would be educationally warranted in the current fiscal year.

3. **Guidelines**

   Pol. 611

   Under normal conditions, planned purchases that would exceed the amount appropriated by no more than a reasonable amount may be placed in accordance with Board policy by the Superintendent or designee provided a sufficient amount is available in some other budget category for transfer by the Board to cover the purchase.

   When the proposed purchase would exceed the appropriation by more than a reasonable amount and up to as much as $10,000, such orders may only be placed by the Superintendent or designee.

   In the event of emergency, which exists whenever the time required for the Board to act in accordance with regular procedures would endanger life or property or threaten continuance of existing school classes, a purchase order up to the amount of $10,000 may be authorized by the Superintendent or designee.

   When budgeted funds are allocated on a building basis, the total amount budgeted may not be exceeded without prior approval.
### 612. PURCHASES NOT BUDGETED

| Any expenditures in excess of appropriation made in conformance with this policy shall be reported to the Board at the next meeting, with a recommendation of funds to be transferred to cover said purchase. |

# 619. DISTRICT AUDIT

## 1. Purpose

| SC 408, 2401 |
| 65 P.S. |
| Sec. 67.701 |
| Pol. 801 |

The Board recognizes the importance of the public's right to have access to the public records of the district, including public financial records. The public has the right under law to inspect and procure copies of the annual audit conducted by the district's accountants and the audit conducted by the Auditor General's office.

## 2. Authority

| SC 437, 2401, 2408, 2441 |

The Board shall employ an independent, certified public accountant to conduct an annual district audit in conformance with prescribed and legal standards. The completed audit shall be presented to the Board for its examination and approval.

The Board recognizes its obligation as an elected body to represent the best interests of all its constituents. Therefore, the Board shall make the results of both the district's accountant's audit and the Auditor General's audit available to the public at the business office of the district.

The Board believes that the two (2) available audits provide adequate safeguards for the public interest; therefore, special audits by special interest groups are not permitted.

## 3. Delegation of Responsibility

| SC 218 |

The Superintendent and Board Secretary shall annually, by December 31, submit a signed statement to the Pennsylvania Department of Education certifying that the financial statements of the school district have been properly audited pursuant to law and that in the independent auditor’s opinion, the financial information submitted in the annual financial report is materially consistent with the audited financial statements. If the financial information is not deemed materially consistent, the district shall submit a revised annual financial report no later than December 31.

</table>
1. Purpose

The Board recognizes that the maintenance of a general fund balance is essential to the preservation of the financial integrity of the school district and is fiscally advantageous for both the district and the taxpayer. This policy establishes goals and provides guidance concerning the desired level of year-end fund balance to be maintained by the district.

2. Definitions

Fund balance is a measurement of available financial resources. Fund balance is the difference between total assets and total liabilities in each fund.

GASB Statement 54 classifies fund balances based on the relative strength of the constraints that control the purposes for which specific amounts can be spent. Beginning with the most binding constraints, fund balance amounts shall be reported in the following classifications:

Nonspendable - amounts that cannot be spent because they are in a nonspendable form (e.g., inventory) or legally or contractually required to be maintained intact (e.g., principal of a permanent fund).

Restricted - amounts limited by external parties, or legislation (e.g., debt covenants, grants or donations).

Committed - amounts limited by Board policy or Board action to be used for a specific purpose (e.g., future anticipated costs). Action must be taken by the Board to commit fund balance for the designated purpose prior to the end of the fiscal year.

Assigned - amounts that are intended for a particular purpose, such as a rate stabilization fund or segregation of an amount intended to be used at some time in the future. Generally balances in special revenue funds or capital project funds will be designated as assigned.

Unassigned - amounts available for consumption or not restricted in any manner.
3. **Guidelines**

The school district will strive to maintain an unassigned general fund balance of not less than five percent (5%) and not more than ten percent (10%) of the budgeted expenditures for the fiscal year.

The total fund balance, consisting of several portions including committed, assigned and unassigned, may exceed ten percent (10%).

If the unassigned portion of the fund balance falls below the threshold of five percent (5%), the Board will pursue options for increasing revenues and decreasing expenditures, or a combination of both until five percent (5%) is attained.

**Use Of Fund Balance**

The restricted fund balance shall be reduced to the extent that the underlying reason for the restriction has been eliminated.

If the district experiences an excess of expenditures over revenues for a given fiscal year, the fund balance shall be consumed in the following order:

1. Restricted fund balance to the extent that expenditures related to the restriction contributed to the excess of expenditures over revenues.

2. Committed fund balance to the extent that expenditures related to the commitment contributed to the excess of expenditures over revenues. If a plan for periodic use of committed fund balance is reviewed and approved by the Board, the committed fund balance will not be reduced by more than the amount designated in the plan.

3. Assigned fund balance to the extent that expenditures related to the assignment contributed to the excess of expenditures and revenues.

4. Unassigned fund balance for any remaining excess of expenditures over revenues.

4. **Delegation of Responsibility**

The responsibility for designating funds to specific classifications shall be as follows:

1. Nonspendable – may be assigned by the Business Manager.

2. Restricted – may be assigned by the Business Manager.

3. Committed – shall be assigned by Board Resolution.
4. Assigned – may be assigned by the Business Manager.

The Business Manager or designee shall be responsible for the enforcement of this policy.

## 1. Purpose

The Board recognizes the need to implement the required accounting and financial reporting standards stipulated by the Pennsylvania Department of Education.

The primary objectives of implementing the Governmental Accounting Standards Board (GASB) Statement 34 are to assure compliance with state requirements, and properly account for both the financial and economic resources of the district.

## 2. Authority

**SC 218, 613**

Participation of the school district in any such activity shall be in accordance with Board policy.

## 3. Delegation of Responsibility

The responsibility to coordinate the compilation and preparation of all information necessary to implement this policy is delegated to the Business Manager.

The designated individual shall be responsible for implementing the necessary procedures to establish and maintain a fixed asset inventory, including depreciation schedules. Depreciation shall be computed on a straight-line basis over the useful lives of the assets, using an averaging convention. Normal maintenance and repairs shall be charged to expense as incurred; major renewals and betterments that materially extend the life or increase the value of the asset shall be capitalized. A schedule of accumulated depreciation shall be consistent from year to year. The basis for depreciation, including groups of assets and useful lives, shall be in writing and submitted for review to the Board.

The Business Manager shall prepare the required Management Discussion and Analysis (MD&A). The MD&A shall be in the form required by GASB Statement 34 and shall be submitted to the Board for approval, prior to publication.
Prior to submission of the MD&A for Board approval, the district's independent auditors shall review the MD&A, in accordance with SAS No. 52, “Required Supplementary Information”.

It shall be the policy of the Board to comply with regulations of the Internal Revenue Service (IRS) regarding taxability of employee fringe benefits.

## 2. Definitions

- **Taxable fringe benefit** - a form of pay, in addition to salary, for the performance of duties; taxable wages unless excluded by the Internal Revenue Code.
- **Convenience of the district** - where the personal use was in the best interest of the district.

## 3. Delegation of Responsibility

The Superintendent or designee shall be responsible to ensure that employees verify the use of district equipment for business purposes and report any use or fringe benefits that may be taxable as compensation.

The employee verification process shall occur monthly prior to payment of bills.

The Business Manager shall report the value of taxable fringe benefits with the regular payroll for the payroll immediately following the determination of taxable fringe benefits.

The Business Manager shall annually review the determinations of convenience of the district and de minimis amount to ensure compliance with federal regulations. The review may include discussions with the district auditor.

Allowability of Costs – Federal Programs

Expenditures must be aligned with approved budgeted items. Any changes or variations from the state-approved budget and grant application need prior approval from the state.

Delegation of Responsibility

When determining how the school district will spend its grant funds, the Business Manager will review the proposed cost to determine whether it is an allowable use of federal grant funds before obligating and spending those funds on the proposed good or service.

Allowability Determinations

All costs supported by federal education funds must meet the standards outlined in EDGAR, 2 CFR Part 3474 and 2 CFR Part 200, Subpart E, which are listed below. The Business Manager must consider these factors when making an allowability determination. A section entitled, Helpful Questions for Determining Whether Costs are Allowable, is located at the end of this document.

Part 200 sets forth general cost guidelines that must be considered, as well as rules for specific types of items, both of which must be considered when determining whether a cost is an allowable expenditure of federal funds. The expenditure must also be allowable under the applicable program statute (e.g., Title I of the Elementary and Secondary Education Act (ESEA), or the Carl D. Perkins Career and Technical Education Act (Perkins)), along with accompanying program regulations, nonregulatory guidance and grant award notifications.

Restrictions in state and local rules or policy also must be considered. For example, travel and other job-related expenses incurred by employees are not allowable unless they also are in compliance with Board Policy 331 (Job Related Expenses) and related administrative regulations.

Whichever allowability requirements are stricter will govern whether a cost is allowable.

General allowability determination factors include the following:

1. Be Necessary and Reasonable for the performance of the federal award. A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision to incur the cost was made. For example, reasonable means that sound business practices were followed, and purchases were comparable to market prices.

When determining reasonableness of a cost, consideration must be given to:

• Whether the cost is a type generally recognized as ordinary and necessary for the operation of the district or the proper and efficient performance of the federal award.
• The restraints or requirements imposed by factors, such as: sound business practices; arm’s-length bargaining; federal, state and other laws and regulations; and terms and conditions of the federal award.

• Market prices for comparable goods or services for the geographic area.

• Whether the individual incurring the cost acted with prudence in the circumstances considering responsibilities to the district, its employees, its students, the public at large, and the federal government.

• Whether the district significantly deviates from its established practices and policies regarding the incurrence of costs, which may unjustifiably increase the federal award’s cost. (2 CFR Sec. 200.404)

Whether a cost is necessary will be determined based on the needs of the program. Specifically, the expenditure must be necessary to achieve an important program objective. A key aspect in determining whether a cost is necessary is whether the district can demonstrate that the cost addresses an existing need, and can prove it. For example, the school entity may deem a language skills software program necessary for a limited English proficiency program.

When determining whether a cost is necessary, consideration may be given to:

• Whether the cost is needed for the proper and efficient performance of the federal award program.

• Whether the cost is identified in the approved budget or application.

• Whether there is an educational benefit associated with the cost.

• Whether the cost aligns with identified needs based on results and findings from a needs assessment.

• Whether the cost addresses program goals and objectives and is based on program data.

2. Allocable to the federal award. A cost is allocable to the federal award if the goods or services involved are chargeable or assignable to the federal award in accordance with the relative benefit received. This means that the federal grant program derived a benefit in proportion to the funds charged to the program. (2 CFR Sec. 200.405)

For example, if fifty percent (50%) of a teacher’s salary is paid with grant funds, then that teacher must spend at least fifty percent (50%) of his/her time on the grant program.

3. Consistent with policies and procedures that apply uniformly to both federally-financed and other activities of the school entity.
4. Conform to any limitations or exclusions set forth as cost principles in Part 200 or in the terms and conditions of the federal award.

5. Consistent treatment. A cost cannot be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been assigned as an indirect cost under another award.

6. Adequately documented. All expenditures must be properly documented.

7. Be calculated in accordance with generally accepted accounting principles (GAAP), unless provided otherwise in Part 200.

8. Not included as a match or cost-share, unless the specific federal program authorizes federal costs to be treated as such. Some federal program statutes require the nonfederal entity to contribute a certain amount of nonfederal resources to be eligible for the federal program.

9. Be the net of all applicable credits. The term “applicable credits” refers to those receipts or reduction of expenditures that operate to offset or reduce expense items allocable to the federal award. Typical examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indemnities on losses; and adjustments of overpayments or erroneous charges. To the extent that such credits accruing to or received by the state relate to the federal award, they shall be credited to the federal award, either as a cost reduction or a cash refund, as appropriate. (2 CFR Sec. 200.406)

Selected Items of Cost

Subpart E of Part 200 sets forth principles to be applied in establishing the allowability of fifty-five (55) specific cost items (commonly referred to as Selected Items of Cost), at 2 CFR Sec. 200.420-200.475. These specific cost items are listed in the chart below along with the citation to the section of Subpart E addressing the allowability of that item. These principles are in addition to the other general allowability standards, and apply whether or not a particular item of cost is properly treated as direct cost or indirect (F&A) cost. Meeting the specific criteria for a listed item does not by itself mean the cost is allowable, as it may be unallowable under other standards or for other reasons, such as restrictions contained in the terms and conditions of a particular grant or restrictions established by the state or in Board policy. If an item is unallowable for any of these reasons, federal funds cannot be used to purchase it.

School district personnel responsible for spending federal grant funds and for determining allowability must be familiar with and refer to the Part 200 selected items of cost section. These rules must be followed when charging these specific expenditures to a federal grant. When applicable, employees must check costs against the selected items of cost requirements to ensure the cost is allowable, and also check state, district and program-specific rules.

The selected item of cost addressed in Part 200 includes the following (in alphabetical order):

*Helpful Questions for Determining Whether Costs are Allowable*

In addition to applying the cost principles and standards described above, district staff involved in expending federal funds should ask the following questions when assessing the allowability of a particular cost:

1. Is the proposed cost allowable under the relevant program?
2. Is the proposed cost consistent with an approved program plan and budget?
3. Is the proposed cost consistent with program specific fiscal rules? For example, the school entity may be required to use federal funds only to supplement the amount of funds available from nonfederal (and possibly other federal) sources, or only as a match for funds from nonfederal sources.
4. Is the proposed cost consistent with EDGAR?
5. Is the proposed cost consistent with specific conditions imposed on the grant (if applicable)?
6. Is the proposed cost consistent with the underlying needs of the program? For example, program funds must benefit the appropriate population of students for which they are allocated. This means that, for instance, funds allocated under Title III of the Elementary and
Secondary Education Act (ESEA) governing language instruction programs for Limited English Proficient (LEP) students must only be spent on LEP students and cannot be used to benefit non-LEP students.

7. Will the cost be targeted at addressing specific areas of weakness that are the focus of the program, as indicated by available data?

Any questions related to specific costs should be forwarded to the Business Manager who shall consult with the school solicitor for clarification as appropriate.
Cash Management – Federal Programs

Generally, the school district receives payment from the Pennsylvania Department of Education (PDE) on a reimbursement basis. In some circumstances, the district may receive an advance of federal grant funds. This attachment addresses responsibilities of the district and district staff under those alternative payment methods. In either case, the district shall maintain accounting methods and internal controls and procedures that assure those responsibilities are met.

Payment Methods

Reimbursements -

The school district will initially charge federal grant expenditures to nonfederal funds.

The Business Manager will request reimbursement for actual expenditures incurred under the federal grants quarterly.

Such requests shall be submitted with appropriate documentation and signed by the requestor.

Requests for reimbursements will be approved by the Business Manager.

Reimbursement will be submitted on the appropriate form to the PDE portal. All reimbursements are based on actual disbursements, not on obligations. PDE will process reimbursement requests within the timeframes required for disbursement.

Consistent with state and federal requirements, the school district will maintain source documentation supporting the federal expenditures (invoices, time sheets, payroll stubs, etc.) and will make such documentation available for PDE to review upon request.

Reimbursements of actual expenditures do not involve interest calculations.

Advances -

When the district receives advance payments of federal grant funds, it must minimize the time elapsing between the transfer of funds to the district and the expenditure of those funds on allowable costs of the applicable federal program. (2 CFR Sec. 200.305(b)) The district shall attempt to expend all advances of federal funds within seventy-two (72) hours of receipt.

When applicable, the district shall use existing resources available within a program before requesting additional advances. Such resources include program income (including repayments to a revolving fund), rebates, refunds, contract settlements, audit recoveries, and interest earned on such funds. (2 CFR Sec. 305(b)(5))

The district shall hold federal advance payments in insured, interest-bearing accounts, unless an allowable exception applies.

The school district is permitted to retain for administrative expense up to $500 per year of interest earned on federal grant cash balances. Regardless of the federal awarding agency, interest earnings exceeding $500 per year shall be remitted annually to the Department of Health and Human Services Payment Management System (PMS) through an electronic medium using
either Automated Clearing House (ACH) network or a Fedwire Funds Service payment. (2 CFR Sec. 200.305(b)(9))

Pursuant to federal guidelines, interest earnings shall be calculated from the date that the federal funds are drawn down from the G5 system until the date on which those funds are disbursed by the district. Consistent with state guidelines, interest accruing on total federal grant cash balances shall be calculated on cash balances per grant and applying the actual or average interest rate earned.

Remittance of interest shall be responsibility of the Business Manager.
Administration of Federal Funds – Type of Costs, Obligations and Property Management

The district establishes and maintains Board policies, administrative regulations and procedures on administration of federal funds in federal programs as required by the Uniform Grant Guidance and other federal, state and local laws, regulations and requirements. The district’s financial management system includes internal controls and grant management standards in the following areas.

**Direct and Indirect Costs**

**Direct costs** – costs that can be identified specifically with a particular final cost objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.

**Indirect costs** – costs incurred for a common or joint purpose benefiting more than one (1) cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved.

Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or indirect costs. (2 CFR Sec. 200.405, 200.413)

Identification with the federal award rather than the nature of the goods and services involved is the determining factor in distinguishing direct from indirect costs.

Direct and indirect costs shall be determined in accordance with law, regulations, the terms and conditions of the federal award, and the district’s negotiated indirect cost rate.

The district shall develop an indirect cost rate proposal and cost allocation plan in accordance with law, regulations and the terms and conditions of the federal award.

**Timely Obligation of Funds**

**Obligations** – orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the district during the same or a future period.

The following table illustrates when funds must be obligated under federal regulations:

34 CFR §75.707; 34 CFR §76.707

All obligations must occur between the beginning and ending dates of the federal award project, which is known as the period of performance. The period of performance is dictated by law and regulations and will be indicated in the federal award. Specific requirements for carryover funds may be specified in the federal award and must be adhered to by the district. (2 CFR Sec. 200.77, 200.309)

The district will handle obligations and carry over of state-administered and direct grants in accordance with state and federal law and regulations, and the terms and conditions of the federal award. Carryover will be calculated and documented by the Business Manager.

The district may exercise an extension of the period of performance under a direct grant in accordance with law, regulations and the terms and conditions of the federal award when written notice is provided to the federal awarding agency at least ten (10) calendar days prior to the end of the period of performance. (2 CFR Sec. 200.308(d)(2))

The Business Manager will decide when an extension of the period of performance is necessary and will recommend that the Superintendent approve this process.

