March 25, 2020

Good afternoon FASD Families and Community:

The Freeport Area School District is committed to sharing information about important issues affecting our families and community in relation to the ongoing COVID-19 pandemic. Our District has been advised that a member of our High School community has tested positive for COVID-19.

While the District cannot provide more specifics due to privacy rights, if you have any questions regarding your own health, please consult a health professional.

It is worthy of note that the person in question was asymptomatic at last contact with the school campus; however, we are issuing this notice out of an abundance of caution. According to officials at the Department of Health, you or your family member was unlikely to be exposed or is at least at a very low risk.

Be assured of any necessary additional communications as we continue to collaborate and receive guidance from the Health Department.

This notice is to inform, rather than frighten. We understand this is a period of high anxiety throughout our country. If you have questions or for more information, you are encouraged to visit <https://www.cdc.gov/coronavirus/2019-nCoV/index.html> and to review the latest guidance available.

Thank you for your understanding and compassion for people affected by this illness, including this member of our Freeport family. We share your concerns about this news, which is a sign of how COVID-19 is spreading throughout our region. Everyone is asked to take additional precautions to stay healthy and limit the spread of this illness.

Stay safe and be well,

Ian M. Magness
Superintendent