The Business Manager will develop the required written notice, including the reasons for the extension and revised period of performance; the notice will be issued no later than ten (10) calendar days prior to the end of the currently documented period of performance in the federal award.

The district must seek approval from the federal awarding agency for an extension of the period of performance when the extension is not contrary to federal law or regulations, and the following conditions apply:

1. The terms and conditions of the federal award prohibit the extension;
2. The extension requires additional federal funds; or
3. The extension involves any change in the approved objectives or scope of the project. (2 CFR Sec. §200.308)
The Business Manager will determine when an extension must be requested for approval by the federal awarding agency, draft the written request and notify the Superintendent of the requested extension.

**Management of Property Acquired With Federal Funds**

*Contract and Purchasing Administration -*

The district maintains internal controls, administrative regulations and procedures to ensure that contractors deliver goods and services in accordance with the terms, conditions and specifications of the designated contract, purchase order or requisition.

*Property Classifications -*

Property shall be classified as **equipment, supplies, computing devices and capital assets** as defined and specified in accordance with law, regulations and Board policy. (Pol. 622)

*Inventory Control/Management -*

All property purchased with federal funds, regardless of cost, will be inventoried as a safeguard.

Inventory will be received by the department or program requesting the item; designated staff will inspect the property, compare it to the applicable purchase order or requisition, and ensure it is appropriately logged and tagged in the district’s property management system.

Items acquired will be physically labeled by source of funding and acquisition date.

Inventory records of equipment and computing devices must be current and available for review and audit, and include the following information:

1. Description of the item, including any manufacturer’s model number.
2. Manufacturer’s serial number or other identification number.
3. Identification of funding source.
4. Acquisition date and unit cost.
5. Source of items, such as company name.
6. Percentage of federal funds used in the purchase.
7. Present location, use, condition of item, and date information was reported.
8. Pertinent information on the ultimate transfer, replacement or disposition of the item and sale price of the property.

Inventory will be updated as items are sold, lost or stolen, or cannot be repaired, and new items are purchased.
Physical Inventory -

Physical inventory of property will be completed by designated district staff in accordance with applicable federal and state law and regulation and Board policy. (Pol. 622, 706)

The physical inventory of items will be conducted annually, and the results will be reconciled with the inventory records and reported to the federal awarding agency.

Maintenance -

The district establishes adequate maintenance procedures to ensure that property is maintained in good condition in accordance with law, regulation and Board policy. (Pol. 704, 708, 710)

Safeguards -

The district ensures that adequate safeguards are in place to prevent loss, damage or theft of property:

1. Any loss, damage or theft will be reported to the Business Manager, and investigated and fully documented, and may be reported to local law enforcement.

2. If stolen items are not recovered, the district will submit copies of the investigative report and insurance claim to the federal awarding agency.

3. The district may be responsible for replacing or repairing lost, damaged, destroyed or stolen items.

4. Replaced equipment is property of the originally funded program and should be inventoried accordingly.

5. District property may only be loaned in accordance with Board policy and administrative regulations. (Pol. 707, 708, 710)

Disposition of Property Acquired with Federal Funds –

When the district determines that real property, including land, land improvements structures and accessories thereto, acquired under a federal award is no longer needed for the originally authorized purpose, the district must obtain disposition instructions from the federal awarding agency or pass-through entity administering the program, in accordance with applicable law and regulations. (2 CFR Sec. 200.311)

When the district determines that equipment or supplies acquired under a federal award are no longer needed for the original project or program or for other activities currently or previously supported by a federal awarding agency, the Business Manager will contact the federal awarding agency or pass-through entity administering the program to obtain disposition instructions, based on the fair market value of the equipment or supplies.
Generally, items with a fair market value of $5,000 or less that are no longer effective may be retained, sold, purged, or transferred to the district. For items with a fair market value greater than $5,000, the federal awarding agency is entitled to the federal share of the current market value or sales proceeds.

If the district will be replacing the equipment or supplies, the district may use the existing equipment or supplies as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property.

The Business Manager will be responsible for contacting the federal awarding agency and determining the process for disposition of equipment or supplies.

The district may use the following methods in disposing of unnecessary equipment or supplies acquired with federal funds:

- Public auction and/or online sale – generally conducted by a licensed auctioneer.
- Salvage – scrap sold to local dealers.
- Negotiated sale – normally used when disposing of items of substantial value.
- Sealed bid – normally used for items of substantial value or unique qualities.
- Pre-priced sale – large quantities of obsolete or surplus equipment or supplies may be sold by this method.
- Donation to charitable organizations, for equipment or supplies with little to no value.
- Disposition to trash for equipment or supplies with no value.

The Business Manager will be responsible for maintaining records of obsolete and surplus property disposed of, and will report to the federal awarding agency when required.
Procurement – Federal Programs

This document is intended to integrate standard district purchasing procedures with additional requirements applicable to procurements that are subject to the federal Uniform Guidance regulations, federal guidance of the Office of Management and Budget and/or U.S. Department of Agriculture (USDA) regulations governing school food service programs. The district maintains the following purchasing procedures, in accordance with federal and state laws, regulations and Board policy. (2 CFR 200.102, 200.318-200.325; 7 CFR 210.16, 210.19, 210.21, 215.14a, 220.16; 24 P.S. 120, 24 P.S. 504, 24 P.S. 508, 24 P.S. 521, 24 P.S. 607, 24 P.S. 609, 24 P.S. 751, 24 P.S. 807.1; 62 Pa. The district implements exceptions to the Micro-Purchase and Simplified Acquisition Threshold amounts announced by the federal Office of Management and Budget as part of its procurement procedures.

**Responsibility for Purchasing**

The Board has outlined standard district purchasing responsibility, methods of purchasing, price quotations and bid requirements in the following Board policies and their accompanying administrative regulations or procedures:

- Policy 610. Purchases Subject to Bid/Quotation
- Policy 611. Purchases Budgeted
- Policy 612. Purchases Not Budgeted
- Policy 613. Cooperative Purchasing
**Purchase Methods**

When a request for purchase of equipment, supplies or services has been submitted and approved as outlined below, the procurement method to be used will be determined based on the type of purchase and the total cost of the purchase as further outlined below. This procedure outlines how the cost thresholds for determining when the quote or formal bidding procedures that are required by state law as reflected in Policy 610 must be modified when making purchases for federally funded purposes to which the Uniform Grant Guidance or USDA regulations apply, so as to comply with both state and federal requirements. At each point where requirements for food service-related procurement under USDA regulations differ, a note will refer to the Food Service Program Notes at the end of this procedure. Final determination of which purchasing procedures are to be applied is delegated to the Business Manager under the authority of the Board.

**Standard Procurement Documents and Purchase Request Process**

The district shall use purchase orders for purchase requests in accordance with the applicable purchase method.

The district shall use electronic purchasing records, which are pre-numbered and are accessible to designated purchasing staff in the Business Office.

Purchase requests by an employee must be submitted to the building administrator or immediate supervisor. Purchase of all budgeted items or items approved by an administrator or supervisor must be initiated by use of a purchase order or requisition submitted to the Business Manager.

Purchase orders and requisitions shall contain information including, but not limited to:

1. Description of the services to be performed or goods to be delivered.
2. Location of where services will be performed, or goods will be delivered.
3. Appropriate dates of service or delivery.

Documentation on purchase orders and requisitions shall be maintained in accordance with the district’s Records Management Policy and records retention schedule. (Pol. 800)

Contracts shall be reviewed by the Board Secretary, Business Manager, Superintendent, or school solicitor, as needed, prior to submission to the Board for approval.

Contracts to which the Uniform Grant Guidance apply shall contain the clauses specified in Appendix II to 2 CFR Part 200 (Contract Provisions for Non-Federal Entity Contracts Under Federal Awards), when applicable.
Micro-Purchases Not Requiring Quotes or Bidding

For purposes of this procedure, **micro-purchase** means a purchase of equipment, supplies or services for use in federally funded programs using simplified acquisition procedures, the aggregate amount of which does not exceed a base amount of **$10,000**. The micro-purchase dollar threshold is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register or **announced as an exception by the federal Office of Management and Budget** shall apply if other than **$10,000**. (48 CFR Subpart 2.1)

**Note:** The micro-purchase maximum for federal purposes is lower than the amount below which the School Code allows purchase for nonfederal purposes to be made without obtaining at least three (3) written or telephonic quotes or using formal competitive bidding.

The micro-purchase method is used in order to expedite the completion of its lowest dollar small purchase transactions and minimize the associated administrative burden and cost. Procurement by micro-purchase is the acquisition of equipment, supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold.

To the extent practicable, the district distributes micro-purchases equitably among qualified suppliers when the same or materially interchangeable products are identified and such suppliers offer effectively equivalent rates, prices and other terms. The Business Manager will be responsible to determine the equitable distribution of micro-purchases.

Micro-purchases may be awarded without soliciting competitive quotations if the district considers the price to be reasonable. The district will maintain evidence of this reasonableness in the records of all micro-purchases. **Reasonable** means that sound business practices were followed and the purchase is comparable to market prices for the geographic area. Such determinations of reasonableness may include comparison of the price to previous purchases of the same item or comparison of the price of items similar to the item being purchased.

Even if the cost of a purchase qualifies it as a micro-purchase, bidding or small purchase procedures may be used optionally when those procedures may result in cost savings.

**Small Purchase Procedures**

For purposes of this procedure, **small purchase procedures** are those relatively simple and informal procurement methods for securing equipment or supplies that cost more than the amount qualifying as a micro-purchase and do not cost **$20,600** or more, or in the case of services other than construction, maintenance or repair on school facilities, where the total cost does not exceed the **$250,000** federal Simplified Acquisition Threshold at which formal competitive bidding or competitive proposals are required. Small purchase procedures cannot be used for purchases of equipment or supplies or for construction, repair or maintenance services costing **$20,600** or more because the School Code requires formal competitive bidding at that level of cost.
The base amount at which bidding is required under state law for purchases of equipment, supplies and construction, maintenance or repair services on school facilities is adjusted for inflation annually, and the adjusted amount most recently determined and published in the Pennsylvania Bulletin shall apply if other than $20,600. (24 P.S. Sec. 120)

The federal Simplified Acquisition Threshold at which competitive bidding or competitive proposals are required is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register or announced as an exception by the federal Office of Management and Budget shall apply if other than $250,000. (48 CFR Subpart 2.1, 2 CFR 200.102)

Because state law does not require competitive bidding for the purchase of services other than construction, maintenance or repairs on school facilities regardless of total cost, small purchase procedures, including a request for proposal (RFP) procedure, may be used for procurement of such other services except when the estimated total cost will be at or over the federal threshold at which formal competitive bidding or competitive proposals are required ($250,000).

If small purchase procedures are used, written or telephonic price or rate quotations are obtained from at least three (3) qualified sources and records of quotes are maintained as provided in Policy 610. (Pol. 610)

**Formal Competitive Bidding**

**Publicly Solicited Sealed Competitive Bids:**

For purchases of equipment or supplies, or of services for construction, maintenance or repairs of school facilities, sealed competitive bids are publicly solicited and awarded to the lowest responsive and responsible bidder as provided in Policy 610 when the total cost is estimated to be $20,600 or more. (Pol. 610)

**Note:** The amount at which formal competitive bidding or competitive proposals are required by federal regulations is much higher than the base amount at which the School Code requires competitive bidding. Therefore, the lower base amount specified by the School Code, as annually adjusted, is used to determine when bidding will be used for purchases of equipment or supplies, or for obtaining services for construction, maintenance or repairs on school facilities. (24 P.S. Sec. 120)

State law does not require bidding for the purchase of services other than construction, maintenance or repairs on school facilities regardless of total cost. For procurement of such other services for federally funded purposes to which the Uniform Grant Guidance applies, formal competitive bidding or competitive proposals will be used when the estimated total cost will be at or over the federal threshold of $250,000.

The federal Simplified Acquisition Threshold at which competitive bidding or competitive proposals are required is adjusted periodically by the federal government, and the threshold most
recently established and published in the Federal Register or announced as an exception by the federal Office of Management and Budget shall apply if other than $250,000. (48 CFR Subpart 2.1, 2 CFR 200.102)

For procurement of services costing at or over the $250,000 federal threshold other than for construction, maintenance or repairs on school facilities, the use of competitive sealed bidding is considered feasible and appropriate when:

1. A complete, adequate, and realistic specification or purchase description is available;

2. Two (2) or more responsible bidders are willing and able to compete effectively for the business; and

3. The procurement lends itself to a firm fixed-price contract and the selection of the successful bidder can be made principally on the basis of price.

Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of. Any or all bids may be rejected if there is a sound documented reason.

**Competitive Proposals**

State law does not require public school entities to solicit competitive bids for services other than construction, repairs or maintenance of school facilities, for which competitive bidding is required if the cost will be a base amount of $20,600 or more. State law allows competitive proposals relating to work on facilities in lieu of bidding only in the context of guaranteed energy savings contracts. Federal regulations allow the use of competitive proposals as an alternative to formal competitive bidding when conditions are not appropriate for the use of sealed bids.

In the case of services other than for construction, repairs or maintenance of school facilities costing less than that threshold, the district may use small purchase procedures or micro-purchase procedures as applicable based on total cost. A request for proposal (RFP) process can also meet or exceed the small purchase competition requirements under state law and Policy 610 for the acquisition of services other than for construction, repairs or maintenance of school facilities, and can be used if the total cost will be less than $250,000.

When permitted, the technique of competitive proposals is normally conducted with more than one (1) source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. Competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The district shall comply with other applicable state and federal law and regulations, Board policy and administrative regulations regarding purchasing; the district may consult with the school solicitor or other qualified counsel in determining the required process for purchasing through competitive proposals when necessary.
If this method is used, the following requirements apply:

1. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical.

2. Proposals must be solicited from an adequate number of qualified sources.

3. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

An alternative form of competitive proposal is permitted only for qualifications-based procurement of architectural and engineering services, in which price is not a selection factor and reasonable compensation is negotiated after source selection. This alternative is not permitted for procurement of other types of services.

Competitive proposals shall be evaluated by the Business Manager based on factors including but not limited to:

1. Cost.
2. Experience of contractor.
3. Availability.
5. Financial stability.
6. Minority business, women’s business enterprise, or labor surplus area firm status.
7. Project management expertise.
8. Understanding of district needs.

Evaluations shall be completed in a timely manner, documented and shall be reviewed by the Superintendent.

**Contract/Price Analysis**

The district performs a cost or price analysis in connection with every procurement action in excess of $250,000, including contract modifications. (2 CFR Sec. 200.323(a)).

A **cost analysis** generally means evaluating the separate cost elements that make up the total price, while a **price analysis** means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the Business Manager must come to an independent estimate prior to receiving bids or proposals. (2 CFR Sec. 200.323(a)). As part of the analysis, the Business Manager will enact established business practices which may include evaluation of similar prior procurements and a review process.
**Negotiated Profit**

In any procurement in which there has been no price competition, or in which a cost-analysis is performed, profit must be negotiated separately as an element of price. Accordingly, solicitations of bids, proposals or quotes shall require that bids, proposals or quotes be limited to costs other than profit, and exclude profit.

To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor’s investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work. (2 CFR Sec. 200.323(b)).

When profit must be negotiated as a separate element of the total price, it shall be negotiated by the Business Manager.

**Noncompetitive Proposals (Sole Sourcing)**

**Procurement by noncompetitive proposals** means procurement through solicitation of a proposal from only one (1) source and may be used only when one or more of the following circumstances apply:

1. The item is available only from a single source.

2. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation. An emergency exists whenever the time required for the Board to act in accordance with regular procedures would endanger life or property or threaten continuance of existing school classes.

3. The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the district.

4. After solicitation of a number of sources, the district determines the competition is inadequate.

In addition to standard procurement policy and procedures, the district will document the grounds for using the noncompetitive method in lieu of an otherwise required competitive method of procurement, which may include written confirmation from the contractor as the sole source of the item. Documentation must be submitted to and maintained by the Business Office.

All noncompetitive proposals will ultimately be approved by the Board. The district may utilize legal advice from the solicitor regarding noncompetitive proposals.

Profit must be negotiated separately for noncompetitive proposals, and a cost or price analysis will also be performed for noncompetitive proposals when the price exceeds $250,000.
**Purchase Cards**

The district approves the use of procurement cards for permissible purchases by designated employees to improve the efficiency of purchasing activities, reduce processing expenses, improve controls for small-dollar purchases, and streamline contractor payment.

Procurement cards may be used for purchases under federal programs. The use of procurement cards is governed by Board policy 625 Procurement Cards and established administrative regulations. (Pol. 625)

**Full and Open Competition**

All procurement transactions must be conducted in a manner providing full and open competition consistent with 2 CFR Sec. 200.319. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. Some of the situations considered to be restrictive of competition include but are not limited to:

1. Placing unreasonable requirements on firms in order for them to qualify to do business.

2. Requiring unnecessary experience and excessive bonding.

3. Noncompetitive pricing practices between firms or between affiliated companies.

4. Noncompetitive contracts to consultants that are on retainer contracts.

5. Organizational conflicts of interest.

6. Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance or other relevant requirements of the procurement.

7. Any arbitrary action in the procurement process.

**Minority Businesses, Women’s Business Enterprises, Labor Surplus Area Firms**

The district must take necessary affirmative steps to assure that minority businesses, women’s business enterprises, and labor surplus area firms are used when possible. Affirmative steps must include: (2 CFR Sec. 200.321)

1. Placing qualified small and minority business and women’s business enterprises on solicitation lists.

2. Assuring that small and minority businesses, and women’s business enterprises are solicited whenever they are potential sources.
3. Dividing total purchasing requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business and women’s business enterprises.

4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses and women’s business enterprises.

5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

6. Requiring the prime contractor, if subcontracts are let, to take the affirmative steps listed above.

**Geographical Preferences Prohibited**

The district must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

**Prequalified Lists**

The district must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the district must not preclude potential bidders from qualifying during the solicitation period.

**Solicitation Language**

The district must ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equivalent” description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated; and identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.
Avoiding Acquisition of Unnecessary or Duplicative Items

The district must avoid the acquisition of unnecessary or duplicative items. Additionally, consideration must be given to consolidating or breaking out procurements to obtain a more economical purchase; and, where appropriate, an analysis must be made of leases versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

These considerations are given as part of the process to determine the allowability of each purchase made with federal funds. Such considerations are accessible in the procedure attached to Policy 626: Allowability of Costs – Federal Programs.

Use of Intergovernmental Agreements and Cooperative Purchasing

To foster greater economy and efficiency, the district enters into state and local intergovernmental agreements where appropriate for cooperative purchasing or use of common or shared goods and services, as permitted by the Intergovernmental Cooperation Act, the School Code and the Commonwealth Procurement Code. (Pol. 613; 53 Pa. C.S. Ch. 23; 24 P.S. 521; 62 Pa. C.S. Ch. 19)

When procuring supplies or services for federally funded purposes to which the Uniform Grant Guidance applies, the district shall verify that the organization conducting the procurement pursuant to such agreements complies with the applicable procurement methods, requirements and standards of the Uniform Grant Guidance as outlined in this procedure.

Use of Federal Excess and Surplus Property

The district considers the use of federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

Debarment and Suspension

The district awards contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

The district may not subcontract with or award subgrants to any person or company who is debarred or suspended. For all contracts over $25,000 the district verifies that the contractor with whom the district intends to do business is not excluded or disqualified. (2 CFR Part 200, Appendix II, and 2 CFR Sec. 180.220 and 180.300).

All successful contractors must provide written certification that they have not been suspended or debarred from federal projects. The Business Manager will be responsible for verification. Such verification may include accessing the online federal System for Award Management.
(SAM) to determine whether any relevant party is subject to any suspension or debarment restrictions.

**Maintenance of Procurement Records**

The district must maintain records sufficient to detail the history of all procurements. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, the basis for the contract price (including a cost or price analysis), and verification that the contractor is not suspended or debarred.

Maintenance of records of procurement will be governed by Board policy 800 Records Management and the district’s established records retention schedule. (Pol. 800)

**Time and Materials Contracts**

The district may use a time and materials type contract only: (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. **Time and materials type contract** means a contract whose cost to the district is the sum of: the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, each contract must set a ceiling price that the contractor exceeds at its own risk. Further, the district must assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

**Settlements of Issues Arising Out of Procurements**

The district alone is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the district of any contractual responsibilities under its contracts. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

**Protest Procedures to Resolve Dispute**

The district maintains protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency. Protest procedures will be acted on in accordance with current state law and regulations, established district administrative regulations and the advice of the solicitor. (Pol. 610)

**Food Service Program Notes:**
Exemption from Bidding for Perishable Food Items -

The School Code exempts purchases of perishable food items from bidding requirements. Bidding for perishable food items is required only if the cost would be at or over the federal threshold at which formal competitive bidding is required ($250,000). Small purchase procedures may be used for purchases below $250,000, or micro-purchase procedures for purchases below $10,000. Use of bidding should be considered as an option if it is feasible and likely to result in cost savings. (24 P.S. Sec. 504(d))

Geographic Preferences -

The district is permitted to apply a geographic preference when procuring unprocessed locally grown or locally raised agricultural products. When a geographic preference is applied, the district has discretion to determine the local area to which the geographic preference option will be applied.

Unprocessed locally grown or locally raised agricultural products means only those agricultural products that retain their inherent character. The effects of the following food handling and preservation techniques shall not be considered as changing an agricultural product into a product of a different kind or character: cooling; refrigerating; freezing; size adjustment made by peeling, slicing, dicing, cutting, chopping, shucking, and grinding; forming ground products into patties without any additives or fillers; drying/dehydration; washing; packaging (such as placing eggs in cartons), vacuum packing and bagging (such as placing vegetables in bags or combining two (2) or more types of vegetables or fruits in a single package); the addition of ascorbic acid or other preservatives to prevent oxidation of produce; butchering livestock and poultry; cleaning fish; and the pasteurization of milk. (7 CFR Sec. 210.21, 215.14a, 220.16)

Buy American -

The district shall purchase, to the maximum extent practicable, domestic commodities or products for food service purposes. The term domestic commodity or product means: (7 CFR Sec. 210.21, 220.16)

1. An agricultural commodity that is produced in the United States; and

2. A food product that is processed in the United States substantially using agricultural commodities that are produced in the United States.

Mandatory Contract Clauses -

The following provisions shall be included in all cost reimbursable contracts for food services purchases, including contracts with cost reimbursable provisions, and in solicitation documents prepared to obtain offers for such contracts: (7 CFR Sec. 210.21, 215.14a, 220.16)

1. Allowable costs will be paid from the nonprofit school food service account to the contractor net of all discounts, rebates and other applicable credits accruing to or received
by the contractor or any assignee under the contract, to the extent those credits are allocable to the allowable portion of the costs billed to the school food authority;

2. (a) The contractor must separately identify for each cost submitted for payment to the school food authority the amount of that cost that is allowable (can be paid from the nonprofit school food service account) and the amount that is unallowable (cannot be paid from the nonprofit school food service account); or

(b) The contractor must exclude all unallowable costs from its billing documents and certify that only allowable costs are submitted for payment and records have been established that maintain the visibility of unallowable costs, including directly associated costs in a manner suitable for contract cost determination and verification;

3. The contractor's determination of its allowable costs must be made in compliance with the applicable departmental and program regulations and Office of Management and Budget cost circulars;

4. The contractor must identify the amount of each discount, rebate and other applicable credit on bills and invoices presented to the school food authority for payment and individually identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the state agency, the school food authority may permit the contractor to report this information on a less frequent basis than monthly, but no less frequently than annually;

5. The contractor must identify the method by which it will report discounts, rebates and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract; and

6. The contractor must maintain documentation of costs and discounts, rebates and other applicable credits, and must furnish such documentation upon request to the school food authority, the state agency, or the department.

Contracts with Food Service Management Companies -

Procedures for selecting and contracting with a food service management company (FSMC) shall comply with guidance provided by the Pennsylvania Department of Education, Division of Food and Nutrition, including standard forms, procedures and timelines for solicitation, selection and approval of proposals and contracts. (7 CFR Sec. 210.16, 210.19, 210.21, 215.14a, 220.16)

Pre-Plated Meals -

Procedures for selecting and contracting with contractors of pre-plated meals shall comply with guidance provided by the Pennsylvania Department of Education, Division of Food and Nutrition, including standard forms, procedures and timelines for solicitation, selection and approval of proposals and contracts. (7 CFR Sec. 210.16, 210.19, 210.21, 220.16)
Grant Subrecipient Monitoring Procedures – Federal Programs

In the event the district disperses federal funds received through a federal award to other entities and assigns responsibilities to the outside entity to conduct a portion of the work, the district shall be responsible for determining, on a case-by-case basis, whether the agreement with such entity places the outside entity in the role of a subrecipient receiving a subaward of federal funding, or the role of a contractor.

If the district grants subawards of federal funding to other entities as subrecipients, the district shall be responsible for:

1. Evaluating the entity for risk of noncompliance to determine appropriate monitoring practices.

2. Monitoring the subrecipient entity’s implementation to ensure compliance with federal, state and local laws, conditions of the federal funding award, and Board policy and procedures.

3. Notifying the subrecipient entity of identified deficiencies found during the monitoring process and ensuring that identified deficiencies are corrected.

4. Documenting and retaining records on subrecipient identification, notification, evaluation, monitoring and corrective actions taken.

Definitions

For purposes of policies and procedures related to federal programs, the following definitions shall apply:

Contract – a legal instrument by which a non-federal entity purchases property or services needed to carry out the project or program under a federal award. The term as used here does not include a legal instrument, even if the entity considers it a contract, when the substance of the transaction meets the definition of a federal program award or subaward. (2 CFR 200.22)

Contractor – an entity that receives a contract, as defined in law and regulations, by which a non-federal entity purchases property or services needed to carry out the project or program under a federal award. (2 CFR 200.23)

Pass-through entity – a non-federal entity that provides a subaward to a subrecipient to carry out part of a federal program. The district serves as the pass-through entity in cases where it awards federal funding to a subrecipient as defined in this procedure. (2 CFR 200.74)

Subaward – an award provided by a pass-through entity to a subrecipient in order to carry out part of a federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract. (2 CFR 200.92)
Subrecipient – a non-federal entity that receives a subaward to carry out part of a federal program; but does not include an individual that is a beneficiary of such program. (A subrecipient may also be a recipient of other federal awards directly from a federal awarding agency.) (2 CFR 200.93)

Subrecipient Versus Contractor

The district must determine, on a case-by-case basis, whether an entity receiving funds from the district as part of a federal funding program serves in a role of subrecipient or contractor. (2 CFR 200.330)

The Business Manager shall be responsible for analyzing the criteria listed in the chart below and evaluating the relationship with the entity based on the substance of the legal agreement, rather than the form of the agreement. The Business Manager may consult with the school solicitor or other qualified counsel in making such determination.

Evaluation of Risk

The district shall evaluate each subrecipient’s risk of noncompliance with law, regulations and the terms and conditions of the subaward to determine appropriate monitoring practices. (2 CFR 200.331)

The Business Manager or designee shall be responsible for evaluating risk based on the following factors:

1. The subrecipient’s prior experience with the same or similar subawards;

2. The results of previous audits, including whether the subrecipient receives a single audit and the extent to which the same or similar subaward has been audited;

3. Whether the subrecipient has new personnel, or new or substantially changed systems and processes;

4. The extent and results of any federal award agency’s monitoring of the subrecipient.

The Business Manager or designee shall request adequate documentation from the subrecipient to conduct the evaluation of risk; such documentation may include, but shall not be limited to, audit reports, financial reports, and policies and procedures.

The district shall evaluate subrecipients for risk of noncompliance as specified in the legal agreement or contract.

Based on the results of the risk evaluation, the district may consider imposing specific conditions on implementation of the subaward, in accordance with applicable law and regulations. (2 CFR 200.207, 200.331)

Monitoring

The district shall monitor the implementation and activities of each subrecipient as necessary to ensure that the subaward is used for authorized purposes, in accordance with law, regulations and the terms and conditions of the subaward. The district shall notify subrecipients of monitoring requirements, and may provide technical assistance to subrecipients in complying with monitoring requirements.
As part of the monitoring process, the district shall complete the following steps: (2 CFR 200.331)

1. Review financial and performance reports required by the district.

2. Follow-up and ensure that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the subaward detected during monitoring through audits, on-site reviews and other means.

3. Issue a management decision for audit findings pertaining to the subaward provided to the subrecipient, in accordance with applicable law and regulations. (2 CFR 200.521)

*Monitoring* –

The Business Manager or designee shall be responsible for monitoring of subrecipients. Monitoring activities may include, but shall not be limited to:

1. Review of progress reports, financial reports and data quality.

The district shall verify that subrecipients are audited as required by applicable law and regulations. (2 CFR 200.331, 2 CFR 200.500-200.521, Pol. 619)

*Follow-Up Actions* –

The Business Manager or designee shall provide subrecipients with written documentation detailing their monitoring results and listing any identified deficiencies. The district shall consider whether the results of monitoring indicate the need to revise existing district policy and procedures. (2 CFR 200.331)

The district shall require subrecipients to take immediate action on issues involving ineligible or illegal use of federal funding, and notify the district of corrective action taken.

The district shall require subrecipients to develop a corrective action plan to address other identified deficiencies or noncompliance issues; such plan shall be submitted to the district within 60 days, and the district shall evaluate and monitor the activities taken by the subrecipient under the corrective action plan. The district may provide technical assistance and/or training to subrecipients in complying with corrective action requirements.

The Business Manager or designee shall maintain all documentation on monitoring of subrecipients and corrective action taken during the monitoring process.
The district shall report issues of noncompliance to the appropriate federal agency where required by law, regulations, or requirements of the federal funding program.

Remedies for Noncompliance –

When monitoring activities identify issues of noncompliance that are not addressed through corrective action, the district may take the following actions: (2 CFR 200.331, 200.338)

2 CFR  
Sec. 200.474  

The Board shall reimburse administrative, professional and support employees, and school officials, for travel costs incurred in the course of performing services related to official business as a federal grant recipient.

**2. Definition**  
2 CFR.  
Sec. 200.474

Pol. 004, 331  

School officials and district employees shall comply with applicable Board policies and administrative regulations established for reimbursement of travel and other expenses.

The validity of payments for travel costs for all district employees and school officials shall be determined by the Business Manager.

Travel costs shall be reimbursed on a mileage basis for travel using an employee’s personal vehicle and on an actual cost basis for meals, lodging and other allowable expenses, consistent with those normally allowed in like circumstances in the district’s nonfederally funded activities, and in accordance with the district’s travel reimbursement policies and administrative regulations.

The Board shall develop and maintain a Strategic Plan, as required by State Board of Education regulations. Involvement of the Board, staff, community, businesses and parents/guardians is an important part of this process. Facilities planning is a primary component of strategic planning.

### SC 1351

The Board shall continuously or annually conduct a census of all children from birth to eighteen (18) years living in the district. The Board shall employ as many enumerators or attendance officers as necessary.

### 2. Delegation of Responsibility

In order to inform the Board of the district’s future needs, the Superintendent or designee shall:

1. Prepare a written description of existing physical facilities.
2. Annually report to the Board on enrollment projections.
3. Report to the Board on the enrollment by grades during the school year.
4. Estimate each spring the number of students who will be enrolled in the district’s schools in September of the year for which the estimate is made.
5. Prepare student population projections and compare the actual population figures to the previously projected figures to detect early any changes in population trends.

Information gathered in the census shall include for each child the name and address of the parents/guardians; name and location of the school in which the child could be or is enrolled or belongs; name and address of any employer of a child under eighteen (18); child’s name, date of birth, age, sex, nationality, and address; and other information the Board may legally request to assist in the efficient and equitable operation of the district.
| **SC 701** | When planning to enlarge or modify its facilities, the Board shall consider not only the number of students whose educational needs must be met, but also the physical requirements of the programs it deems best suited to meet those needs. |
| **Pol. 103, 103.1** | Each school building and site shall provide suitable accommodations to carry out the educational program, including provision for the handicapped/disabled, pursuant to law and regulations. |

### 702. GIFTS AND DONATIONS

**1. Purpose**

The development of alternate sources of funding for the benefit of the district’s educational programs and facilities is a desirable goal of the Board. Opportunities are available to enhance or supplement traditional sources of district revenue through the pursuit of advertising, sponsorships, donations, partnerships, fundraising, grants and other similar revenue enhancement activities.

The district recognizes its responsibility as a provider of public education to protect the welfare of students and maintain the integrity of the learning environment. The district’s objective is to ensure that educational opportunities are enhanced and not compromised when donations are offered to the schools and the district.

**2. Definitions**

Donation - a gift or contribution of money, goods or services, given to a school or the district. A donation is given without expectation of something of value in return. While the school or district may provide appropriate donor recognition, any expectation of specific returns from the district or schools would make a contribution a sponsorship and not a donation. Tax receipts for charitable purposes are issued for donations.

Recognition - any form of acknowledgment or consideration provided by a school or the district for a donation.

**3. Authority**

Donations to the district and/or schools are encouraged by the Board. Individuals or organizations desiring to make donations to the district should counsel with the Superintendent or designee regarding the acceptability of anticipated donations.

Donations shall be used for activities designed to enhance student achievement and/or school-approved student activities; assist in the maintenance of existing district educational and athletic programs and facilities; assist in the development and funding of new educational and athletic programs and facilities; and/or provide financial assistance for students participating in curricular, cocurricular and extracurricular programs who demonstrate merit or financial need.
The district has the authority to accept all donations and reserves the right to decline any donation. Factors to be considered include, but are not limited to:

1. The extent to which the donation limits or restrains the district’s discretion or its ability to pursue other opportunities;

2. The duration of the arrangement or agreement and the district’s ability/discretion to terminate the arrangement/agreement;

3. The extent to which the donation imposes any obligation on the district, either presently or in the future, financial or otherwise and whether the opportunity is subject to conditions acceptable to the district;

4. The extent to which the donation constitutes a conflict of interest or creates the appearance of or potential for a conflict of interest;

5. The extent to which the donation affects the appearance of district property or disrupts the operation of the district; and

6. The extent to which the donation interjects advertising or commercialism into the schools or classrooms.

All proposed donations will be reviewed by the Superintendent and presented to the Board for approval before acceptance, except that the Superintendent and/or designee may accept donations of memorial library books.

The district may accept monetary contributions designated for specific purposes and donations of equipment or materials. If the donation is instructional equipment, it is imperative that attention be given to technical and curricular compatibility before acceptance. Before supplies, books, equipment or other items are purchased or donated, approval must be obtained from the Board or its designee.

Any donation accepted by the district shall become the property of the district and is subject to the same controls and regulations as are other properties of the district. The district shall be responsible for the maintenance of any donation it accepts, unless otherwise stipulated. The district will make every effort to honor the intent of the donor in its use of the donation, but reserves the right to utilize any donation it accepts in the best interests of the educational program of the district. The fact that funds, property or services have been provided as a donation to one school shall not require or preclude the providing by the district of like items for other schools.

In no case shall acceptance of a donation be considered to be an endorsement of a commercial product, business or institution of learning.
Donations must be positive, ethical and structured in accordance with the following principles:

1. Donations shall meet the needs and/or desires of the district and its students.

2. Donations must be consistent with codes of conduct and district policies, including those prohibiting discrimination on the basis of race, color, ethnicity, national origin, religion, gender, age or mental/physical disability, and must be age-appropriate for the students involved.

3. The Superintendent must retain discretion over how or whether to integrate commercially sponsored or provided material or programs into the curriculum.

4. No donation will be accepted that requires students to advertise a product, service, company or industry. This prohibition on student advertising includes athletic uniforms and equipment, although uniforms and equipment may display the name or logo of the uniform and equipment manufacturer or supplier.

5. The district has a duty to protect students’ privacy and personal information. Students and schools shall not be required to complete questionnaires or surveys to provide marketing information to vendors, or distribute to vendors any personal student information including, but not limited to, names, addresses and telephone numbers, except as may be required by law. No canvassing of students for commercial purposes is allowed on school property.

6. The district will not accept the donation of goods from third parties (other than student and booster groups) for which the third party then solicits monetary contributions or paid advertisements from local businesses and residents in the name or on behalf of the district.

It is appropriate that donors receive recognition for their support. Recognition should be focused and directed to adults. Such recognition can be in the form of a mention in the school newsletter, a news release, or letter to the involved party. In some cases, recognition in the form of a temporary display, sign or banner may be appropriate as approved by the Superintendent and/or designee. At the discretion and upon the approval of the Board, recognition may be in the form of the placement of a suitable plaque or nameplate. The purpose of the display should be for donor identification only.

It shall be the responsibility of the administration to consult with potential donors and benefactors regarding potential gifts to the district or proposal to enhance revenue and to present these potential gifts and opportunities to the Board for approval or rejection.
5. **Guidelines**  | This policy shall be communicated to:
---|---
1. District staff.
2. Students and parents/guardians through the Parent/Student Handbooks.
3. The Freeport Area School District community.

The Superintendent or designee shall implement administrative regulations or procedures for requesting and granting permission for use of school facilities and shall distribute the necessary information to individuals affected by them.

An application for use of school facilities may be disapproved because of noncompliance with established policy and procedures by the Superintendent.

Guidelines

Application Process

An individual or community group requesting permission to use school buildings, facilities or school property must submit a written request on the prescribed application form in advance of the proposed date to the Superintendent or designee.

The application must specify the portion of the school facilities requested for use; proposed activities; number of individuals participating; and the date, time and duration of the proposed event.

Along with the completed application, the individual or group must submit the following:

1. Payment of the specified rental fee.

2. Evidence of organizational liability to limits required by district guidelines.

3. Documentation evidencing the school district shall be held harmless by the user for any liability that arises from use of school facilities by the individual or group.

Application Evaluation

No application to use school facilities shall be approved if the proposed activity would result in any of the following:

1. Conflict with any school-sponsored activity.

2. Access to school facilities closed due to renovations, maintenance, cleaning, the school calendar, or Board action.

3. Access to school facilities containing equipment or furnishings which would be detrimental to the operation of a district program if damaged or operated by an unqualified operator.
4. The proposed use would prevent or encumber district personnel from preparing school facilities for their primary purpose, because of the nature or duration of the activity.

Limitations

When individuals and community groups receive written permission to use school facilities under this policy, such use shall be conditioned upon strict compliance with the following:

1. Individuals shall not use, access or enter upon any portions of the school facilities or their contents not specified in the approved written request form.

2. Individuals shall refrain from any conduct or activities not specifically identified in the approved written request form.

3. When advertising or promoting activities held at school facilities, individuals and community groups shall clearly communicate that the activities are not being sponsored by the school district.

4. School equipment used in conjunction with requested facilities shall be identified when the application is submitted. Users of school equipment must accept liability for any damage to or loss of equipment that occurs while in their use. Where rules so specify, no equipment may be used except by a qualified operator, provided by the school.

Operation, movement, or change of panel control boards, public address systems, specific lighting equipment, air conditioning equipment, choral and band risers, pianos, stage scenery, curtains, furniture or other equipment will be regulated, performed and supervised directly by school personnel. Any other school personnel costs scheduled, including but not limited to custodial, audio-visual, athletic event staff, etc., will be charged to the individual or community group.

The following activities are strictly prohibited in school facilities when individuals and community groups are granted written permission to use said school facilities: [3]

1. Possession, use or distribution of illegal drugs and/or alcoholic beverages.

2. Possession of weapons.
3. **Conduct** that would alter, damage or be injurious to any district property, equipment or furnishings.

4. **Conduct** that would constitute a violation of the Pennsylvania Crimes Code, and/or state and federal laws and regulations.

5. Gambling, games of chance, lotteries, raffles or other activities requiring a license under the Local Option Small Games of Chance Act, unless such activity has been expressly authorized by the Board or administration.[4][5]

The school district reserves the right to remove from school district premises any individual or community group who fails to comply with the terms and conditions of this policy and established procedures.[3]

In the event an individual or community group violates this policy or the terms under which permission was granted to use school facilities, that individual or community group forfeits the right to submit future written requests to use school district property, unless otherwise decided by the Board.

### Definitions

- **Electronic Mail (E-mail) System** – a system that enables users to compose, transmit, receive and manage text and/or graphic electronic messages and images across local area networks and through gateways connecting other networks. This information consists primarily of messages but may include attachments such as calendars, directories, distribution lists, word processing documents, spreadsheets, and other electronic documents.

- **Litigation Hold** – a communication ordering that all records and data relating to the subject of a dispute being addressed by current or impending litigation or investigation be preserved for possible production in the litigation or investigation. During the duration of a litigation hold, all those individuals deemed to be possible custodians of records and data possibly relating to the dispute at issue shall suspend all normal records or data destruction or disposal practices and procedures.
### Records Management

**Records** – any recorded information, regardless of form and including electronic records, that documents a transaction or activity that is created, received, or retained pursuant to law or in connection with the transaction of official business or any activity of the District. The term includes a document, paper, letter, map, book, tape, photograph, film or sound recording, information stored or maintained electronically and a data-processed or image-processed document.

**Records Management Plan** – the system implemented by the District for the retention, retrieval, and disposition of all records generated by District operations.

**Records Retention Schedule** – A comprehensive listing stating retention periods and proper disposition of records.

### Delegation of Responsibility

**Records Coordinator**

In order to maintain a Records Management Plan that complies with federal and state laws and regulations and Board policy, the Board designates the Business Manager or designee as the district’s Records Coordinator who shall serve as the chairperson of the Records Management Committee.

The Records Coordinator shall be responsible to:

1. Ensure that training appropriate to the user’s position and level of responsibility is provided. Such training may include:
   
   a. Requirements of the Records Retention Schedule.
   b. Protocols for preserving and categorizing district records.
   c. Procedures and responsibilities of district staff in the event of a litigation hold.
   d. Identification of what is and what is not a record.
   e. Disposal of records.

2. Review the Records Management Plan periodically to ensure that record descriptions and retention periods are updated as necessary.

3. Identify, when the retention period expires, the specific records to be disposed of and ensure that all identified records are properly disposed of annually.
### Records Management Committee

A committee responsible for the development and recommendation of the district’s Records Management Plan shall be established by the Board. 2. Superintendent.
3. Board Secretary/Business Manager.
4. District solicitor.
5. Director of Technology or designee.
6. Assistant Superintendent(s)/Program Director(s).
7. Board member(s).

The Records Management Committee shall meet periodically to evaluate the effectiveness and implementation of the Records Management Plan and recommend changes as needed to the Board.

### Guidelines

#### Records Management Plan

The District’s Records Management Plan shall be the principal means for the retention, retrieval, and disposition of manual and electronic records, including e-mails. The Plan shall not rely primarily on backup systems to manage the retention and disposition of records.

The Records Management Plan shall include:

1. Comprehensive listing of records and data of the district.
2. Criteria to distinguish records of the school district from the supplemental personal records of individual employees.
3. System(s) of records storage and retrieval to be used, including in what form the records will be stored, maintained, reproduced, and disposed.
4. Preservation measures to protect the integrity of records and data.
5. Data map or flow chart detailing the sources, routes, and destinations of electronic records.

6. Procedures and employee designated for determining whether an item is a record.

7. Procedures for adding, revising or deleting records and data, and any other details necessary to implement the Records Management Plan.

8. Records Retention Schedule.

9. Provisions for the storage and retrieval of records in the event of an emergency or disaster.

10. Staff positions authorized to access district records.

11. Procedures to be implemented in the event of a litigation hold that immediately suspends disposition of all records relevant to the current or potential claim. Such procedures shall specify:

   a. Who can initiate a litigation hold.

   b. How and to whom a litigation hold is communicated.

   c. Who will determine which records are subject to the litigation hold.

   d. Who will be responsible for collecting and preserving such records and data.

   e. Who will be responsible for monitoring and ensuring the district’s compliance with the litigation hold.

   f. In what format the records will be collected.

When possible, records and data shall be stored in their original form, including metadata, such as creation date, author, type of file, etc.

For any record not covered by the Records Retention Schedule, the Records Management Committee shall determine how long the record shall be kept and recommend any necessary revisions to the retention schedule.

The District shall maintain and dispose of records in a manner that protects any sensitive, proprietary or confidential information or individual privacy rights, and helps conserve natural resources.
Manual Records

Manual records, which include all records not stored electronically, shall be retained and disposed of in accordance with the Records Management Plan.

Manual records shall be indexed in an organized and consistent manner, reflecting the way the records will be retained and referenced for later retrieval.

The District shall develop and maintain adequate and up-to-date documentation about each manual record system. Documentation may:

1. List system title and responsible employee(s) or office.
2. Define the contents of the system, including record formats.
3. Identify vital records and information.
4. Determine restrictions on access and use.

Electronic Records

Electronic records shall be retained and disposed of in the same manner as records in other formats and in accordance with the Records Management Plan.

Electronic records shall be indexed in an organized and consistent manner, reflecting the way the records will be retained and referenced for later retrieval.

The District shall develop and maintain adequate and up-to-date documentation about each electronic record system. Documentation may:

1. List system title and responsible employee(s) or office.
2. Specify all technical characteristics necessary for reading or processing the records stored on the system.
3. Identify all defined inputs and outputs of the system.
4. Define the contents of the system, including records formats and database tables.
5. Identify vital records and information.
6. Determine restrictions on access and use.

7. Describe update cycles or conditions.

**E-mail Records**

E-mail messages, in and of themselves, do not constitute records. Retention and disposition of e-mail messages depends on the function and content of the individual message.

Records on an e-mail system, including messages and attachments, shall be retained and disposed of in accordance with the District's Records Management Plan.

E-mail messages and attachments that do not meet the definition of records shall be deleted as required by the records retention schedule.

E-mail records may be maintained as an electronic record or be printed and maintained as a manual record.

For each e-mail considered to be a record, the following information shall be retained:

1. Message content.
2. Name of sender.
3. Name of recipient.
4. Date and time transmission and/or receipt.

E-mails may be archived by a stand-alone appliance or other suitable solution that combines archive and data compression technology.

**Contractors**

Records created or maintained by contractors employed by the Board to perform a governmental function and which directly relate to that governmental function shall be retained and disposed of in accordance with the Records Management Plan.
Litigation Hold

When the School District receives notice that the School District is involved in litigation as a party to a lawsuit or other legal proceeding, the School District is issued a subpoena by a party to a lawsuit in which it is not a party, an investigation concerning the School has commenced or may commence, the School District receives information that would reasonably lead the School District to anticipate the possibility of litigation or when the School District decides to initiate legal proceedings or litigation, the School District will immediately take steps to ensure that any records that could be related to the ongoing litigation/investigation or potential litigation/investigation are preserved from deletion or destruction (“a litigation hold”).

Any school employee or administrator who becomes aware of the possibility of legal proceedings involving the School shall immediately notify the Superintendent, who will then inform the Solicitor.

Any scheduled or other destruction or disposal of records that are the subject of litigation hold, including e-mails, shall be immediately halted. All records that are the subject of litigation hold shall be preserved, collected and produced in accordance with the requirements of the records management plan and applicable law and regulations.

Actions to preserve records and data will include, but not be limited to, postponing or canceling any automatic deletion of electronically stored information until relevant information and documents can be identified and stored, notifying employees of a litigation hold to prevent the deletion and destruction of records and data that might be related to the litigation/investigation or potential litigation/investigation, and identifying records, data and custodians thereof that are subject to preservation.

A litigation hold triggers the duty to preserve records and data that could otherwise be deleted or destroyed under the School District’s records management plan.

The Solicitor, in consultation with the Superintendent, will be responsible for issuing a litigation hold that specifically describes the types of records that must be preserved and in which form the records will be retained or produced. The litigation hold will be sent directly to the Superintendent, who will acknowledge receipt of the litigation hold. The litigation hold may be communicated initially by phone but will be followed by a written notification (fax, e-mail or letter).
Upon receipt of the litigation hold, the Superintendent will be responsible for:

1. Coordinating the collection and preservation of records and data that are subject to the litigation hold.
2. Monitoring and ensuring the School District’s ongoing compliance with the litigation hold.
3. Checking periodically on the status of a litigation hold.
4. Ensuring that all steps taken by the School District to identify and preserve relevant records, data and custodians are documented.

The Solicitor will inform the Superintendent of changes to the litigation hold as they occur. All documents or data created after the institution of the litigation hold that may be related to the dispute must also be preserved and maintained as set forth above.

### Guidelines

#### Aiding and Abetting Sexual Abuse

School employees, acting in an official capacity for this district, are prohibited from assisting another school employee, contractor or agent in obtaining a new job if the school employee knows, or has probable cause to believe, that such school employee, contractor or agent engaged in sexual misconduct regarding a minor or student.\[15\][16][17][18][21][24][25][26][27]

This prohibition applies only to assistance that extends beyond performance of normal processing of personnel matters including routine transmission of files or other information. This prohibition shall not apply if:\[25\]

1. The relevant information has been properly reported to law enforcement officials and any other authority required by federal, state or local law and the matter has been officially closed or the prosecutor or law enforcement officials notified school officials that there is insufficient information to establish probable cause.

2. The school employee, contractor or agent has been acquitted or otherwise exonerated of the alleged misconduct.

3. The case or investigation remains open and no charges have been filed against, or indictment of, the school employee, contractor or agent within four (4) years of the date on which the information was reported to the law enforcement agency.
**Training**

The school district, and independent contractors of the school district, shall provide their employees who have direct contact with children with mandatory training on child abuse recognition and reporting. The training shall include, but not be limited to, the following topics: \(^1\)[3][4][26]

1. Recognition of the signs of abuse and sexual misconduct and reporting requirements for suspected abuse and sexual misconduct.

2. Provisions of the Educator Discipline Act, including mandatory reporting requirements.\(^{26}\)[28]

3. District policy related to reporting of suspected abuse and sexual misconduct.

4. Maintenance of professional and appropriate relationships with students.\(^{27}\)

Employees are required to complete a minimum of three (3) hours of training every five (5) years.\(^1\)

**Duty to Report**

School employees, independent contractors and volunteers shall make a report of suspected child abuse if they have reasonable cause to suspect that a child is the victim of child abuse under any of the following circumstances: \(^{14}\)

1. The school employee, independent contractor or volunteer comes into contact with the child in the course of employment, occupation and the practice of a profession or through a regularly scheduled program, activity or service.

2. The school employee, independent contractor or volunteer is directly responsible for the care, supervision, guidance or training of the child.

3. A person makes a specific disclosure to a school employee, independent contractor or volunteer that an identifiable child is the victim of child abuse.

4. An individual fourteen (14) years of age or older makes a specific disclosure to a school employee, independent contractor or volunteer that s/he has committed child abuse.
A child is not required to come before the school employee, independent contractor or volunteer in order for that individual to make a report of suspected child abuse.[14]

A report of suspected child abuse does not require the identification of the person responsible for the child abuse.[14]

Any person who, in good faith, makes a report of suspected child abuse, regardless of whether the report is required, cooperates with an investigation, testifies in a proceeding, or engages in other action authorized by law shall have immunity from civil and criminal liability related to those actions.[29]

Any person required to report child abuse who willfully fails to do so may be subject to disciplinary action and criminal prosecution.[30]

Any person who intentionally or knowingly makes a false report of child abuse or intentionally or knowingly induces a child to make a false claim of child abuse may be subject to disciplinary action and criminal prosecution.[31]

Any person who engages in intimidation, retaliation, or obstruction in the making of a child abuse report or the conducting of an investigation into suspected child abuse may be subject to disciplinary action and criminal prosecution.[32]

The district shall not discriminate or retaliate against any person for making, in good faith, a report of suspected child abuse.[33]

**Reporting Procedures**

School employees, independent contractors or volunteers who suspect child abuse shall immediately make a written report of suspected child abuse using electronic technologies (www.compass.state.pa.us/cwis) or an oral report via the statewide toll-free telephone number (1-800-932-0313). A person making an initial oral report of suspected child abuse must also submit a written electronic report within forty-eight (48) hours after the oral report. Upon receipt of an electronic report, the electronic reporting system will automatically respond with a confirmation, providing the district with a written record of the report.[14][34][35]
A school employee, independent contractor or volunteer who makes a report of suspected child abuse shall immediately, after making the initial report, notify the building principal or administrator and if the initial report was made electronically, also provide the building principal or administrator with a copy of the report confirmation. The building principal or administrator shall then immediately notify the Superintendent or designee that a child abuse report has been made and if the initial report was made electronically, also provide a copy of the report confirmation.

When a report of suspected child abuse is made by a school employee, independent contractor or volunteer as required by law, the school district is not required to make more than one (1) report. An individual otherwise required to make a report who is aware that an initial report has already been made by a school employee, independent contractor or volunteer is not required to make an additional report. The person making an initial oral report is responsible for making the follow-up written electronic report within forty-eight (48) hours, and shall provide the building principal or administrator with a copy of the report confirmation promptly after the written electronic report has been filed. The building principal or administrator shall in turn provide a copy of the report confirmation to the Superintendent or designee.

When necessary to preserve potential evidence of suspected child abuse, a school employee may, after the initial report is made, in the presence of the building principal and/or the school nurse, take or cause to be taken photographs of the child who is the subject of the report. Any such photographs shall be sent to the county agency at the time the written report is sent or within forty-eight (48) hours after a report is made by electronic technologies or as soon thereafter as possible. The building principal or administrator shall be notified whenever such photographs are taken.

If the Superintendent or designee reasonably suspects that conduct being reported involves an incident required to be reported under the Safe Schools Act, the Superintendent or designee shall inform local law enforcement, in accordance with applicable law, regulations and Board policy.

Investigation

The building principal or administrator shall facilitate the cooperation with the Department of Human Services of the Commonwealth or the county agency investigating a report of suspected child abuse, including permitting authorized personnel to interview the child while in attendance at school.
Upon notification that an investigation involves suspected child abuse by a school employee, the building principal or administrator shall immediately implement a plan of supervision or alternative arrangement that has been approved by the Superintendent for the school employee under investigation. The plan of supervision or alternative arrangement shall be submitted to the county agency for approval.\[44\]

Purpose
The Board recognizes that students require adequate, nourishing food and beverages in order to grow, learn and maintain good health. The Board directs that students shall be provided with adequate space and time to eat meals during the school day.

Authority
The food service program shall be operated in compliance with all applicable state and federal laws and regulations, as well as federal guidelines established by the Child Nutrition Division of the United States Department of Agriculture (USDA).[1][2][3][4][5][6][7][8][9][10]

The district shall ensure that, in the operation of the food service program, no student, staff member, or other individual shall be discriminated against on the basis of race, color, national origin, age, sex or disability.[11][12]

Food sold by the school may be purchased by students and district employees but only for consumption on school premises. The price charged to students shall be established annually by the district in compliance with state and federal laws.[4][13]

Nonprogram food shall be priced to generate sufficient revenues to cover the cost of such items. A nonprogram food shall be defined as a food or beverage, other than a reimbursable meal or snack, that is sold at the school and is purchased using funds from the child nutrition account. Nonprogram foods include but are not limited to adult meals and a-la-carte items. All revenue from the sale of nonprogram food shall accrue to the child nutrition program account.[13][14]

Delegation of Responsibility
Operation and supervision of the food service program shall be the responsibility of the Food Services Director.
The individual responsible for the operation and supervision of the food service program shall present to the Board each month for its approval a statement of receipts and expenditures for cafeteria funds.[4]

Cafeterias shall be operated on a nonprofit basis. A periodic review of the cafeteria accounts shall be made by the Business Manager.[3][4]

The individual responsible for the operation and supervision of the food service program shall ensure that school meals meet the standards required by the School Breakfast Program, the National School Lunch Program and the Special Milk Program.[2][3][4][6][7][8][9][10]

The Superintendent or designee shall comply with state and federal requirements for conducting cafeteria health and safety inspections and ensuring employee participation in appropriate inspection services and training programs.[15][16][17][18]

The Superintendent or designee shall develop and disseminate guidelines to implement this policy.

The Superintendent or designee shall annually notify students, parents/guardians and employees concerning the contents of this policy and applicable administrative regulations. Notification shall include information related to nondiscrimination.[11]

To reinforce the district’s commitment to nutrition and student wellness, foods served in school cafeterias shall:[19]

1. Be carefully selected to contribute to students’ nutritional well-being and health.

2. Meet the nutrition standards specified in law and regulations and approved by the Board.

3. Be prepared by methods that will retain nutritive quality, appeal to students, and foster lifelong healthy eating habits.

4. Be served in age-appropriate quantities, at reasonable prices.

The district shall use USDA Foods for school menus available under the Child Nutrition USDA Foods Programs.
All funds derived from the operation, maintenance or sponsorship of the food service program shall be deposited in the separate cafeteria fund, in the same manner as other district funds. Such funds shall be expended in the manner approved and directed by the Board, but no amount shall be transferred from the cafeteria fund to any other account or fund; however, district advances to the food service program may be returned to the district's general fund from any surplus resulting from its operation.[4]

Surplus accounts shall be used only for the improvement and maintenance of the cafeteria.[4]

**Free/Reduced-Price School Meals and Free Milk**

The district shall provide free and reduced-price school meals and/or free milk to students in accordance with the terms and conditions of the National School Lunch Program, the School Breakfast Program and the Special Milk Program.[20][21]

The district shall conduct direct certification three (3) times per year using the Pennsylvania Student Eligibility System (PA-SES) to identify students who are eligible for free school meal benefits without the need for submission of a household application. Direct certification shall be conducted:[20][21]

1. At or around the beginning of the school year.

3. Six (6) months after the initial effort.

The district may also conduct direct certification on a weekly or monthly basis.

**Accommodating Students With Special Dietary Needs**

The district shall make appropriate food service and/or meal accommodations to students with special dietary needs in accordance with applicable law, regulations and Board policy.[22][23][24][25]
## School Meal Service and Accounts

To ensure the effective operation of the district’s food service program and delivery of school food program meals to students, the district shall:

1. Assign individual school meal accounts to each student for the purchase of meals served in school cafeterias, which ensure that the identity of each student is protected.

2. Notify parents/guardians when the student’s school meal account reaches a negative balance. The notice shall include information on payment options.

3. Provide a school food program meal to each student who does not have the money to pay for the school food program meal or who has a negative balance in his/her school meal account, unless the student’s parent/guardian has specifically provided written notice to the district to withhold a school food program meal.[3]

When a student owes money for five (5) or more school food program meals, the district shall make at least two (2) attempts to contact the student’s parent/guardian and shall provide the application for free/reduced-price school meal benefits to the parent/guardian to apply for benefits under federal school meal programs. The district may offer assistance to parents/guardians with applying for free/reduced-price school meal benefits.[3][20][21]

Communications regarding a low balance or money owed by a student for school meals shall be made to the student’s parent/guardian.[3]

School staff may communicate a low balance or money owed by a student for school meals to a student in grades 9-12; such communication shall be made to the individual student in a discreet manner.[3]

The district shall be permitted to contact the student’s parent/guardian by means of a letter addressed to the parent/guardian that is delivered by the student.[3]

District schools shall be prohibited from:[3]

1. Publicly identifying or stigmatizing a student who cannot pay for a school food program meal or who has a negative school meal account balance. It shall not constitute public identification or stigmatization of a student for a school to restrict privileges and activities of students who owe money for school meals if those same restrictions apply to students who owe money for other school-related purposes.
2. Requiring a student who cannot pay for a school food program meal to perform chores or other work to pay for the meal, unless chores or other work are required of all students regardless of their ability or inability to pay for a school food program meal.

3. Requiring a student to discard a school food program meal after it was served to the student due to the student’s inability to pay for the meal or due to a negative school meal account balance.

This policy and any applicable procedures or administrative regulations regarding school meal charges and school meal accounts shall be communicated annually to school administrators, school food service personnel, other appropriate school staff, and contracted food service personnel.

The district shall provide parents/guardians with a written copy of this policy and any applicable procedures or administrative regulations at the start of each school year, when a student enrolls in school after the start of the school year, and when a parent/guardian is notified of a negative school meal account balance.

The district shall annually inform parents/guardians, students and staff about the contents of this policy and any applicable procedures via the district website, student handbooks, newsletters, posted notices and/or other efficient communication methods.

Collection of Unpaid Meal Charges

Reasonable efforts shall be made by the district to collect unpaid meal charges from parents/guardians. Efforts taken in the collection shall not have a negative impact on the student involved, but shall focus primarily on the parents/guardians responsible for providing funds for meal purchases.

Procurement of goods or services for the food service program shall meet the requirements of applicable law, regulations and Board policy and procedures.\[26]\[27]\[28]
Professional Standards for Food Service Personnel

The district shall comply with the professional standards for school food service personnel who manage and operate the National School Lunch and School Breakfast Programs. For purposes of this policy, professional standards include hiring standards for new food service program directors and annual continuing education/training for all individuals involved in the operation and administration of school meal programs. Such professional standards shall apply to both district-operated food service programs and contracted food service programs.[6][7][18][29]

School Food Safety Inspections

The district shall obtain two (2) safety inspections per year in accordance with local, state, and federal laws and regulations.[16][17][30]

The district shall post the most recent inspection report and release a copy of the report to members of the public, upon request.

School Food Safety Program

The district shall comply with federal requirements in developing a food safety program that enables district schools to take systematic action to prevent or minimize the risk of foodborne illness among students.[8][10][16]

The district shall maintain proper sanitation and health standards in food storage, preparation and service, in accordance with applicable state and local laws and regulations and federal food safety requirements.[17][30][31]

# 818. CONTRACTED SERVICES PERSONNEL

**Purpose**

In its effort to provide cost-effective programs, the Board uses outside independent contractors for a variety of purposes. The district is required to ensure that such contractors comply with certain legal requirements regarding contractor employees involved in the delivery of services to the district. This policy is adopted to outline those requirements and the manner in which the district shall direct and monitor contractor compliance.

**Definition**

For purposes of this policy, **contractor employee** shall include an individual who:

1. Is employed or offered employment by an independent contractor or a subcontractor of an independent contractor, or is an individual independent contractor; and
2. Has or will have direct contact with children.

**Direct Contact with Children** - the possibility of care, supervision, guidance or control of children or routine interaction with children.[1]

For purposes of this policy, independent contractor shall mean an individual or entity that contracts with the district to provide services.

**Authority**

The district is required by law to ensure that independent contractors and contractor employees comply with the mandatory background check requirements for criminal history and child abuse certifications, the employment history review requirement, and the arrest and conviction reporting requirements.[2][3][4]
### Guidelines

Prior to using contracted services, a written contractual agreement shall be entered into between the district and the independent contractor and maintained centrally by the district in a manner similar to that for other contracts. Requests for proposals, bid specifications for proposals and resulting contracts shall specify the following:

1. Mandatory requirements for criminal history background checks, child abuse certifications, employment history reviews, and arrest and conviction reporting for contracted services involving direct contact with children, as mandated by law and set forth in this policy.\[^5\]

2. A requirement that all contracted transportation providers provide a program of drug and alcohol testing for covered drivers. A covered driver shall include any contractor employee who drives, operates or is in the actual physical control or movement of a school bus or a commercial vehicle owned, leased or operated by the independent contractor in connection with school district services.\[^6\][^7][^8][^9][^10\]

3. That failure to comply with this policy and the requirements for criminal history background checks and child abuse certifications, employment history reviews, and required reporting of employee arrests, convictions or other misconduct by an independent contractor or contractor employee shall be grounds for termination of the contract.

The Superintendent or designee shall review all information provided pursuant to this policy and determine if information is disclosed that precludes employment or continued service of an independent contractor or contractor employee.\[^2\][^3][^4][^5][^11\]

Information submitted by an independent contractor or contractor employee in accordance with this policy shall be maintained centrally in a manner similar to that for school employees.

### Pre-Employment Requirements

#### Employment History Review -

Independent contractors shall conduct an employment history review, in compliance with state law, prior to assignment of a contractor employee to perform work for the district in a position or assignment involving direct contact with children. The independent contractor may use the information for the purpose of evaluating an applicant’s fitness to be hired or for continued employment of a current contractor employee and may report the information as permitted by law.\[^4\]
Independent contractors shall inform the district, in writing, upon receipt of an affirmative response to any of the abuse and sexual misconduct background questions for a contractor employee. If the district objects to the assignment, the independent contractor may not assign the contractor employee to the district.[4]

Independent contractors shall, upon request, provide the district to which a contractor employee is assigned access to the employee’s employment history review records.

Contractor employees shall report, on the designated form, all arrests and convictions as specified on the form. Contractor employees shall likewise report arrests and/or convictions that occur subsequent to initially submitting the form. Failure to accurately report such arrests and convictions may subject the individual to denial of employment/contract, termination if already hired/contracted, and/or criminal prosecution.[3]

**Tuberculosis Test** -

Contractor employees providing services for students shall undergo a test for tuberculosis in accordance with the regulations and guidance of the Pennsylvania Department of Health.[12][13]

**Arrest and Conviction Reporting Requirements**

All independent contractors shall adopt policies and procedures that require their employees, who are providing services to the district and who have direct contact with children, to notify the independent contractor, in writing, within seventy-two (72) hours of the occurrence, of an arrest or conviction required to be reported by law. Contractor employees shall also be required to report to the independent contractor, within seventy-two (72) hours of notification, that the employee has been named as a perpetrator in a founded or indicated report pursuant to the Child Protective Services Law. The policies and procedures shall also include the provision that the failure on the part of contractor employees to make such a timely notification shall subject them to disciplinary action, including termination.[3][11]
If the independent contractor receives notice of such arrest or conviction or that the contractor employee has been named as a perpetrator in a founded or indicated report, from either the contractor employee or a third party, the independent contractor shall immediately report, in writing, that information to the Superintendent or designee.

The independent contractor shall immediately require a contractor employee to submit new certifications when there is a reasonable belief that the employee was arrested for or has been convicted of an offense required to be reported by law, was named as a perpetrator in a founded or indicated report, or has provided written notice of such occurrence.

Contractor employees who provide transportation services shall immediately notify the independent contractor and the district’s transportation supervisor of any traffic citations or the suspension, revocation or cancellation of operating privileges.

**Educator Misconduct**

Contractor employees shall attend orientation and training sessions, as appropriate to the nature of their service. When training is provided for school employees relating to the legal obligations of employers and educational institutions, consideration shall be given to which contractor employees should also receive that training.

**Child Abuse Reporting**

All contractor employees who have reasonable cause to suspect that a child is the victim of child abuse shall make a report of suspected child abuse in accordance with applicable law, Board policy and administrative regulations.[18][20]

**Confidentiality**

No contractor employee shall be permitted access to confidential student information unless the district has determined that such access is necessary for the contractor employee to fulfill his/her responsibilities. Contractor employees with access to confidential student information shall maintain the confidentiality of that information in accordance with Board policies and procedures and applicable law. If a contractor employee has questions about the confidentiality of student information, the contractor employee should consult with the building principal.[21][22]

## 822. AUTOMATED EXTERNAL DEFIBRILLATOR (AED)/CARDIOPULMONARY RESUSCITATION (CPR)

### 1. Purpose
The Board is committed to providing a safe and healthy environment for the school community.

Maintaining automated external defibrillator (AED) units and staff trained in cardiopulmonary resuscitation (CPR) in the schools enables responders to deliver early defibrillation and resuscitation to victims.

### 2. Authority
Except in extenuating circumstances, each school shall have one (1) person certified in the use of cardiopulmonary resuscitation (CPR) during regular school hours when school is in session and students are present.[1]

The automated external defibrillator (AED) units are owned by the district and shall be properly maintained and located in secure and accessible locations.

The automated external defibrillator (AED) units shall be used in accordance with approved district procedures.

### 3. Guidelines
A Core Team shall be trained in CPR and AED procedures by completing a training program offered by approved providers. Members of the team shall be provided opportunities for annual training and retraining.

Written guidelines for medical emergencies related to the use of automated external defibrillator (AED) units shall be provided to all members of the core team.

Responders’ use of automated external defibrillator (AED) units shall not replace the care provided by emergency medical services (EMS) providers. Patient care shall be transferred to the EMS providers upon their arrival.
4. **Delegation of Responsibility**

The Superintendent or designee shall develop and disseminate administrative regulations that detail the use of automated external defibrillator (AED) units. Automated external defibrillator (AED) units may be used by all members of the district’s core team who have successfully completed training and any trained volunteer who has a current course completion card.

SCHOOL DISTRICT  

SECTION: OPERATIONS  
TITLE: NALOXONE  
ADOPTED: June 9, 2016  
REVISED: August 9, 2017  

1. Authority  
35 P.S.  
Sec. 780-113.7, 780-113.8  

As a means of enhancing the health and safety of its students, staff and visitors, the district may obtain, maintain and administer doses of an opioid antagonist and other facilities, specifically Naloxone, for emergency use to assist a student, staff member or other individual believed or suspected to be experiencing an opioid overdose.

2. Definitions  
35 P.S.  
Sec. 780-113.7  

**Drug overdose** - shall mean an acute medical condition, including, but not limited to, severe physical illness, coma, mania, hysteria or death, which is the result of consumption or use of one or more controlled substances causing an adverse reaction. An individual's condition may be deemed to be a drug overdose if a prudent person, possessing an average knowledge of medicine and health, would reasonably believe that the condition is in fact a drug overdose and requires immediate medical attention.

**Naloxone** - shall mean a medication that can reverse an overdose caused by an opioid drug. As a narcotic antagonist, Naloxone displaces opiates from receptor sites in the brain and reverses respiratory depression that usually is the cause of overdose deaths.

**Opioid** - shall mean illegal drugs such as heroin, as well as prescription medications used to treat pain such as morphine, codeine, methadone, oxycodone, hydrocodone, fentanyl, hydromorphone, and buprenorphine.

3. Delegation of Responsibility  

The Superintendent or designee, in consultation with the school nurse(s) and the school physician, shall establish appropriate internal procedures for the acquisition, stocking and administration of Naloxone and related emergency response procedures pursuant to this policy.

The school physician shall be the prescribing and supervising medical professional for the district’s stocking and use of Naloxone. The Superintendent or designee shall obtain a standing order from the school physician for administration of Naloxone.

The school nurse shall be responsible for building-level administration of Naloxone and management of Naloxone stocks.
The school nurse shall develop a plan for annually informing all parents/guardians, students and staff about this policy and specifically:

1. The availability of Naloxone to treat opioid drug overdoses and what it does;
2. The symptoms of opioid drug overdoses;
3. How students and staff should report suspected overdoses;
4. The protection from criminal prosecution provided by law for persons who report a suspected overdose using their real name and remain with the overdosing person until emergency medical services (EMS) or law enforcement arrive, as well as for the person whose overdose they report; and
5. The protection from civil liability provided by law for persons who report overdoses or administer Naloxone in overdose emergencies.

Standing Order From the School Physician

The school physician shall provide and annually renew a standing order for administration of Naloxone to students, staff members or other individuals believed or suspected to be experiencing an opioid overdose.

The standing order shall include at least the following information:

1. Type of Naloxone (intranasal and auto-injector).
2. Date of issue.
3. Dosage.
4. Signature of the school physician.

The standing order shall be maintained in the Superintendent’s office, and copies of the standing order shall be kept in each location where Naloxone is stored.

Training

Before any school district employee may have custody of Naloxone or administer Naloxone under this policy, the employee must successfully complete an online Pennsylvania Department of Health training program about recognizing opioid-related overdoses, administering Naloxone and promptly seeking medical attention for drug overdoses. Evidence that such training has been completed shall be placed in the employee’s personnel file.
A list of school district employees who successfully complete such training shall be maintained, updated and kept in the school nurse’s office and the school district administration office.

**Acquisition, Storage and Disposal**

Naloxone shall be safely stored in the school nurse’s office or other location designated by the school nurse in accordance with the drug manufacturer’s instructions.

Naloxone shall be made readily accessible to those employees who have completed the required training to administer it in the event of a suspected drug overdose. All properly trained employees shall be informed of the exact location where Naloxone is being stored within the school nurse’s office or other location.

The school nurse shall obtain sufficient supplies of Naloxone pursuant to the standing order in the same manner as other medical supplies acquired for the school health program. The school nurse or designee shall regularly inventory and refresh Naloxone stocks, and maintain records thereof, in accordance with the established internal procedures, manufacturer recommendations and Department of Health Guidelines.

**Administration of Naloxone**

When responding to a suspected drug overdose, district employees shall follow the steps outlined below:

1. Call for medical help immediately (Dial 9-1-1).
2. Check for signs of opioid overdose.
3. Perform initial rescue breathing (or CPR if needed), as instructed in training.
4. Administer Naloxone, as instructed in training.
5. Continue rescue breathing (or CPR if needed), as instructed in training.
6. Administer second dose of Naloxone if needed, as instructed in training.
7. Place in recovery position, as instructed in training.
8. Stay with the individual until emergency medical help arrives.
9. Cooperate with EMS personnel responding to the incident.
10. Notify the building administrator or designee of the incident.

**Referral to Law Enforcement and Parental Notification**

| SC 1302.1-A, 1303-A | The Superintendent or designee shall immediately report incidents involving the use of controlled substances on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity, to the local police department that has jurisdiction over the school’s property, in accordance with state law and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies. |
| Title 22 Sec. 10.2, 10.21, 10.22 Pol. 227, 805.1 |

| Title 22 Sec. 10.2, 10.25 Pol. 227, 805.1 |
| The Superintendent or designee shall notify the parent/guardian of any student directly involved in an incident involving use of controlled substances immediately, as soon as practicable. The Superintendent or designee shall inform the parent/guardian whether or not the local police department that has jurisdiction over the school property has been or may be notified of the incident. The Superintendent or designee shall document attempts made to reach the parent/guardian. |

**Referral to Student Assistance Program**

| Pol. 236 |
| Any student who experiences a drug overdose shall be referred to the district’s Student Assistance Program. |

**Indemnification**

| 35 P.S. Sec. 780-113.8 42 Pa C.S.A. Sec. 8547, 8548 |
| The school district shall indemnify and hold harmless any employee who administers Naloxone in good faith to another individual experiencing a suspected drug overdose, if all of these conditions apply: |

1. The employee did not act with the intent to harm or with reckless indifference to a substantial risk or harm in administering Naloxone to that individual.

2. The employee successfully completed the training contemplated by this policy.

3. The employee promptly sought additional medical assistance before or immediately after administering Naloxone.

4. The employee is administering Naloxone pursuant to this policy.

### 824. MAINTAINING PROFESSIONAL ADULT/STUDENT BOUNDARIES

#### 1. Authority

This policy applies to district employees, volunteers, student teachers, and independent contractors and their employees who interact with students or are present on school grounds. For purposes of this policy, such individuals are referred to collectively as **adults**. The term **adults** as used in this policy, does not include district students who perform services on a volunteer or compensated basis.

All adults shall be expected to maintain professional, moral and ethical relationships with district students that are conducive to an effective, safe learning environment. This policy addresses a range of behaviors that include not only obviously unlawful or improper interactions with students, but also precursor grooming and other boundary-blurring behaviors that can lead to more egregious misconduct.

The Board directs that all adults shall be informed of conduct that is prohibited and the disciplinary actions that may be applied for violation of Board policies, administrative regulations, rules and procedures.

The District recognizes that certain staff members reside in our community and, as such, engage in non-school-related communications, e.g., yardwork, babysitting, etc., and those types of personal communications are not covered by this policy, and the District assumes no responsibility for such communications. Inappropriate communications may, however, violate other policies or laws. This policy is not intended to interfere with appropriate pre-existing personal relationships between or among adults and students and their families that exist independently of the District nor should it interfere with participation in civic, religious or other outside organizations that include District students.
### 2. Definition

For purposes of this policy, **legitimate educational reasons** include matters or communications related to teaching, counseling, athletics, extracurricular activities, treatment of a student’s physical injury or other medical needs, school administration or other purposes within the scope of the adult’s job duties.

### 3. Delegation of Responsibility

The Superintendent or designee shall annually inform students, parents/guardians, and all adults regarding the contents of this Board policy through employee and student handbooks, posting on the district website, and by other appropriate methods.

The building principal or designee shall be available to answer questions about behaviors or activities that may violate professional boundaries as defined in this policy.

**Pol. 818**

Independent contractors doing business with the district shall ensure that their employees who have interaction with students or are present on school grounds are informed of the provisions of this policy.

### 4. Guidelines

Adults shall establish and maintain appropriate personal boundaries with students and not engage in any behavior that is prohibited by this policy or that creates the appearance of prohibited behavior.

**Prohibited Conduct**

*Romantic or Sexual Relationships –*

Adults shall be prohibited from dating, courting, or entering into or attempting to form a romantic or sexual relationship with any student enrolled in the district, regardless of the student’s age. Students of any age are not legally capable of consenting to romantic or sexual interactions with adults.

Prohibited romantic or sexual interaction involving students includes, but is not limited to:

1. Sexual physical contact.
2. Romantic flirtation, propositions, or sexual remarks.
3. Sexual slurs, leering, epithets, sexual or derogatory comments.
4. Personal comments about a student’s body of a sexually suggestive nature.
5. Sexual jokes, notes, stories, drawings, gestures or pictures.
6. Spreading sexual or romantic rumors.

7. Touching a student’s body or clothes in a sexual or intimate way.

8. Accepting massages, or offering or giving massages other than in the course of injury care administered by an athletic trainer, coach, or health care provider.

9. Restricting a student’s freedom of movement in a sexually intimidating or provocative manner.

10. Displaying or transmitting sexual objects, pictures, or depictions.

Social Interactions –

In order to maintain professional boundaries, adults shall ensure that their interactions with students are appropriate.

Examples of prohibited conduct that violates professional boundaries include, but are not limited to:

1. Disclosing personal, sexual, family, employment concerns or other private matters to one or more students in a non-instructional context.

2. Exchanging notes, emails or other communications of a personal nature with a student.

3. Giving personal gifts, cards or letters to a student without knowledge of the building principal.

4. Touching students without a legitimate educational reason. (Reasons could include the need for assistance when injured, a kindergartner having a toileting accident and requiring assistance, appropriate coaching instruction, or appropriate music instruction).

5. Singling out a particular student or students for personal attention or friendship beyond the ordinary professional adult-student relationship.

6. Taking a student out of class without a legitimate educational reason.

7. Being alone with a student behind closed doors without a legitimate educational reason.

8. Initiating or extending contact with a student beyond the school day or outside of class times without a legitimate educational reason.
9. Sending or accompanying a student on personal errands outside of the school setting.

10. Inviting a student to the adult’s home.

11. Going to a student’s home without a legitimate educational reason.

12. Taking a student on outings without prior notification to and approval from both the parent/guardian and the building principal.

13. Giving a student a ride alone in a vehicle in a nonemergency situation without prior notification to and approval from both the parent/guardian and a District administrator.

14. Addressing students or permitting students to address adults with personalized terms of endearment, pet names, or otherwise in an overly familiar manner.

15. Telling a student personal secrets or sharing personal secrets with a student.

16. For adults who are not guidance/counseling staff, psychologists, social workers or other adults with designated responsibilities to counsel students, encouraging students to confide their personal or family problems and/or relationships. If a student initiates such discussions, the student should be referred to the appropriate school resource.

17. Furnishing alcohol, drugs or tobacco to a student or being present where any student is consuming these substances.

18. Engaging in harassing or discriminatory conduct prohibited by other district policies or by state or federal law and regulations.

19. Electronic Communications –

For purposes of this policy, electronic communication shall mean a communication transmitted by means of an electronic device including, but not limited to, a telephone, cellular telephone, computer, computer network, personal data assistant or pager. Electronic communications include, but are not limited to, emails, instant messages and communications made by means of an Internet website, including social media and other networking websites.

As with other forms of communication, when communicating electronically, adults shall maintain professional boundaries with students.
Electronic communication with students shall be for legitimate educational reasons only.

When available, district-provided email or other district-provided communication devices shall be used when communicating electronically with students. The use of district-provided email or other district-provided communication devices shall be in accordance with district policies and procedures.

All electronic communications from coaches and advisors to team or club members shall be sent in a single communication to all participating team or club members, except for communications concerning an individual student’s medical or academic privacy matters, in which case the communications will be copied to the building principal and/or the student’s parent. In the case of sports teams under the direction of the Athletic Director, such medical or academic communications shall also be copied to the Athletic Director.

Adults shall not follow or accept requests for current students to be friends or connections on personal social networking sites and shall not create any networking site for communication with students other than those provided by the district for this purpose, without the prior written approval of the building principal.

**Exceptions**

An emergency situation or a legitimate educational reason may justify deviation from professional boundaries set out in this policy. The adult shall be prepared to articulate the reason for any deviation from the requirements of this policy and must demonstrate that s/he has maintained an appropriate relationship with the student.

Under no circumstance will an educational or other reason justify deviation from the "Romantic and Sexual Relationships" section of this policy.

There will be circumstances where personal relationships develop between an adult and a student’s family, e.g., when their children become friends. This policy is not intended to interfere with such relationships or to limit activities that are normally consistent with such relationships. Adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity.
It is understood that many adults are involved in various other roles in the community through nondistrict-related civic, religious, athletic, scouting or other organizations and programs whose participants may include district students. Such community involvement is commendable, and this policy is not intended to interfere with or restrict an adult’s ability to serve in those roles; however, adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity with regard to all youth with whom they interact in the course of their community involvement.

### Reporting Inappropriate or Suspicious Conduct

Any person, including a student, who has concerns about or is uncomfortable with a relationship or interaction between an adult and a student, shall immediately notify the Superintendent, principal or other administrator.

| 23 Pa. C.S.A.  |
| Sec. 6311     |
| Pol. 806      |

All district employees, independent contractors and volunteers who have reasonable cause to suspect that a child is the victim of child abuse, shall immediately report the suspected abuse, in accordance with applicable law, regulations and Board policy.

| 24 P.S.     |
| Sec. 2070.9a |
| Pol. 317.1, 805.1, 806 |

If the Superintendent or designee reasonably suspects that conduct being reported involves an incident required to be reported under the Child Protective Services Law, the Educator Discipline Act or the Safe Schools Act, the Superintendent or designee shall make a report, in accordance with applicable law, regulations and Board policy.

It is a violation of this policy to retaliate against any person for reporting any action pursuant to this policy or for participating as a witness in any related investigation or hearing.
Investigation

Allegations of inappropriate conduct shall be promptly investigated in accordance with the procedures utilized for complaints of harassment.

It is understood that some reports made pursuant to this policy will be based on rumors or misunderstandings; the mere fact that the reported adult is cleared of any wrongdoing shall not result in disciplinary action against the reporter or any witnesses. If as the result of an investigation any individual, including the reported adult, the reporter, or a witness is found to have intentionally provided false information in making the report or during the investigation or hearings related to the report, or if any individual intentionally obstructs the investigation or hearings, this may be addressed as a violation of this policy and other applicable laws, regulations and district policies. Obstruction includes, but is not limited to, violation of “no contact” orders given to the reported adult, attempting to alter or influence witness testimony, and destruction of or hiding evidence.

Disciplinary Action

A district employee who violates this policy may be subject to disciplinary action, up to and including termination, in accordance with all applicable district disciplinary policies and procedures.

A volunteer, student teacher, or independent contractor or an employee of an independent contractor who violates this policy may be prohibited from working or serving in district schools for an appropriate period of time or permanently, as determined by the Superintendent or designee.

Training

The district shall provide training from time to time with respect to the provisions of this policy to current and new district employees, volunteers and student teachers subject to this policy.

The district, at its sole discretion, may require independent contractors and their employees who interact with students or are present on school grounds to receive training on this policy and related procedures.

825. REASONABLE USE OF FORCE

Purpose

The purpose of this policy is to provide the School Police Officer with a clear and consistent understanding of his/her performance expectations when force is asserted, upon any person, especially with respect to students. In addition, this policy addresses authorized weapons, respective training, and the reporting requirements when the use of force is asserted, as a result of threatened and/or assaultive behavior of an individual that risks physical injury to himself or others.

This policy is not intended to create or affect an officer’s alleged liability in any criminal or civil court proceeding. This policy is not intended to establish a higher standard of safety or care in regulating employee actions as they may pertain in cases of third party claims. It is understood that no set of policies or procedures can effectively address every possible scenario a School Police Officer may encounter and that the judgment and discretion of the individual School Police Officer necessarily govern the decision-making utilized in use of force incidents.

When using reasonable force against a subject, the School Police Officer must have a sound and articulable reason for doing so as determined by the totality of the circumstances confronting the officer.

Policy

The primary purpose of a School Police Officer at the Freeport Area School District is to promote the safety of students, staff and visitors. This includes the safety of any student who needs to be controlled by the officer. Accordingly, a School Police Officer shall use only that force that is reasonably necessary to protect persons from immediate risk of injury.

Definitions

Use of Force: Use of force is the amount of effort required by the School Police Officer to compel compliance from a person in order to protect the individual or others from serious bodily injury. Force used must be “objectively reasonable” based on the facts and circumstances confronting the officer and judged from the perspective of a reasonable officer on the scene.
**Deadly force:** Any force, which, under the circumstances in which it is used, is readily capable of causing death or serious bodily injury. 18 Pa.C.S.A. § 501.

**Non-Lethal force:** Any force other than that which is considered deadly force.

**Serious bodily injury:** Bodily injury that creates a substantial risk of death or which causes permanent disfigurement, or protracted loss or impairment of the function of any bodily member or organ.

**Objectively Reasonable:** In determining the necessity for force and the appropriate level of force, officers shall objectively evaluate each situation in light of the known facts and circumstances, including, but not limited to, the seriousness of the situation and risk of injury to others, the level of threat or resistance presented by the subject and the danger to the community.

**Excessive Force:** Physical force that exceeds the degree permitted by law or the policies and guidelines of the Freeport Area School District. A school police officer shall not apply physical force to a person who has been rendered incapable of inflicting harm on himself or others.

**Use of Force Statutory Justification**

The Pennsylvania Crimes Code, Title 18, Chapter 5, “General Principles of Justification”, describes those circumstances in which the use of force is justified. Relevant sections within that chapter include, but are not necessarily limited to:

- 18 Pa.C.S.A. § 505 - Use of Force in Self-Protection
- 18 Pa.C.S.A. § 506 - Use of Force for the Protection of Other Person
- 18 Pa.C.S.A. § 508 - Use of Force in Law Enforcement

These provisions establish the legally binding restrictions regarding the use of force by Freeport Area School District’s School Police Officers as it relates to criminal or enforceable civil matters. All officers are responsible for the review and knowledge of these Pennsylvania Statutes.

**Use of Force Continuum**

School Police Officers are permitted to use the degree of force objectively reasonable to accomplish the lawful objective of providing a safe and secure school environment. The general progression of force can be depicted with the following levels except as the specific circumstances encountered otherwise may require:
### Level 1

Officer Presence - Identification of authority through school police officer in uniform.

Verbal commands - Dialogue of commands of direction or arrest. Verbal commands should be used in conjunction with all levels of force). Commands issued to a student shall appropriately reflect the student’s age and intelligence level, and shall not consist of taunting, name-calling, threats, or cursing directed at the student. Warnings should be issued to the student each time a School Police Officer intends to escalate the level of force (e.g., “Stop this behavior or I will escort you to the principal’s office”; “If you do not stop punching/kicking immediately, I will restrain your arms/legs”).

### Level 2

Minimal Restraint and Control - Soft empty hand or balance displacement control techniques that have minimal probability of injury if the subject resists (i.e. holding/grasping/cuffing/escorting, etc.)

### Level 3

Physical Commands (Take downs, Joint Manipulation/Pressure Point, Control Tactics, Striking Muscle Groups) - Control techniques that include pain compliance techniques to the subject that present minimal potential of injury to the subject. The strikes should be aimed at major muscle masses of the subject’s body.

### Level 4

Striking/Punching/Kicking - Control techniques with the officer’s open hand, clenched fist, forearm or leg that have a greater potential of injury to the subject.

Baton Restraints - Use of the baton as a controlling device (joint manipulation) not as an impact weapon.

### Level 5

Baton strikes - Less lethal option for use against violent/aggressive subjects not armed with firearms.

### Level 6

Deadly force - Force that, under the circumstances in which it is to be used is readily capable of causing death or serious bodily injury.
Use of Force Guidelines

The School Police Officer’s degree of force used in subduing a student or other person shall be based on the totality of the circumstances, including: 1) the severity of any crime at issue, 2) the immediate threat to the safety of the officer or others that the student poses, 3) whether the student or other person is resisting or evading the officer, 4) how violent or dangerous the officer perceives the student or other person to be, based on the student’s or person’s age, size, mental and physical capacity, 5) the duration of the force, 6) whether the force was used in making an arrest, 7) whether the student or other person might be armed or carrying some other weapon, and 8) the number of people with whom the officer must contend. Once a School Police Officer has affected control of a situation he/she shall de-escalate to the lowest level of force necessary to maintain control of the situation/subject.

The Use of Force Continuum options are not absolute. The ability to escalate or de-escalate is imperative. The standard by which use of force decisions are made is the totality of the circumstance, which includes, but is not limited to the following factors:

a) Officer vs. Subject factors
   - Age
   - Size
   - Skill level

b) Special Circumstances
   - Close proximity to a firearm/other weapon
   - Special knowledge as to the subject
   - Injury to or exhaustion of officer
   - Officer forced to the ground or other vulnerable position
   - Disability of officer
   - Imminent danger to officer or another

In using any level of force, with respect to secondary students, a School Police Officer shall at all times be cognizant of the age, grade level, size and physical and mental capacity of the student. In general, the policy of the Freeport Area School District is to avoid the use of any device with respect to any student whose actions do not constitute an immediate threat of serious bodily injury to himself or another.

Restraint Devices and Procedures

Upon prior authorization by the Superintendent, a School Police Officer while on duty may carry handcuffs, as well as, “flex cuffs,” leg shackles or similar restraining devices.
The use of handcuffs, leg shackles and other restraining devices constitutes a level of force and should only be used as necessary to restrain an individual in order to affect control of a situation. Under no circumstances should those devices be used as a form of punishment. Handcuffs and other restraints should be used as a last resort to subdue or escort a student or subject and should never be utilized as a scare tactic, to embarrass the student or to “teach a student a lesson.”

Typically, handcuffs are to be used behind the back. School Police Officers are permitted to handcuff an individual’s hands in front, if used in conjunction with other restraining devices, (i.e.) restraining belt/chain and/or leg shackles. Exigencies may arise that prohibit a subject from being handcuffed in this manner, such as a person with injuries that could be aggravated by standard handcuffing procedures. At no time should a School Police Officer handcuff a person to themselves.

When it is necessary for the School Police Officer to use his/her body weight to subdue and/or restrain an individual, the School Police Officer, once the individual is controlled, should quickly remove his weight to allow the individual to breathe freely and to avoid the possibility of positional asphyxia, which is death from lack of oxygen. School Police Officers should attempt to get the individual into a sitting or standing position or, at the very minimum, roll the individual on to his side, as soon as possible.

Non-Lethal Force Equipment

The Freeport Area School District recognizes that combative, non-compliant, armed and/or violent subjects may cause control problems that necessitate the use of non-lethal equipment, such as tasers, pepper spray and batons. Such less than lethal force equipment may be used to assist with the control and de-escalation of these potentially violent confrontations to lessen the likelihood of serious bodily injury or death to the School Police Officer or combative subject or other persons. Where deadly force is not authorized, the School Police Officer should assess the incident in order to determine which non-lethal technique or equipment may best de-escalate the incident and bring it under control in a safe manner.

Use of Batons

Upon prior authorization by the Superintendent, a School Police Officer while on duty may carry a baton, which shall be carried in a black scabbard. The School Police Officer must receive annual training and certification by a certified baton instructor to be authorized to carry this device.
The deployment and delivery of the baton should be to the following areas:

a) **Primary Target, major muscle masses:** The primary target areas are the major muscle masses, those being the forearm, thigh and calf. Impact strikes to the District mass of these primary areas, have a low probability of injury to the subject and normally create severe muscle cramping which inhibits the subject’s ability to continue their aggression.

b) **Secondary target areas, joints and bones:** If primary areas are unavailable or unreasonable officers shall target the District mass of joints or bones. For example, elbows, wrists and knees. These areas carry a high probability of creating damage to the soft or connecting tissues as well as bone fractures.

c) **Deadly force targets:** include the face, neck, head, chest, spine, and lower back, which are very likely to cause death/serious injury and shall be avoided unless deadly force is authorized, necessary and reasonable in accordance with Freeport Area School District policy and applicable law.

The use of alternative impact devices (i.e. flashlight, broom handle, stick, etc.) shall be permitted in the event that the School Police Officer’s use of their primary impact device is not feasible, malfunctions, or is unavailable. When an alternative impact device is used it shall be used in the same manner as prescribed in this section.

As with any other use of force options, application of impact devices will cease when the offender stops resistance or aggression, or when the School Police Officer has gained sufficient control of the subject. The subject is to be immediately restrained when the situation is stabilized. The School Police Officer shall check the subject for obvious injuries and summon medical assistance and/or render first aid when appropriate.

**Use of Tasers**

Upon prior authorization by the Superintendent, a School Police Officer while on duty may carry a conductive electrical weapon (taser), which shall be carried in an appropriate holster. The School Police Officer must receive annual training and certification to be authorized to carry this device.
A taser may be used to control a subject when the School Police Officer reasonably perceives that he/she or another person is threatened with serious bodily injury or to control a threatening subject when deadly force is not justified and attempts to control the subject by other tactics are ineffective or if there is a reasonable expectation that it is unsafe for School Police Officers to approach within contact range of a subject.

When using a taser, the size, weight, and age of the subject should be considered. The School Police Officer should avoid targeting the eyes, face, groin and breasts and should attempt to target the taser in a less sensitive area of the person’s body. The minimal number of tases should be used to subdue the subject. If possible under the circumstances, a warning should be given to the person if the School Police Officer anticipates use of the taser is imminent.

Once the subject is restrained or in custody, the taser probes should be promptly removed from the subject. The School Police Officer shall check the subject for obvious injuries and summon medical assistance and/or render first aid when appropriate.

Use of Deadly Force

A School Police Officer is justified to use deadly force and/or discharge weapons when he/she reasonably believes that the action is in defense of human life, including the officer’s own life, or in defense of any person in imminent danger of serious bodily injury or death. Officers shall give due consideration to their weapon system being used and their potential limitations when deployed in specific environments or situations.

An officer must reasonably believe that subject has the OPPORTUNITY to cause death or serious bodily injury to the officer or another person; the officer must reasonably believe the subject has the ABILITY to cause death or serious bodily injury to the officer or another person; and the officer must reasonably believe that the officer’s life or the life of another person is in JEOPARDY of death or serious bodily injury.

Lethal Weapons - Prohibited Use

The School Police Officer is prohibited from discharging firearms under the following circumstances:

a) When it is probable that an innocent bystander(s) is likely to be injured by the School Police Officer’s firearm discharge, directly or indirectly.
b) *Firing Warning Shots*-Defined as discharging any firearm into the air or ground (i.e., “warning shots”) in an attempt to cause a fleeing suspect to stop or surrender.

c) To protect or preserve property.

d) To obtain compliance of a subject that does not present an imminent threat to cause serious bodily injury to another person.

Except during general maintenance, storage, inspections or authorized training, an officer shall not draw or exhibit an authorized firearm unless under circumstances which create reasonable cause to believe it may be necessary to lawfully use such firearm in conformance with law and this policy.

In the event the School Police Officer is involved in a firearm discharge, he/she shall determine the physical condition of any injured party and immediately summon medical assistance and/or render first aid when appropriate. All discharged weapons and ammunition shall be immediately delivered to the custody of the Superintendent or his/her designee for investigation purposes.

**Firearms Possession**

While on duty, a School Police Officer shall carry his/her issued handgun fully loaded and all other related equipment.

The School Police Officer shall annually complete any training required to maintain or renew certification to carry firearms.

In the event that a School Police Officer loses or has stolen his/her firearm and/or any other firearm authorized for duty use, he/she shall immediately notify the Superintendent and the Superintendent of Record of such loss or theft and have the incident documented accordingly.

**Reporting Procedures**

The School Police Officer shall complete and submit to the Superintendent a written incident report whenever he/she:

- a) Takes an action which results in, or is alleged to have resulted in injury to or the death of another person.

- b) Applies force on another person through the means of lethal or non-lethal force no matter if injury occurs or not.
825. REASONABLE USE OF FORCE

c) Applies force of Level 2 or greater from the Use of Force Continuum: relating to takedowns, joint manipulations, pepper spray, Pain/Mechanical Compliance, or Deadly Force, in an effort to control subject(s).

An incident report will also be completed, and will include a detailed description of the incident describing the actions of both the suspect(s) and the School Police Officer.

Each discharge of a firearm while on duty shall be reported to the Superintendent and the Superintendent of Record whether or not someone is injured by such discharge. A written report shall be made as soon as the circumstances permit. A complete investigation will be conducted into any discharge of a firearm by the School Police Officer in the course of his/her duties.

830. BREACH OF COMPUTERIZED PERSONAL INFORMATION

1. Purpose
With the increased reliance upon electronic data, and the maintenance of personal information of students and employees in electronic format, the Board is concerned about the risk of a breach in the district’s electronic system security and the possible disclosure of personal information. This policy addresses the manner in which the district will respond to unauthorized access and acquisition of computerized data that compromises the security and confidentiality of personal information.

2. Authority
73 P.S.
Sec. 2301 et seq

The Board directs that district administrators shall provide appropriate notification of any computerized system security breach to any state resident whose unencrypted and unredacted personal information was or is reasonably believed to have been accessed or acquired by unauthorized persons.

3. Definitions
73 P.S.
Sec. 2302

Breach of the system’s security - unauthorized access and acquisition of computerized data that materially compromises the security or confidentiality of personal information maintained by the district as part of the database of personal information regarding multiple individuals and that the district reasonably believes has caused or will cause loss or injury to any state resident. Good faith acquisition of personal information by an employee or agent of the school district for the purpose of the district is not a breach of the security of the system if the personal information is not used for a purpose other than the lawful purpose of the district and is not subject to further unauthorized disclosure.

Individual - means any natural person, not an entity or company.

Personal information - includes an individual’s first initial and last name in combination with and linked to any one or more of the following, when not encrypted or redacted:

1. Social security number.
2. Driver’s license number or state identification card number issued instead of a driver’s license.

3. Financial account number, credit or debit card number, in combination with any required security code, access code or password that would permit access to an individual’s financial account.

**Pol. 801**

*Personal information* does not include publicly available information that is lawfully made available to the general public from federal, state or local government records.

**73 P.S. Sec. 2302**

*Records* - means any material, regardless of its physical form, on which information is recorded or preserved by any means, including written or spoken words, graphically depicted, printed or electromagnetically transmitted. This term does not include publicly available directories containing information that an individual has voluntarily consented to have publicly disseminated or listed, such as name, address or telephone number.

**4. Delegation of Responsibility**

**73 P.S. Sec. 2303**

The Superintendent or designee shall ensure that the district provides notice of any system security breach, following discovery, to any state resident whose unencrypted and unredacted personal information was or is reasonably believed to have been accessed and acquired by an unauthorized person. Such notice shall be made without a reasonable delay, except when a law enforcement agency determines and advises the district in writing that the notification would impede a criminal or civil investigation, or the district must take necessary measures to determine the scope of the breach and to restore the reasonable integrity of the data system. The district will also provide notice of the breach if the encrypted information is accessed and acquired in an unencrypted form, if the security breach is linked to a breach of security of the encryption, or if the security breach involves a person with access to the encryption key.

## 903. PUBLIC PARTICIPATION IN BOARD MEETINGS

### 1. Purpose

The Board recognizes the value to school governance of public comment on educational issues and the importance of involving members of the public in Board meetings. The Board also recognizes its responsibility for proper governance of the district and the need to conduct its business in an orderly and efficient manner.

### 2. Authority

- **65 Pa. C.S.A. Sec. 710**
  - The Board adopts this policy to govern public participation in Board meetings necessary to conduct its meeting and to maintain order.

- **65 Pa. C.S.A. Sec. 710.1**
  - In order to permit fair and orderly expression of public comment, the Board shall provide an opportunity at each open meeting of the Board for residents and taxpayers to comment on matters of concern, official action or deliberation before the Board prior to official action by the Board.
  - Public participation shall be permitted only as indicated on the order of business for the meeting and/or at the discretion of the presiding officer on a given issue.

- **65 Pa. C.S.A. Sec. 710.1**
  - If the Board determines there is not sufficient time at a meeting for public comments, the comment period may be deferred to the next regular meeting or to a special meeting occurring before the next regular meeting.

### 3. Delegation of Responsibility

- **SC 407 Pol. 006**
  - The presiding officer at each public Board meeting shall follow Board policy for the conduct of public meetings. Where his/her ruling is disputed, it may be overruled by a majority of those Board members present and voting.
### 4. Guidelines  
**Pol. 219, 326, 906**

Whenever issues identified by the participant are subject to remediation under policies and procedures of the Board, they shall be dealt with in accordance with those policies and procedures and the organizational structure of the district. The initial discussion of such matters is not permitted during the public comment period. This process is necessary to allow the administration the opportunity to investigate, verify relevant facts and resolve such matters in a manner that safeguards confidential information and the privacy of those concerned. If the required administrative complaint procedures have been exhausted without resolution of the complaint, the Board may allow comment at any appropriate meeting or executive session. The presiding officer may interrupt or terminate a participant's statement that does not comply with this provision.

5. Waive these rules with the approval of the Board.

The portion of the meeting during which the public is invited to speak shall be limited to thirty (30) minutes.

Electronic recording devices and cameras, in addition to those used as official recording devices, shall be permitted at public meetings under guidelines established by the Board:

1. Hand held tape recorders with their own battery packs may be used by the owner at the chair being occupied.

2. Any recording device which requires a special setting up which may restrict the viewing by those people sitting behind or in adjacent seats, or that makes interfering operating noises will be prohibited.

3. Moving about the meeting room to record video tapes, take pictures, or otherwise disrupt the orderly procedure during the meeting will be prohibited and any violator shall be asked to leave. Refusal to act on this request by the presiding officer will constitute sufficient grounds to contact the authorities, to prosecute under the law, or to recess or adjourn the meeting until order is restored.

No placards or banners will be permitted within the meeting room.

The meeting agenda and all pertinent documents shall be available to the press and public at the meetings.

### Guidelines

#### General Complaint Procedure

It is the intent of the Board that complaints, concerns and suggestions be addressed and/or resolved at the lowest appropriate level.

At all levels of this procedure, district employees shall make a determination as to whether the complaint should proceed as outlined in this policy or if the complaint should be submitted through a specialized complaint process addressed in a separate Board policy, district procedure or administrative regulation that is directly related to the nature of the complaint.
General complaints about Board policy and district procedures, programs, personnel, operations and facilities shall begin with an informal, direct discussion between the complainant and district employee who is most directly involved.

The employee shall attempt to provide a reasonable explanation or take appropriate action within the employee's authority. The employee shall report the matter and the resolution to the building principal or immediate supervisor.

When an informal discussion fails to resolve the complaint, the following procedure shall be used.

First Level - If a satisfactory resolution is not achieved by discussion with the employee, the complainant shall submit a written complaint to the building principal or designee and a conference shall be scheduled with the complainant. The written complaint shall include the contact information of the person or group filing the complaint, the specific nature of the complaint, a brief statement of relevant facts, how the complainant has been affected adversely, and the action requested. The Board, after reviewing all information relative to the complaint, shall provide the complainant with its written response. The Board may, at its discretion, grant a meeting with or hearing before the Board or a committee of the Board before providing its written response.

Any requests, suggestions or complaints first directed to individual Board members and/or the Board shall be referred to the Superintendent for consideration, investigation and action. If further action is warranted, based on the initial investigation, such action shall be in accordance with the procedures outlined above.

20 U.S.C. Sec. 7844
Introduction

The District’s electronic visitor management system is the Bonjou System. Bonjou replaces manual paper-based logs, allows schools and facilities to produce customized visitor badges, electronically checks persons against known sexual offender databases, and has the ability to check against multiple criminal databases and Private Alerts as deemed by administration. The overall goal is to better control of access to any Freeport Area School District school/facility, thus providing enhanced protection for our students and staff.

VISITOR MANAGEMENT SYSTEM PROCEDURES

1. All persons who are not assigned to the campus (staff or students) should wear a visitor’s badge with name and date information or District photo ID badge.
2. Any person observed in the building who does not have a visitor badge with the current date displayed or a District ID badge should be immediately escorted to the office.
3. Prior to the visitor’s entry to a building, the visitor will scan their state issued identification card or any alternative approved by the District.
4. Signs are placed at doors and potential entry points directing visitors to the front office to sign in as well as to remember to sign out when they leave.
5. If the visitor does not have acceptable photo identification available, the District can provide a visitor badge on a case-by-case basis.
6. The visitor will return to the office to check-out when they are leaving the campus. The visitor will be instructed to give the badge back to the office to check them out of the system. Once the visitor has been signed out of the system, the badge should be torn/shredded thoroughly so it cannot be reused. If a visitor forgets to check out, the visitor will be checked out automatically and educated the next time he/she checks in.
7. Subsequent visits to a building will require the visitor to check in and have a new badge printed.
8. If it appears that there is a match then appropriate parties (the School Resource Officer, Law Enforcement, district/school administrators, and others designated at the school site) will automatically be notified by e-mail, text message or on their cell phones of the problem and will respond.
LARGE GROUP ENTRY

Organized Groups Visiting During the School Day

Special arrangements can be made for the entry of large groups (generally 10 or more) arriving at approximately the same time in a building during the school day. The building administrator may make advance arrangements with the sponsor or leader of the group to bring the names of the group members with them for the visit. This list should be kept on file by the main office for verification of names while the group is in the building.

School Events or Special Activities During the School Day

Any group event during the school day, such as a parent social, may, at the discretion of the building administrator, not require the usual Bonjou check in. For large, daytime events such as awards ceremonies, the principal can make exceptions as seems reasonable.

Groups, School Events, or Special Activities Not During the School Day

School events outside of the school day such as student performances, parent teacher conferences, open houses, and athletic events do not require that visitors check in through the Bonjou system.

FREQUENTLY ASKED QUESTIONS (FAQ)

1) What is the Bonjou system?

Bonjou is a visitor registration system that enhances school security by reading visitor drivers’ licenses, comparing information to a sex offender or criminal databases, alerting campus administrators and security if a match is found, then (assuming no match was made) printing a visitor badge that includes a photo.

2) What’s the purpose of the Bonjou Visitor Management System?

It does several things:

- Identifies the visitor through a picture ID (see below for more details)
- Checks against the online sex offender registry and checks against a list of any building-entered prohibited persons (someone who has a No-Contact order; an expelled student; anyone whom the district administration has named as not being allowed to come in)
- Prints a Visitor’s Badge, with name, picture, date, time, and destination
3) Why is the Freeport Area School District using this system?
Safety of our students is our highest priority. Bonjou will provide a consistent system to track visitors and volunteers while keeping away people who present a danger to students and staff members. The system quickly prints visitor badges that include a photo, the name of the visitor, time and date.

4) How does it work?
Driver’s license (name and date of birth) information is compared to a database that consists of registered sex offenders from all states. If a match is found, campus administrators and school resource officer personnel can take appropriate steps to keep the campus safe. If Private Alerts have been entered at a building, Bonjou checks against those also.

5) What kinds of IDs will work in Bonjou?
Officially the scanner is able to scan all state licenses and state identification cards.

6) What other information is the school taking from driver’s licenses?
Bonjou is only scanning the visitor’s name, date of birth, and photo for comparison with a national database of registered sex offenders and any private alerts at that site. Additional visitor data will not be gathered, and no data will be shared with any outside company or organization. The visitor’s driver’s license number is not scanned from their license.

7) What does a visitor do if he or she doesn’t have a government issued ID?
The District will distribute District Visitor Approval Identification Cards for those individuals who don’t have a government issued ID. The visitor needs to show proof of name and date of birth at their building to obtain a district issued card. The application form is available at the end of this document.

8) What if the person refuses to show identification?
The office staff should contact the building administrator and/or SRO immediately. The administrator can question the individual and explain the process to them. The administrator, based on this knowledge of the person and situation, can make a determination to allow entry or refuse access to the facility and/or a student, or at the administrator’s discretion, the student and visitor can meet in the office.

9) What is the checkout process for leaving the building?
The checkout process doesn’t involve scanning the card again. The office staff would simply find the name of the person who is signing out from a list of visitors in the appropriate tab and click a “sign out” button. This provides a record of entry and departure and time in the building. The Bonjou badge should be returned to the operator and destroyed.
10) Does the District have the right to require visitors, even parents, to produce identification before entering the school?
Yes. You need to be sure of who is at your building, why they are there, and particularly if a student is involved (e.g., early pickup) be able to confirm that an individual has the authority to have access to the student. You can only do this by knowing exactly with whom you are dealing. See District policy #907, School Visitors.

SPECIAL CIRCUMSTANCES

Parents/Legal Guardians Who Are Registered Sex Offenders
In the event an identified parent or legal guardian of a student is listed on the sex offender database, he/she can still be granted limited access to the campus, while being escorted by school district personnel. The campus administrator will decide when and where this person can go and who will supervise his/her visit.

a. Campus administrators or school resource officers will meet with a parent or guardian if the parent or guardian appears to be matched with a person on the Bonjou sex offender database.
b. If the individual indicates that there is a mistake, please encourage them to contact the state listing their name to rectify the matter. Staff members may choose to give the parent a print out of the alert, if desired.
c. The campus administrator will send a letter on the guidelines that the parent or guardian must follow when on campus. Administrators may add specific guidelines as appropriate.
d. The SRO for that campus will be contacted to determine status of this individual and if there any conditions of their probation or parole that impact their access to the campus.
e. The parent or guardian will not be permitted to mingle with students or walk through the school unescorted.
f. Parents or guardians who require a teacher conference shall be encouraged to do so when other children are not in class and separated from the student population.
g. Failure to follow these procedures may result in the parent or guardian being banned from the campus.
1. **Purpose**
   **Pol. 917, 918**
   The Board believes that the education of students is a joint responsibility that is shared by the parents/guardians. To ensure that the best interests of each student are served in the educational process, a strong program of communication and cooperation between home and school must be maintained, and parental involvement encouraged.

2. **Authority**
   **Pol. 235**
   The Board feels that it is the parents/guardians who have the ultimate responsibility for their children's behavior in school, including the behavior of students who have reached the legal age of majority but are, for all practical purposes, under parental authority.

3. **Delegation of Responsibility**
   **SC 1317**
   During school hours, the Board acts in loco parentis or in place of the parents/guardians, through its designated administrators.

4. **Guidelines**
   Parents/Guardians are requested to keep the school staff apprised of changes in the home situation that may affect a student's conduct or performance.

   The Board directs that the following activities be implemented to encourage parent-school cooperation:

   **Pol. 212**
   1. Parent-teacher conferences to permit two-way communication between home and school.

   2. Open houses in district schools to provide parents/guardians the opportunity to see the school facilities, meet the faculty, and witness school programs.

   3. Meetings of parents/guardians and staff members to explain and discuss matters of general interest.

   4. Meetings of staff members and groups of parents/guardians of students having special abilities, disabilities, needs, or problems.

<tbody>
<tr>
<td>5. Special events of a cultural, ethnic or topical nature that are initiated by parent groups; involve the cooperative effort of students, staff and parents/guardians; and are of general interest to the schools or community.</td>

The Board believes that parents/guardians have a responsibility to support and encourage their child's career in school through the following actions:

1. Require that students comply with district policies and school rules and regulations and accept responsibility for their behavior.

2. Send students to school with proper attention to their health, personal cleanliness and dress.

3. Maintain an active interest in the student's daily work and provide appropriate supervision for completion of assigned homework.

4. Read, sign and return promptly all communications from school, when requested.

5. Attend conferences for the exchange of information on the student's progress in school.

6. Participate in school activities and special functions.

1. Purpose

The purpose of community engagement is to create a collaborative environment in which students, parents/guardians, families, residents, businesses, and community organizations are encouraged and invited to be involved stakeholders in the school community. Such engagement strengthens broad-based community support for the school district’s mission, goals, operations and educational programs.

2. Definition

Community engagement is defined as an ongoing collaborative process in which the school district works with the public to build understanding, guidance, and active support for the education of students in the community.

3. Authority

The Board endorses the concept that community engagement is essential for the school district and the community to maintain mutual understanding, respect and trust, and to work together to improve the quality of education for district students. The Board intends, through this two-way communication, to identify the community’s concerns, needs and suggestions, and to be responsive to the community through the Board’s actions.

The Board also recognizes that the public offers resources of training and experience useful to the schools. The quality of the district’s operations and programs can be strengthened when these resources are used in an advisory capacity.

The Board, with assistance from the administration, shall determine the appropriate strategy when utilizing the community engagement process.

The Board, in consultation with the Superintendent, shall identify a team of individuals who will be responsible for developing, implementing and delivering a community engagement program.

After the community engagement process is concluded, the Board shall make the final decision regarding an issue.
### 4. Delegation of Responsibility

The Board shall annually assess the effectiveness of the community engagement program.

The Board directs the administration to develop and implement a planned program of community engagement that regularly provides opportunities for students, parents/guardians, families, residents, businesses and community organizations to participate in dialogue and decision-making related to district-wide and school-based issues.

The administration shall develop and use varied, effective communication methods to ensure that all community members receive information about district and school programs and the available opportunities to become actively involved.

### 5. Guidelines

Students, parents/guardians and community members must submit to the Superintendent’s office any communications and questions addressed to the Board.

The Board and administration shall give substantial weight to the input received from the community. When evaluating the community’s suggestions, the Board and administration will consider the impact on the district’s goals, operations, educational programs, and financial resources. Recommendations made by the community shall not reduce the authority or responsibility of the Board, which may accept or reject such recommendations.

The district shall communicate to the community the Board’s decision and its rationale regarding an issue involving community engagement.

| 2. Definitions |

| Direct contact with children -- The possibility of care, supervision, guidance or control of children by a volunteer and routine interaction with children. |

| Routine interaction -- Regular and repeated contact that is integral to a person’s volunteer responsibilities. |

| A volunteer is any individual who performs a service for the School District without compensation, remuneration or other consideration and who otherwise meets the requirements of this policy. A volunteer must be at least 18 years of age. A volunteer need not be a parent of a student enrolled in the School District. A School District student who serves as equipment manager or assistant athletic trainer or who provides other volunteer assistance in support of a curricular, co-curricular or extra-curricular activity, other than an activity for children who are in the care of a child-care service, is not considered to be a volunteer for purposes of this policy. |

| A guest volunteer is an adult who voluntarily provides a service to the district, who: (1) works directly under the supervision and direction of a school administrator, a teacher or other member of the school staff; and (2) does not have direct contact with children. Examples include, but are not limited to, speakers at school assemblies, ushers at school concerts, collecting tickets at events, working concession stands, participating in "Career Day", etc. |

| A program volunteer is a volunteer who: 1) works under the general direction and supervision of a teacher or administrator employed by the District; and 2) provides direct services to students or may, from time to time, have or may be reasonably expected to have direct contact with children. Examples include: volunteer tutors; volunteers who assist on the coaching staff of an athletic team; volunteer athletic trainers or equipment managers (excluding School District students serving in those capacities); and choreographers, musicians and other individuals who provide instruction to students in the marching band or school musical. |
3. **Guidelines**

Final determination of a volunteer’s status is the responsibility of the principal or principal’s designee.

Under no circumstances shall a volunteer be considered an employee or independent contractor of the School District. A volunteer shall not receive wages, salary or other valuable consideration for the performance of his or her services. Holding the position of a volunteer is not a right, but a privilege conferred upon the volunteer by the Board, acting through the building principal of each school within the School District. The School District reserves the right to terminate the services or status of any volunteer at its exclusive discretion.

**Clearance and Training Requirements**

A program volunteer shall be required to complete, submit for approval, pay for and file in the office of the school building on whose behalf the volunteer renders such services an Act 34 criminal history report from the Pennsylvania State Police, an Act 114 federal criminal history report and an Act 151 child abuse clearance statement. Once the required clearances are on file with the School District, the program volunteer will be required, on an annual basis, to sign an affirmation that they have not perpetrated or been convicted of any offense that would preclude their employment by the School District under Act 34, Act 114 or Act 151 (“Volunteer Affirmation”). Program volunteers will be required to renew their state and federal criminal history reports and child abuse clearance statement every five years.

With the exception of any program volunteer who will participate in student activities that extend beyond a single day and/or occur overnight (in which case the volunteer must in all cases provide a federal criminal history report), a program volunteer shall not be required to obtain and provide a federal criminal history report if:

(a) the individual has been a resident of the Commonwealth of Pennsylvania during the entirety of the previous ten-year period or

(b) if the individual was not a resident of the Commonwealth of Pennsylvania during the entirety of the previous ten-year period but has obtained a federal criminal history report at any time since establishing residency in the Commonwealth of Pennsylvania and provides a copy of that report to the School District, and submits a Program Volunteer Affidavit affirming that they have not perpetrated or been convicted of any offense that would preclude their employment by the School District under Act 34, Act 114, or Act 151 or Section 6344(C) of the Child Protective Services Law.

A guest volunteer is not required to obtain clearances.

Program volunteers having direct contact with children for ten (10) or more hours per week shall undergo a tuberculosis examination in accordance with regulations of the Pennsylvania Department of Health and to furnish such report to the School District prior to performing services for the School District.
Role of Volunteers

The role of volunteers is to assist, but not replace or assume the professional or paraprofessional responsibilities or authority of, the School District staff. Volunteers shall not provide regular instruction or educational training to students enrolled in the School District.

Under no circumstances shall volunteers be permitted to administer or enforce discipline upon students enrolled in the School District.

Volunteers shall follow all applicable administrative procedures established pursuant to this policy and shall follow all other rules, regulations and administrative guidelines concerning the conduct of the professional and paraprofessional staff of the School District including all of the requirements of the Family Education Rights and Privacy Act (FERPA), provided, however that such rules, regulations and administrative procedures and guidelines shall not be deemed to expand the responsibility, authority or scope of activity applicable to volunteers under this policy.

Except in the case of an emergency, volunteers shall not administer first aid or other medical assistance to students.

Except as specifically authorized by the Board on a case by case basis, volunteers shall not be permitted to operate any motor vehicles owned by or under the control of School District, and volunteers shall not be permitted to transport students by motor vehicle in support of any school program.

Confidentiality

No volunteer shall be permitted to access, review, disclose, or use confidential student information, or participate in conversations in which confidential student information is discussed. Examples of such information include, but are not limited to, the following: grades or other measures of academic performance, class standing, standardized or other test scores, attendance records, disciplinary history, intelligence test scores, personality and interest test scores, individualized education plans, health data, family background information, teacher or counselor ratings and observations, and any other verified or unverified information contained in a student’s file maintained by the teachers, administrators or schools within the School District. If volunteers have questions about the confidentiality of student information, they are encouraged to consult with the building principal and/or review Section 216 (Student Records) of the School District’s Policy and Regulation Manual.

Each volunteer shall keep strictly confidential all information he or she may learn, during the course of performing services, about the students enrolled in the School District.
### 4. Delegation of Responsibility

Each school within the School District shall adopt its own administrative procedures for the recruitment, selection and assignment of volunteers; provided, however, that the following minimal requirements shall apply to all such procedures:

a. Each building principal or designee shall be responsible for training the volunteers to perform the specific duties associated with their assignments.

b. Each building principal or designee shall assume general authority and responsibility over the volunteers performing services of any kind at or on behalf of the school, including, without limitation, the responsibility for overseeing the filing of criminal history reports and child abuse clearance statements.

c. No such procedures adopted by the schools within the School District shall be inconsistent with the terms and conditions of this policy.

d. All such procedures adopted by the schools within the School District shall be subject to the approval of the Superintendent.

e. Program volunteers assisting with the coaching or supervision of athletic teams, the marching band or the school musical must be approved in advance by the Board of School Directors.

f. Each volunteer shall affirm in writing that he or she has been provided with a copy of, has read, understands and agrees to comply with this policy.

TITLE I PARENT AND FAMILY ENGAGEMENT POLICY
SOUTH BUFFALO ELEMENTARY SCHOOL

Purpose

The Board recognizes that meaningful parent and family engagement contributes to the achievement of state academic standards by students participating in Title I programs. This policy, developed by South Buffalo Elementary School in collaboration with and agreed to by parents and family members, describes how parents and family members will be engaged at the school level.

Components

The school complies with federal law related to the engagement of parents and family members by detailing how the school will:

1. Involve parents and family members in the planning, review and improvement of the school’s Parent and Family Engagement Policy:

   • As a component of the Schoolwide Title I planning process, parents are involved in the development/revision/update to the Parent and Family Engagement Policy. A committee is formed consisting of the Building Principal, special Services Coordinator, regular education teachers, special education teachers, instructional specialists, parents, and community members. One of the established meetings is reserved for the review of the existing plan, making revisions, and updating the engagement policy to meet the needs of the parents and school.

2. Convene an annual meeting, at a convenient time:

   • To which all parents and family members of participating children shall be invited, and encouraged to attend;

   • To inform parents and family members of their school’s participation as a Title I school; and

   • To explain the requirements and the rights of parents and family members to be involved.

   • Each school year will begin with an opening informational meeting where the teachers and administrators are present to discuss the program and explain the processes. Parents will be provided with a description and explanation of the curriculum in use at the school, the forms of academic assessments used to measure student progress, and the achievement levels of the challenging state academic standards. All parents are invited and encouraged to attend. This is followed by at least two parent advisory meetings where suggestions are requested. In addition, an annual survey/needs assessment is sent to all parents.
3. Offer a flexible number of meetings in the morning and/or the evening, and may provide Title I funds, if sufficient, to facilitate parent and family member attendance at meetings through payment of transportation, child care costs and/or refreshments.

- Based upon the results of the parents’ needs assessment, meetings are scheduled in the evening, during the school day, or in the morning prior to the start of the school day in order to maximize parent participation. Title I funds are reserved in the budget for facilitation of parent engagement activities, as detailed in the Consolidated Application.

4. Involve parents and family members, in an organized, ongoing, and timely way, in the planning, review, and improvement of the Title I program, including the planning, review, and improvement of the school’s parent and family engagement program:

- Parents are involved in the development/revision/update to the overall schoolwide Title I plan, which includes the revision and improvement of the Parent and Family Engagement Policy. A committee is formed consisting of the Building Principal, special Services Coordinator, regular education teachers, special education teachers, instructional specialists, parents, and community members. Meetings are held during the school year to review the existing plan, make revisions, and update the plan (including goals, professional development, and parent engagement activities) based upon the comprehensive need assessment. Parents are also involved through the committee, as well as an advisory committee of interested parents, for the purpose of revising the Parent and Family Engagement Policy, School-Parent-Compact, and other related Title I forms.

5. Provide parents and family members of participating children with timely information about the Title I program:

- Aside from the annual Title I parent meeting at the onset of the school year, The South Buffalo Elementary School will notify parents of available parent involvement activities, workshops, and trainings via letters, flyers, notes, emails, website postings, and social media. Teachers will routinely send home materials as guided practice with directions for the parents to participate, as well as online resources that can foster involvement. The school will offer assistance to parents and family members on how to monitor a child’s progress and work with teachers to improve the achievement of their children. Materials and trainings will be provided to parents in the areas of literacy and the use of technology to encourage involvement.

6. Provide parents and family members of participating children with a description and explanation of the curriculum in use at the school, the forms of academic assessments used to measure student progress, and the achievement levels of the state academic standards:

- During the annual parent meeting at the onset of the school year, the building principal provides parents and family members with a description of the curriculum used at the school, as well as the forms of academic assessments used to measure student progress, such as PSSA, NWEA MAP, DIBELS, and DRA. At this meeting, the building principal also reviews the school’s prior year scores on the PSSA for ELA, Math, and Science.
7. Provide, if requested by parents and family members, opportunities for regular meetings to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children, and respond to any such suggestions:

- In addition to the annual Title I parent meeting at the onset of the school year, opportunities for regular meetings to formulate suggestions and participate in decisions relating to the education of their children occur during monthly Title I schoolwide planning sessions, parent advisory meetings, parent trainings and workshops, open house, needs assessments surveys, and parent-teacher conferences during the school year. The building principal and the teaching staff are also available by appointment as needed to discuss with parents any topic related to the education of their children.

8. Involve parents and family members in the joint development of the Schoolwide Program Plan in accordance with federal law. [Note: applies only to Title I schools operating a Schoolwide Program]:

- Parents and family members are involved in the joint development of the Schoolwide Program Plan through an invitation to join both the South Buffalo Elementary Schoolwide Planning Committee, as well as the South Buffalo Elementary Parent Advisory Committee. Monthly meetings are held to develop the plan for the upcoming school year consisting of goal development based upon a teacher and parent needs assessment, plan professional development for the staff with parent input, create parent involvement opportunities through trainings and workshops, and review, revise, and create required Title I forms.

9. Create a school-parent and family compact developed jointly with parents and family members outlining how parents and family members, the entire school staff, and students will share in the responsibility for improved student academic achievement and the means by which the school and the parents and family members will build and develop partnerships to help children achieve the state’s academic standards. The compact shall:

- Describe the school’s responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables children in Title I programs to meet the state academic standards, and the ways in which each parent and family member will be responsible for supporting their children’s learning; volunteering in their child’s classroom; and participating, as appropriate, in decisions relating to the education of their children and positive use of extracurricular time and

- Address the importance of communication between teachers and parents and family members on an ongoing basis through, at a minimum:
  - Teacher conferences with parents and family members in elementary schools, at least annually, during which the compact shall be discussed as the compact relates to the individual child’s achievement;
  - Frequent reports to parents and family members on their children’s progress;
Reasonable access to staff, opportunities to volunteer and participate in their child’s class, and observation of classroom activities; and

Ensuring regular two-way, meaningful communication between parents and family members and school staff, in a language that parents and family members can understand.

- The South Buffalo School-Parent and Family Compact is developed jointly with parents and family members during the Schoolwide Title I Planning process. All parents will receive a hard copy of the collaboratively developed School-Parent-Student Compact on the first day of school. The compact will outline how parents, the entire school staff, and students will share in the responsibility for improved student academic achievement and the means by which the school and the parents will build and develop partnerships to help children meet the State’s high academic standards. The compact, along with all other Title I documents, procedures, policies, and resources will be posted on the District’s Title I website.

- Parent Conferences are held for all students twice a year, and an additional two parent conferences are held for parents whose children require additional services, or who are struggling academically. The school schedules evening conference hours, as well as daytime hours. During this time, teachers review the academic standards, the child’s present level of instruction, assessments scores (i.e. DIBELS, DRA, NWEA MAP), as well as teacher crafted assessments and instructional strategies. In addition to the scheduled conference dates, the school’s reading specialist, RTII specialist, and building principal are available upon request to meet with parents to further review progress.

- Numerous opportunities exist to volunteer in the classroom and at school functions, provided parents possess the required clearances. The school will provide direction and assistance to parents to obtain said clearances. The South Buffalo Elementary School will notify parents of available parent involvement activities and will work with them to provide accommodations.

10. Provide assistance to parents and family members in understanding the state academic standards, state and local academic assessments, and how to monitor a child’s progress and work with teachers to improve the achievement of their children:

Teachers will routinely send home materials as guided practice with directions for the parents to participate, as well as online resources that can foster involvement. The school will offer assistance to parents and family members on how to monitor a child’s progress and work with teachers to improve the achievement of their children. Materials and trainings will be provided to parents in the areas of literacy and the use of technology to encourage involvement.
11. Provide materials and training to help parents and family members to work with their children to improve their children’s achievement, such as literacy training and using technology including education about the harms of copyright piracy, as appropriate, to foster parent and family involvement:

- Workshops are offered in the evening each school year by appropriate school personnel to provide materials and trainings to parents and family members to improve their children’s academic performance. Literacy training and the use of technology to facilitate educational growth workshops are offered on a yearly basis. Appropriate use of technology and Internet safety are topics covered in the workshop. Teachers also discuss these items at parent-teacher conferences, and information is posted on the school’s Title I website.

12. Educate teachers, specialized instructional support personnel, and other staff, with the assistance of parents and family members, in the value and utility of contributions of parents and family members, and in how to reach out to, communicate with, and work with parents and family members as equal partners, implement and coordinate parent programs, and build ties between parents and family members and the school:

These topics and trainings are delivered to the staff at building level meetings by the building principal with assistance from parents.
